Lubricate

Note : Only use this on engines with a trunion type front mount.

Use high performance, industrial-type grease (NLGI Grade Number 2) fortified with extreme pressure (EP) additives, such as BP Energrease™ FPG or Castrol Spheerol™ EPL 2 grease, or its equivalent.

If above greases are **not** available locally, contact a Cummins® Distributor for advice on other Cummins® approved equivalents.

Lubricate the support until grease appears on the outside of the support.
