General Information

Most of the maintenance operations described in this manual can be performed with common hand tools (metric and S.A.E. wrenches, sockets, and screwdrivers).

The following is a list of special service tools required for some maintenance operations:

Tool Part Number	Description
3375045	Torque wrench 136 N•m [100 ft-lb]
locally obtained	Silicon lubricant spray
locally obtained	Brass rod, 4.76 mm [3/16 in] diameter
CC-2602J	Fleetguard DCA4 test kit
CC-2802	Coolant test kit
3824591	Engine barring gear
3375049	Oil filter wrench
3824556	Charge-air cooler (CAC) pressure kit
3376807	Engine coolant and fuel filter wrench
3822524	Belt tension gauge, click type (v-belts and v-ribbed with four or five ribs)
3822525	Belt tension gauge, click type (v-ribbed with six to twelve ribs)

Contact the nearest Cummins Authorized Repair Location for the required service tools.

A computer is required to run the OEM software. Contact a Cummins Authorized Repair Location for information on hardware requirements.
