Engine Dataplate

The engine dataplates show specific information about your engine. The engine serial number and control parts list (CPL) provide information for ordering parts and service manuals.

Note : The engine dataplate must not be changed unless approved by Cummins.

The dataplate is located on the top side of the gear housing. Have the following engine data available when communicating with a Cummins Authorized Repair Location. The information on the dataplate is **mandatory** when sourcing service parts.

©Cummins Inc

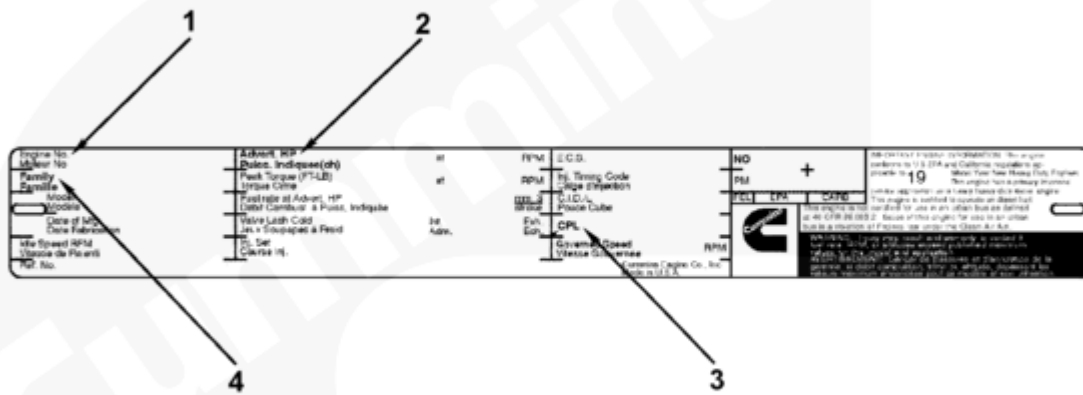

The image shows a Cummins Engine Dataplate form. It contains various fields for engine identification and specifications. Numbered callouts point to the following fields:

- 1. Control parts list (CPL)
- 2. Model
- 3. Engine serial number
- 4. Emissions certification
- 5. Horsepower and rpm rating

 Cummins Engine Company, Inc. Columbus, Indiana 47202-3005 Assembled in U.S.A.	CID/L		CPL		Engine Serial No.		FEL	EPA
	Family				C/S		Nox	
					Engine Model		Pm	
	Valve lash				Timing -			
Warnings: Injury can result and warranty is voided if fuel rate rpm or altitudes exceed published maximum values for this model and application.	Cold		Inch	Int.	Exh			
			MM	Int.	Exh			
Date of MFG. 20010501 Assembled in U.S.A. 3284906		Firing Order 1 5 3 6 2 4				FR	Low Idle RPM	
		Gross Rated HP/KW				at RPM

20. Made in U.S.A.
21. Engine certification identification (currently **not** used on marine).

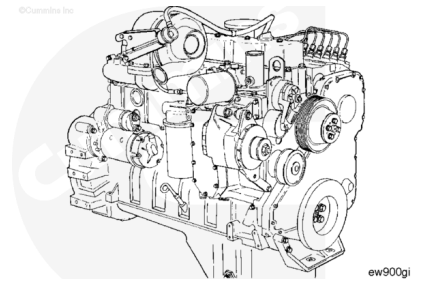

Cummins® Engine Nomenclature

Industrial Applications

6CTAA8.3 Industrial Applications

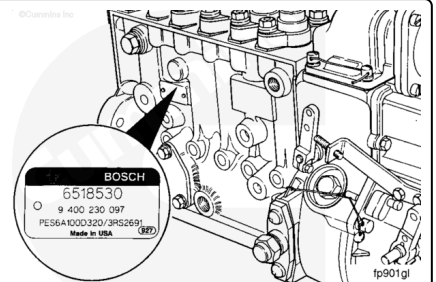

- 8.3 = displacement in liters

- AA = charge air aftercooled
- T = turbocharged
- C = engine series
- 6 = number of cylinders

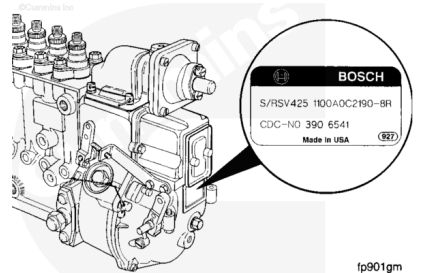

Fuel Injection Pump Dataplate

The Bosch® fuel injection pump dataplate is located on the side of the injection pump. It provides information for fuel pump calibration.

The Cummins part number for the fuel pump-governor combination is located on the governor dataplate.

ECM Dataplate

The external ECM dataplate is located on top of the ECM.

The dataplate contains the ECM part number (P/N), the ECM serial number (S/N), the manufacturing date code (D/C), the engine serial number (ESN), and the ECM code.
