Specifications

Fleetguard® is a subsidiary of Cummins Inc. Fleetguard® filters are developed through joint testing at Cummins Inc. and Fleetguard®. Fleetguard® filters are standard on new Cummins® engines. Cummins Inc. recommends their use.

Fleetguard® products meet all Cummins Inc. Source Approval Test standards to provide the quality filtration necessary to achieve the engine's design life. If other brands are substituted, the purchaser **must** insist on products the supplier has tested to meet Cummins Inc. high-quality standards.

Cummins Inc. can **not** be responsible for problems caused by non-genuine filters that do **not** meet Cummins Inc. performance or durability requirements.

QSK45 and QSK60 engines are now using Fleetguard® LF9024 filters, or LF 9034 filters, Cummins® Part Numbers 3101870 and 4197219. These filters are venturi combo style filters (full flow and bypass components are used in the same filter), and mount to the existing filter head on all QSK45 and QSK60 engines. There are two different part numbers because the LF 9034 is able to resist the additional additive package seen by the filter when Centinel™ is used.

When using a lubricating oil filter (full flow **only**) a lubricating oil filter (bypass) **must** also be used.

Lubricating Oil Filter (full flow only)

- Cummins Inc., Part Number 3889310
- Fleetguard®, Part Number LF670.

Lubricating Oil Filter (bypass)

- Cummins Inc., Part Number 3889311
- Fleetguard®, Part Number LF777.

Lubricating Oil Filter (venturi combination for use with Centinel™).

- Cummins Inc., Part Number 4197219
- Fleetguard®, Part Number LF9034.

Lubricating Oil Filter (venturi combination for use without Centinel™)

- Cummins Inc., Part Number 3101870
- Fleetguard®, Part Number LF9024.

Lubricating Oil Filter for Fuel Pump Oil Bypass Circuit (PowerGen engines with electronically actuated injectors)

- Cummins Inc., Part Number 3908616
- Fleetguard®, Part Number LF3345.

Fuel Filter (20 micron, no water separation, engines with mechanically actuated injectors)

- Cummins Inc., Part Number 3313306
- Fleetguard®, Part Number FF202.

Fuel Filter (10 micron, with water separation, engines with mechanically actuated injectors))

- Cummins Inc., Part Number 3089916
- Fleetguard®, Part Number FS1006.

Fuel Filter (marine applications) (10 micron, water separation with metal drain valve)

- Cummins Inc., Part Number 3959569
- Fleetguard®, Part Number FS1013.

Coolant Filter

- Cummins Inc., Part Number 3100308
- Fleetguard®, Part Number WF2075.

Air Filter (Marine Applications)

- Cummins Inc., Part Number 4916129

Stage 1 Fuel Filter - FH234 Series Industrial Pro (StratoPore™ media with water separation, engines with electronically actuated injectors)

- Fleetguard®, Part Number FS19763

Stage 1 Fuel Filter - FH239 Series Industrial Pro (NanoNet™ media with water separation, engines with electronically actuated injectors)

- Cummins Inc., Part Number 4328043
- Fleetguard® Part Number FS53014

Stage 1 Fuel Filter - FH240 Series Sea Pro (NanoNet™ media with water separation, engines with electronically actuated injectors)

- Cummins Inc., Part Number 4380017
- Fleetguard®, Part Number FS53022

Stage 2 Fuel Filter (NanoNet™ media, no water separation, engines with electronically actuated injectors)

- Cummins Inc., Part Number 5417137⁽¹⁾
- Fleetguard®, Part Number FF5782NN⁽¹⁾

(1) - An equivalent Stage 2 fuel filter can be used, but it **must** meet or exceed the following characteristics:

- Beta Ratio (filtration efficiency) rating of $\beta_{4@} = 1000$

Fleetguard® DCA4 Service Filters and Liquid Precharge

Install service filter(s) and/or liquid containing the number of supplemental coolant additive (SCA) units below:

DCA4 Service Filters			DCA (Fleetcool) Service Filters		
Part Number		SCA Units	Part Number		SCA Units
WF2070		2	WF2050		2
WF2071		4	WF2051		4
WF2072		6	WF2052		6
WF2073		8	WF2053		8
WF2074		12	Not available		12
WF2075		15	WF2054		15
WF2076		23	WF2055		23
WF2077		(blank filter without SCAs)	WF2077		(blank filter without SCAs)
DCA4 Liquid			DCA (Fleetcool) Liquid		
Part Number	Size	SCA Units	Part Number	Size	SCA Units
DCA60L	0.47 liter [1 pt]	5	DCA30L	0.47 liter [1 pt]	5
DCA65L	1.89 liter [2 qt]	20	DCA35L	1.89 liter [2 qt]	20
DCA70L	3.78 liter [1 gal]	40	DCA40L	3.78 liter [1 gal]	40
