Flow Diagram

Industrial and Generator-Drive Fuel System with Electric Lift Pumps

System Components

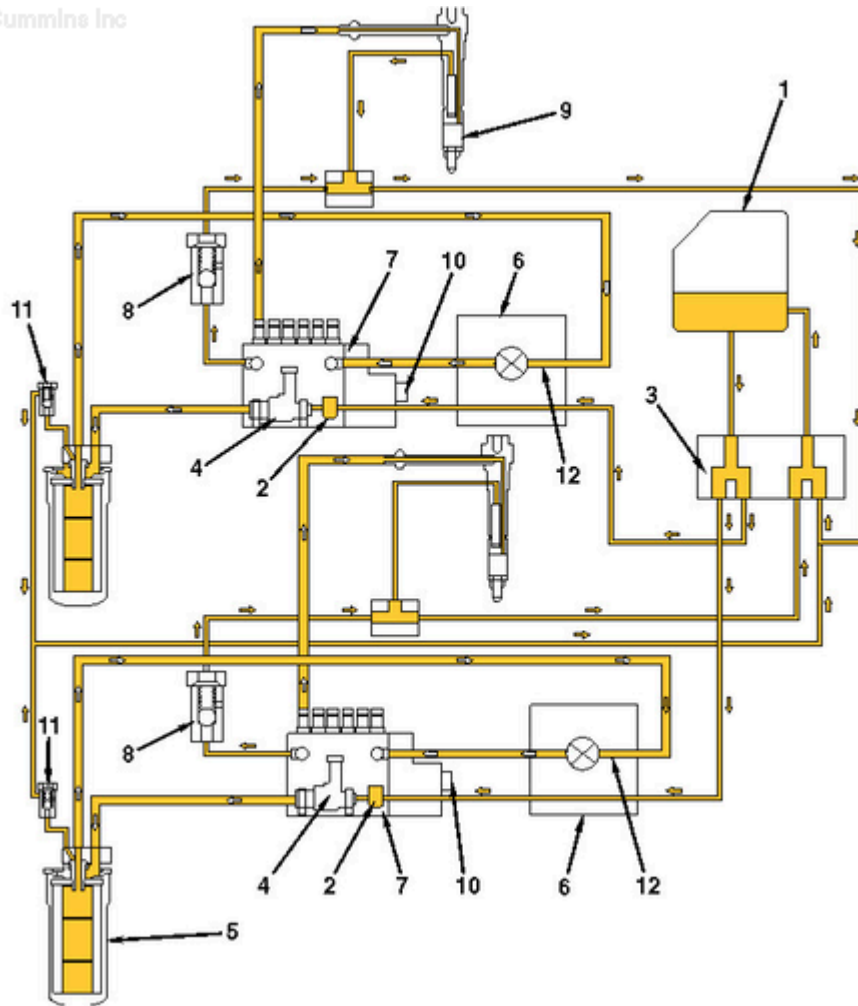

1. Injectors
2. Left and right bank fuel shutoff valves
3. Fuel pressure sensor
4. Fuel/water separator
5. Electric lift pumps
6. Fuel temperature sensor
7. Fuel tank
8. Lift pump relay
9. Pressure relief bypass valve
10. Fuel injection pumps
11. Fuel return line
12. Overflow valve / pressure regulator valve
13. 24-VDC supply.

Industrial Fuel System with EHAB and Mechanical Lift Pumps

System Components

1. Fuel tank
2. Prefilter
3. Fuel connection block
4. Fuel lift pump
5. Fuel filter
6. EHAB
7. Fuel injection pump
8. Fuel injection nozzle
9. Electronic governor
10. Fuel supply (from tank)
11. Fuel overflow valve
12. Fuel gallery outlet
13. Fuel gallery inlet
14. Fuel out to lift pump
15. Fuel in from fuel filter
16. Fuel to tank (via fuel supply line)
17. Overflow valve / pressure regulator valve.

Generator-Drive Fuel System with Mechanical Lift Pumps

System Components

1. Fuel tank
2. Prefilter
3. Fuel connection block
4. Fuel lift pump
5. Fuel filter
6. Fuel shutoff valve
7. Fuel injection pump
8. Overflow valve / pressure regulator valve
9. Fuel injection nozzle
10. Electronic governor
11. Fuel filter relief valve
12. Fuel shutoff valve flow.
