Specifications

Coolant Capacity

Engine only with hydromechanical injectors 32.2 liters [34 qt]

Coolant Capacity

Engine only with electronic injectors 42.2 liters [44 qt]

Standard Modulating Thermostat Range	82° to 94°C [180° to 202°F]
Standard LTA Thermostat Range	69° to 78°C [157° to 172°F]
Maximum Coolant Pressure (exclusive of pressure cap)	241 kPa [35 psi]
Maximum Allowable Top Tank Temperature	100°C [212°F]
Minimum Recommended Top Tank Temperature	70°C [160°F]
Maximum Allowable Deaeration Time	25 minutes
Minimum Allowable Drawdown or 20% of System Capacity (whichever is greater)	11 liters [12 qt]
Minimum Allowable Pressure Cap Relief (at sea level)	50 kPa [7 psi]
Maximum Allowable Pressure Cap Relief (at sea level)	103 kPa [15 psi]
