Injectors and Fuel Lines

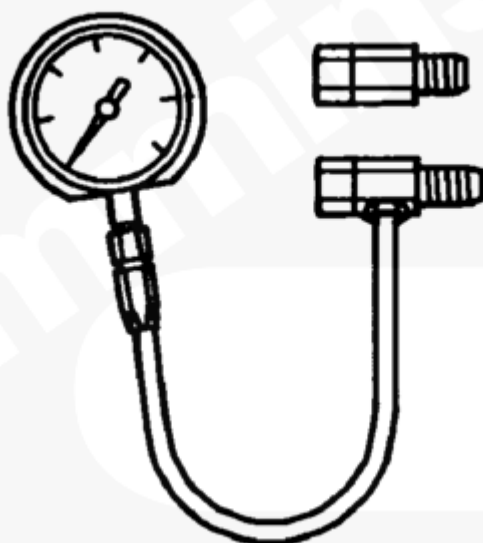

Tool Number

ST-434

Vacuum Gauge

Used to measure fuel pump inlet restriction. Includes hose adapter (number 12 hose SAE), and hose adapter (number 10 hose SAE).

©Cummins Inc

eg8togc

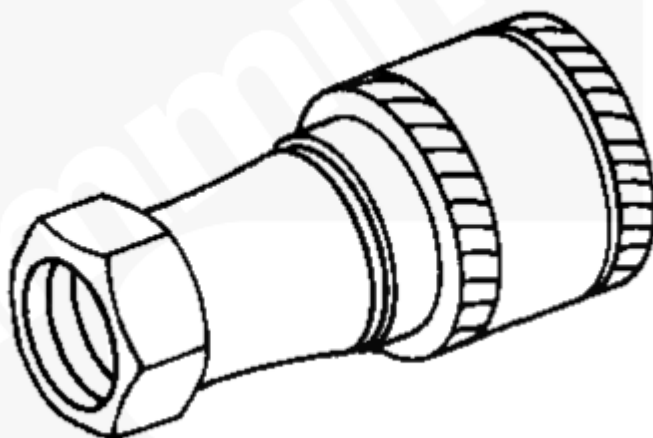

Tool Number

ST-435-7

Fitting

Used to connects gauges when measuring various fuel pressures.

©Cummins Inc

st-435-7

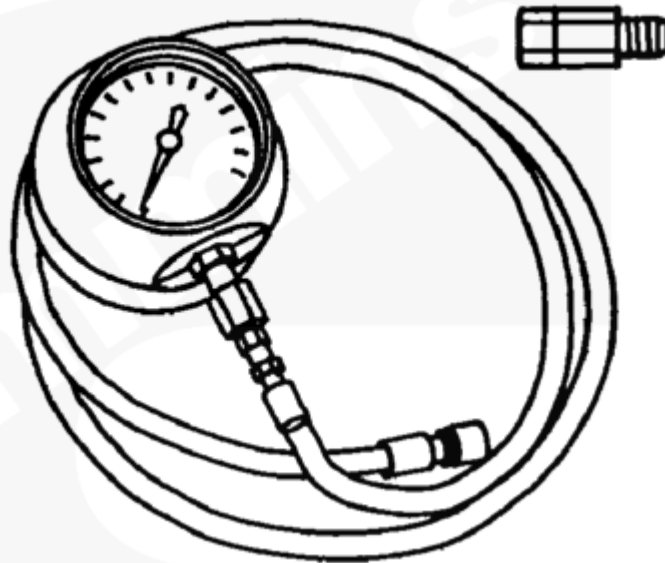

Tool Number

ST-1273

Pressure Gauge

Used to measure injector drain line restriction when used with drain adapter.

©Cummins Inc

eg8togi

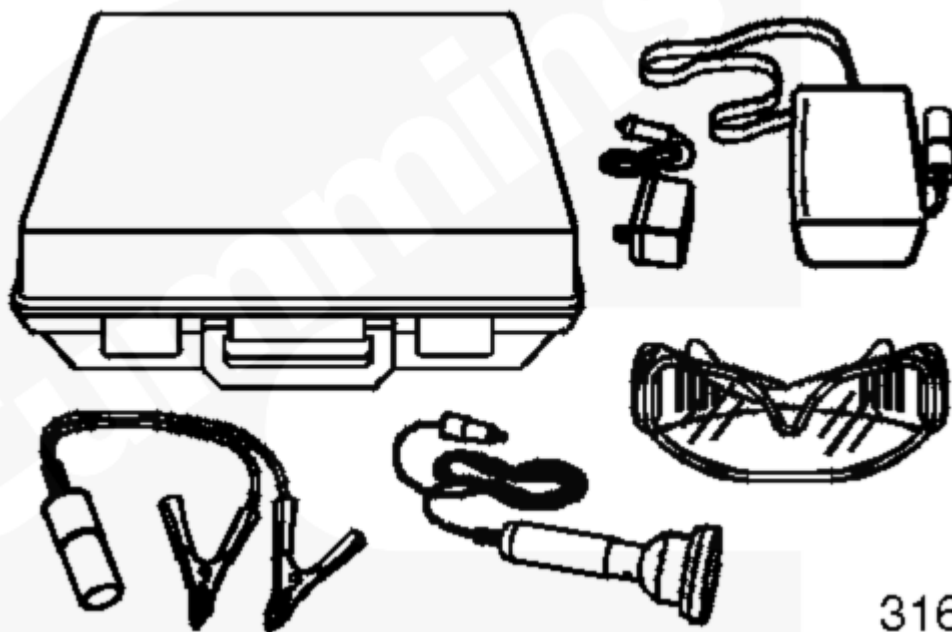

Tool Number

3163337

Battery Black Light/Lamp (100 watt)

Used in connections with fluorescent tracer, Part Number 3376891, or equivalent, and Part Number 3377438, or equivalent, for detecting fuel, oil, or coolant leaks.

©Cummins Inc

3163337

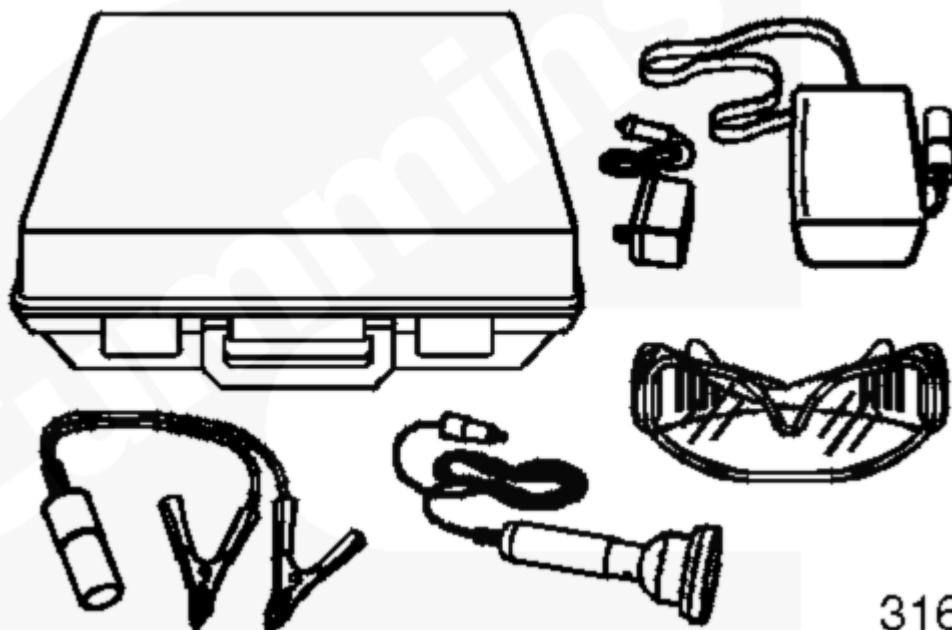

Tool Number

3163338

Battery Black Light/Lamp (60 watt)

Used in connections with fluorescent tracer, Part Number 3376891, or equivalent, and Part Number 3377438, or equivalent, for detecting fuel, oil, or coolant leaks.

3163337

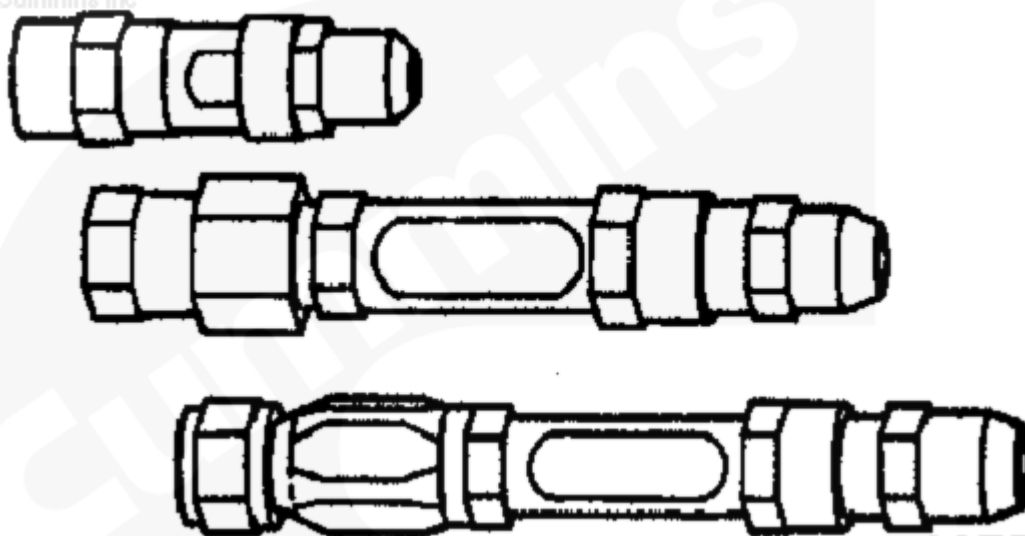

Tool Number

3164383

Fuel Sight Glass Kit

Used to check for air in fuel suction line (number 10 hose SAE).

©Cummins Inc

3375362

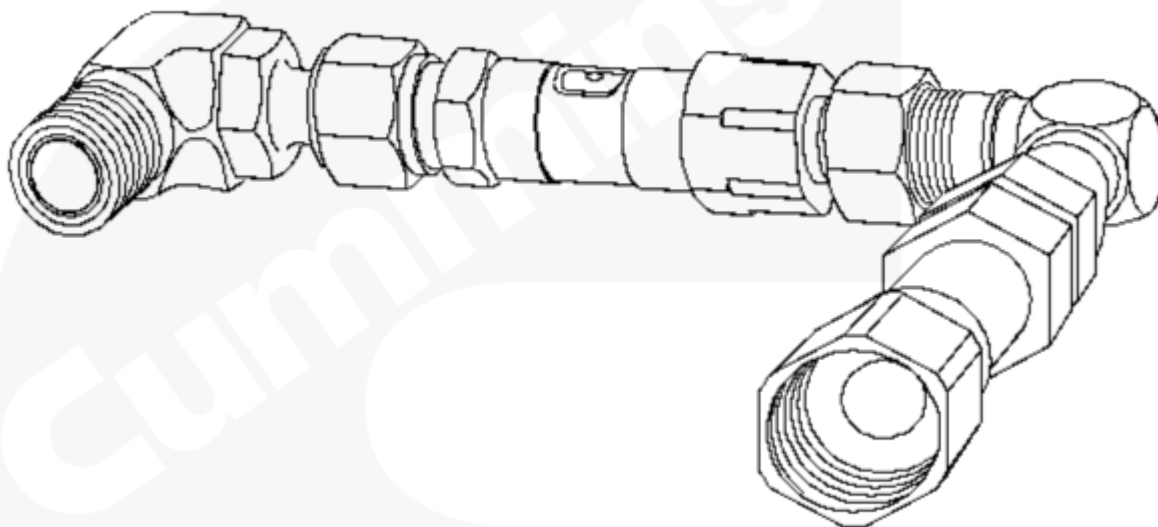

Tool Number

3164387

In Line Fuel Sight Glass Kit

Kit contains two 90 degree fittings to adapt the sight glass gauge, Part Number 3164383, to fit the flat face o-ring seal fittings.

06400116

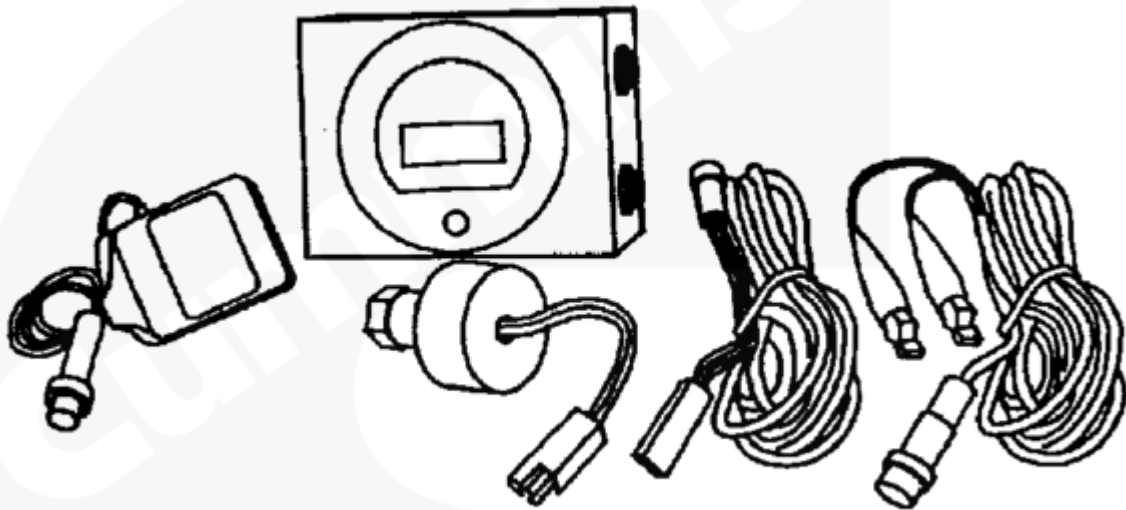

Tool Number

3375631

Digital Tachometer Assembly

Portable digital tachometer is used to test engine speed on the fuel pump stand, field kits, dynamometers, and other applications.

3375631,

Tool Number

3376891

Fluorescent Tracer

Used to install in engine oil or fuel. Use with a black light to read oil, coolant, or fuel leaks.

©Cummins Inc

3376891

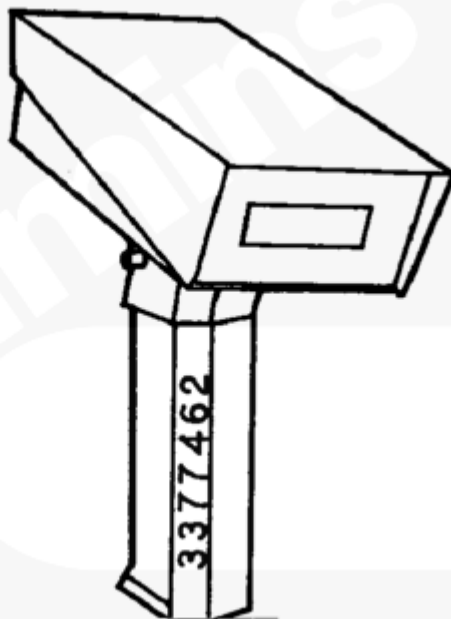

Tool Number

3377462

Optical Tachometer

Used to measures engine RPM. Use with reflective tape, Part Number 3377464.

©Cummins Inc

3377462,

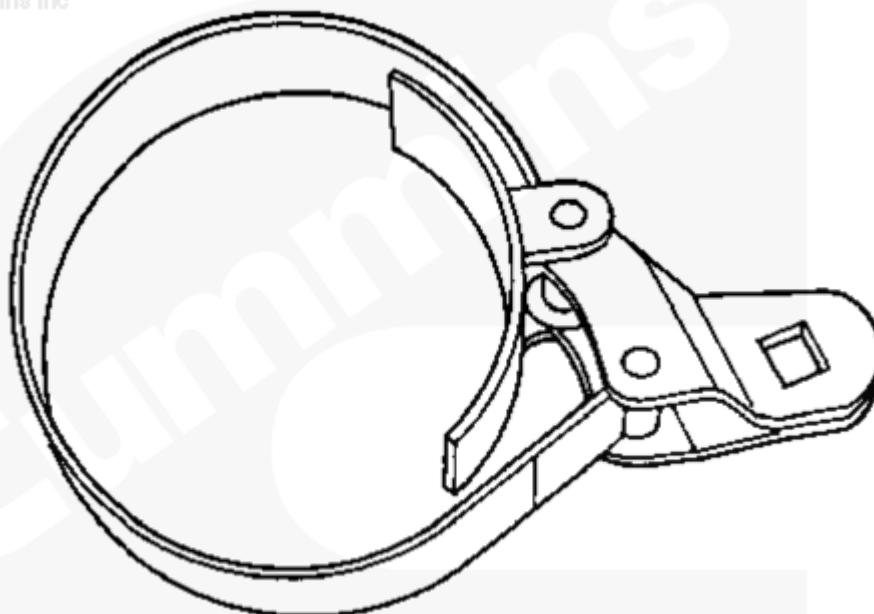

Tool Number

3400157

Filter Wrench

Used to remove fuel filter.

©Cummins Inc

3375049

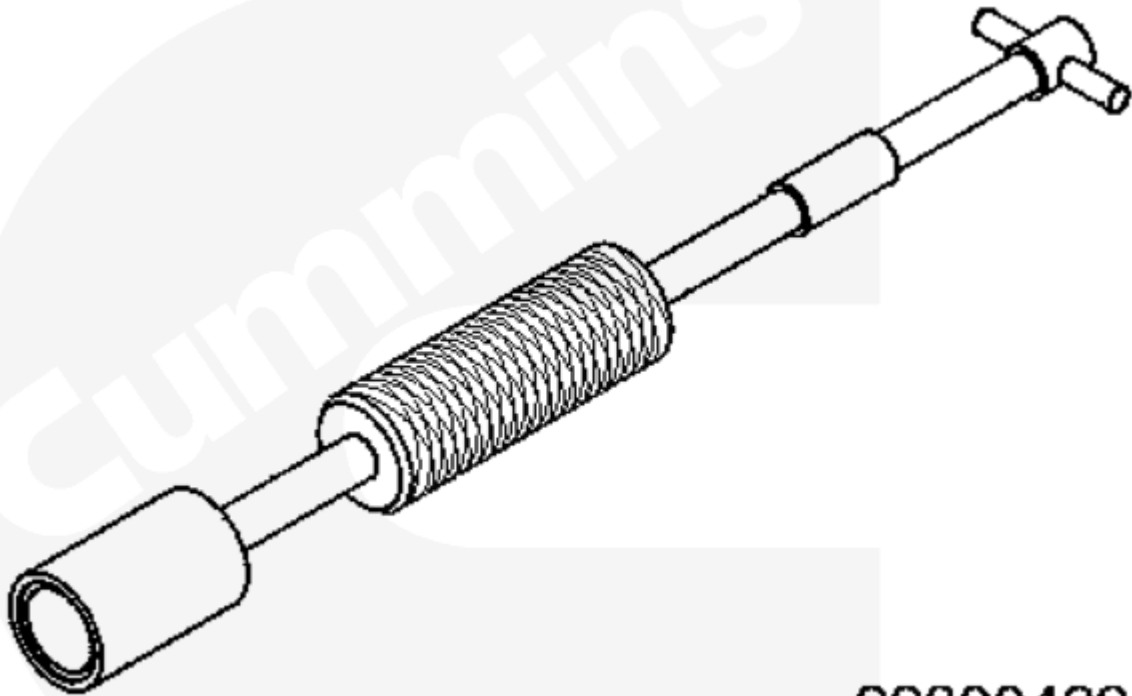

Tool Number

3823580

Injector Removal/Installation Tool

(For Mechanically Actuated Injector Engines) Used to remove and install the QSK injector.

©Cummins Inc

**22800429**

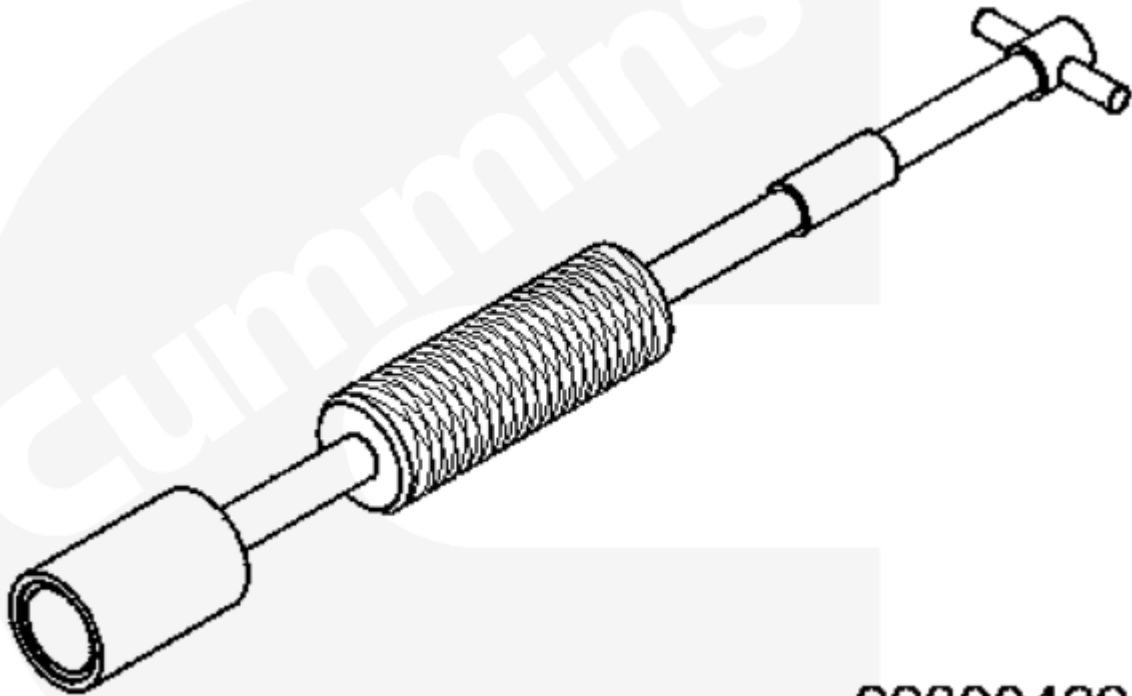

Tool Number

3824830

Injector Removal/Installation Tool

(For Mechanically Actuated Injector Engines) Used to remove and install the QSK injector.

©Cummins Inc

**22800429**

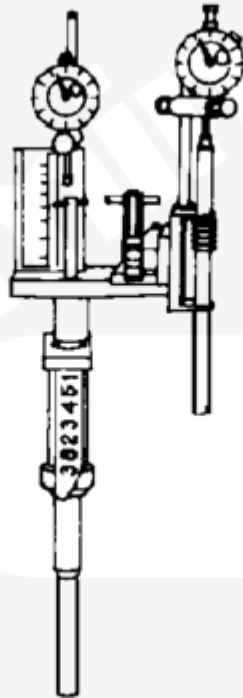

Tool Number

3824942

Injection Timing Tool

Used to check injection timing. The timing fixture is designed to determine the push tube travel in relation to the piston travel.

©Cummins Inc

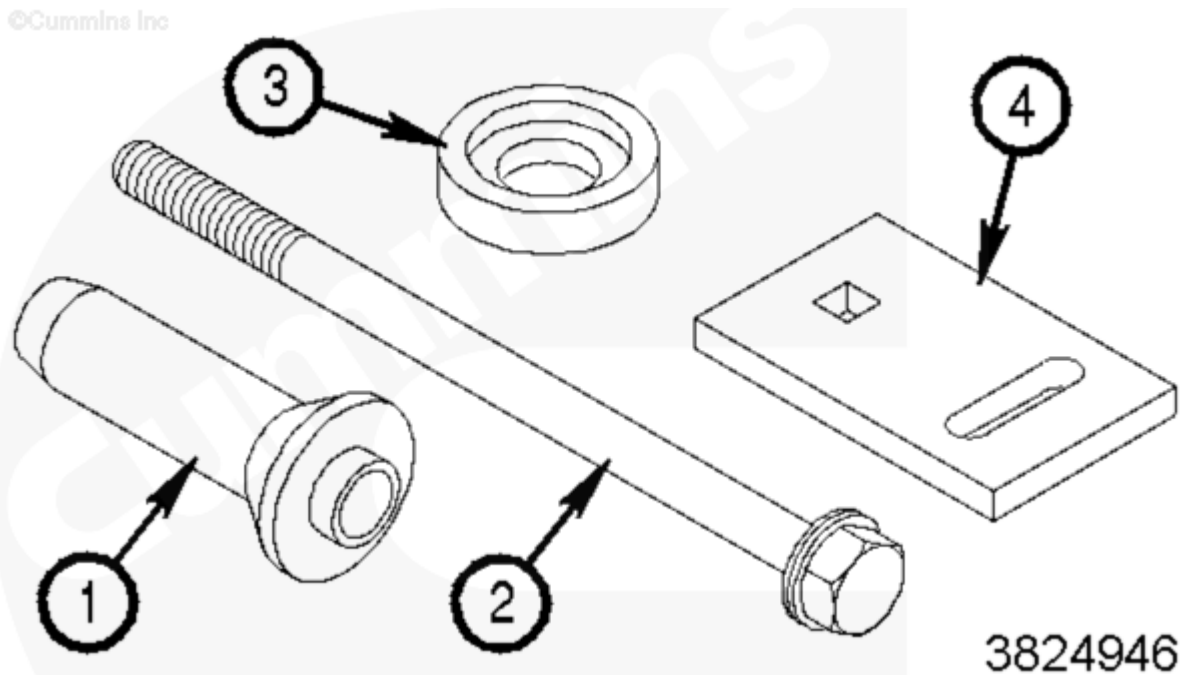

3823451

Tool Number

3824946

Injector Timing Tool Up-Date Kit

Update kit for previous universal injection timing tool, Part Number 3823451, to include QSK19 hardware.

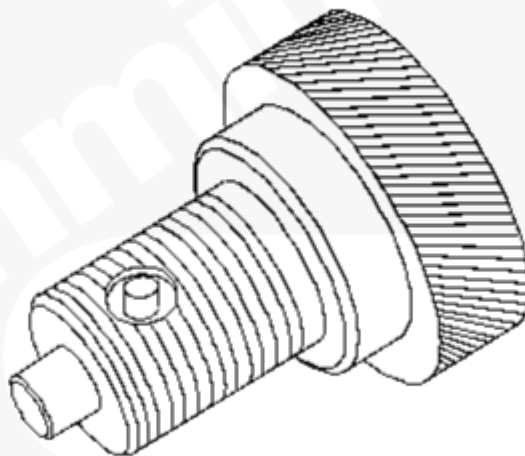

**Tool Number**

3825165

Single Injector Diagnostic Cut-Out Tool

(For Mechanically Actuated Injector Engines) Used to locate defective or weak injectors.

©Cummins Inc

3825165

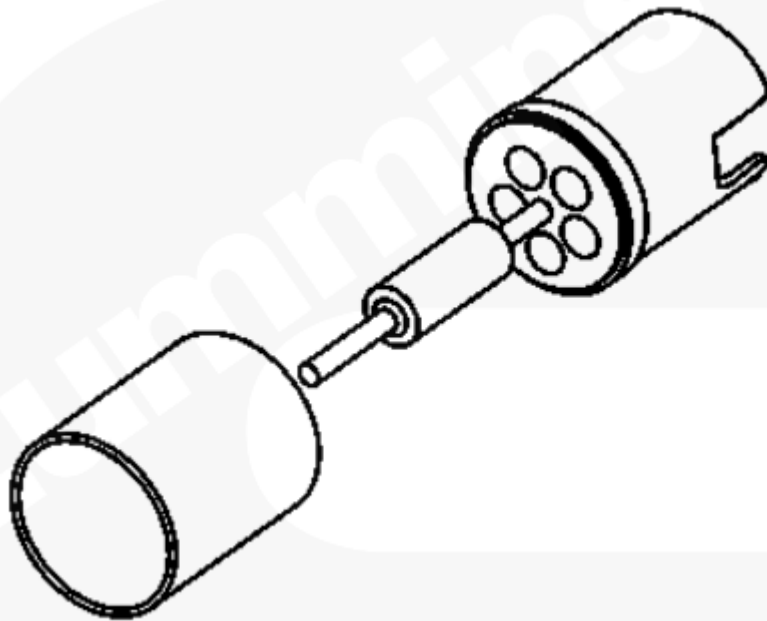

Tool Number

4918218

Injector Removal and Installation Tool

(For Electronically Actuated Injector Engines) Used to remove and install QSK injectors.

©Cummins Inc

22400239

Tool Number

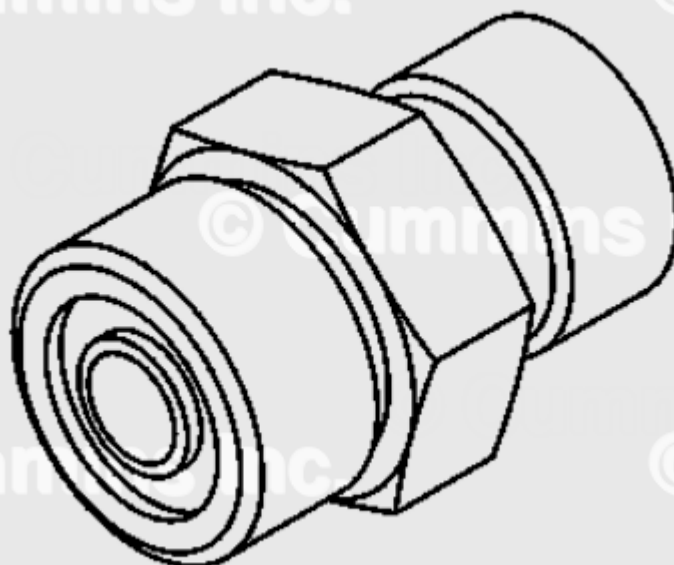

4918612

Fuel System Tester

Used to measurements of fuel inlet restriction.

© Cummins Inc.

© Cumn

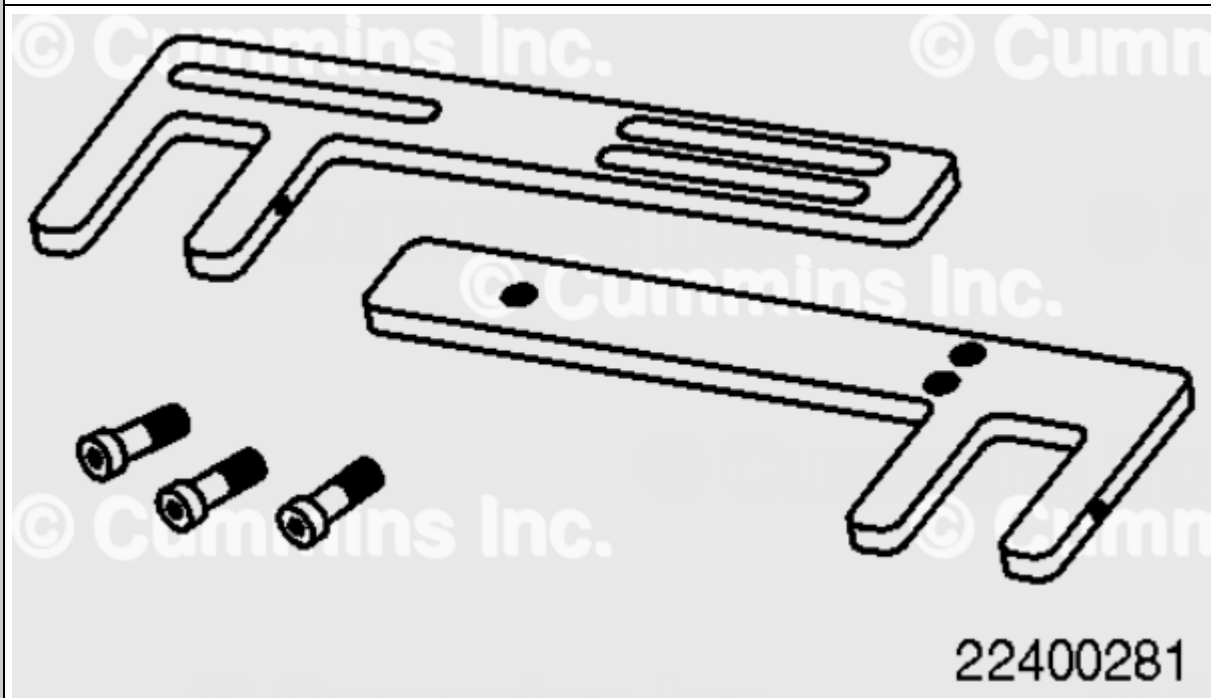

22k00011

Tool Number

4918620

Installer, Injector

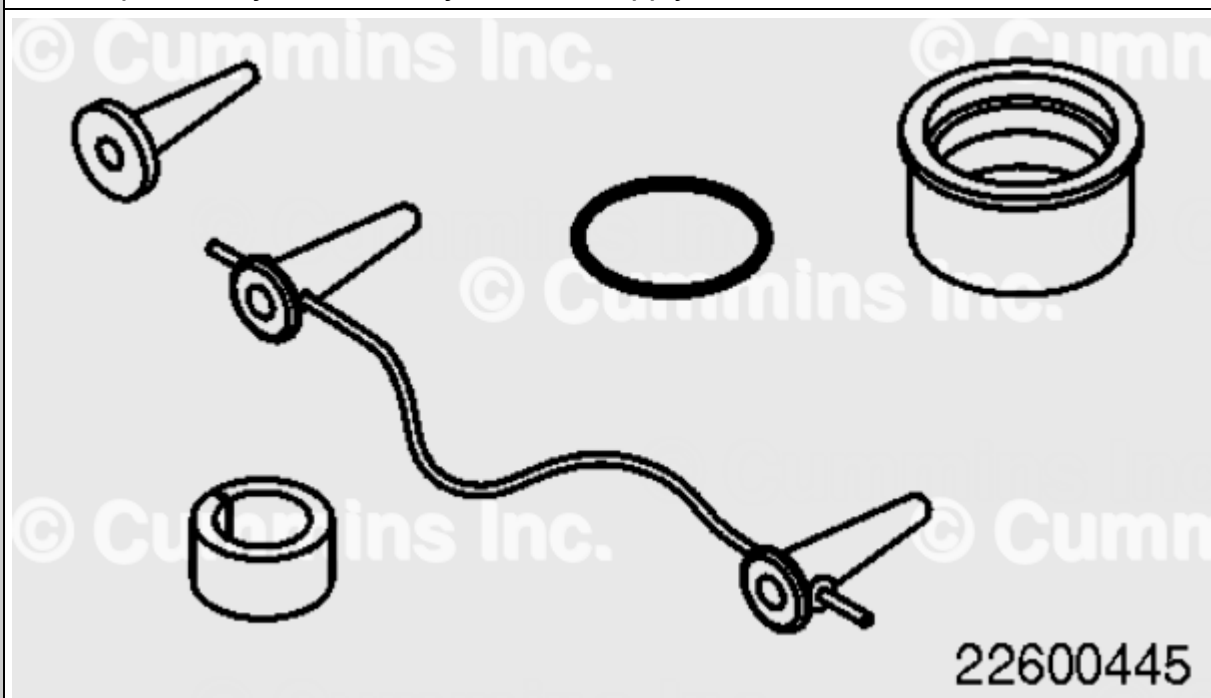

Used to align the injectors for proper installation of the injector fuel lines.

**Tool Number**

4918934

Kit, Protective Cover

Used to protect injectors and injector fuel supply lines from debris.

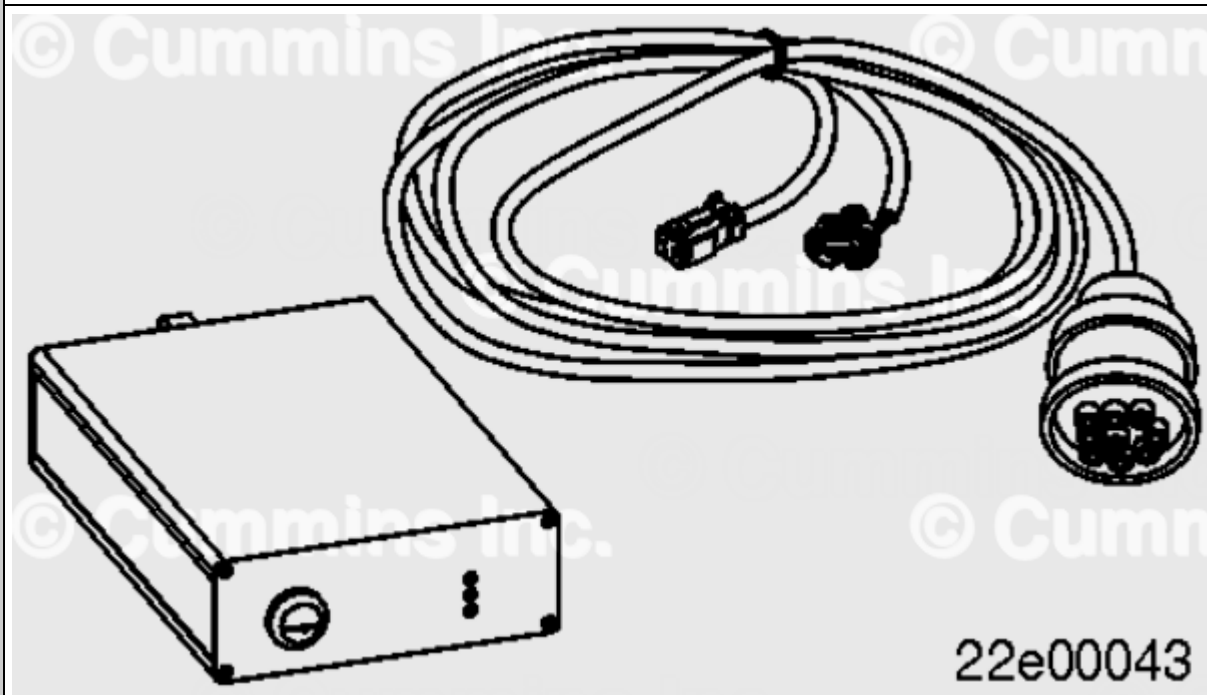

Tool Number

2892293

Injector Tester

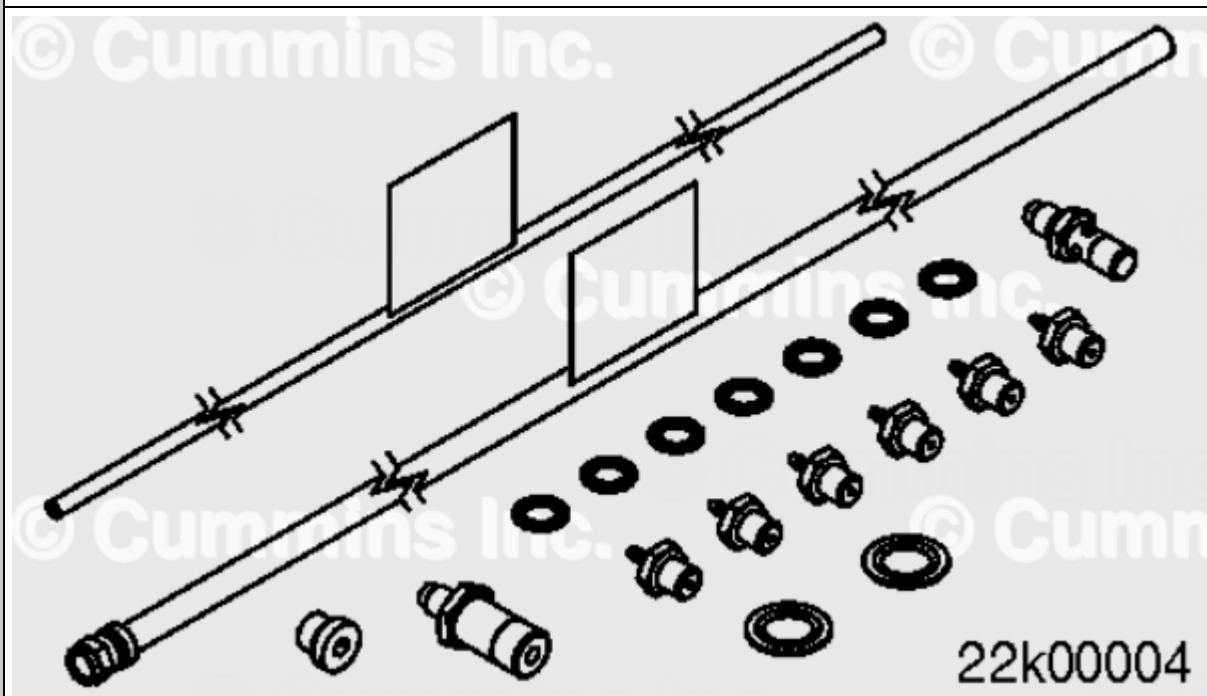

Used to test all MCRS injectors to determine if the solenoid is functioning properly.

**Tool Number**

2892246

Fuel System Leak Test Kit

Used to test the MCRS fuel system and injectors for leaks.
