

Trainings ▾

Flow Diagram

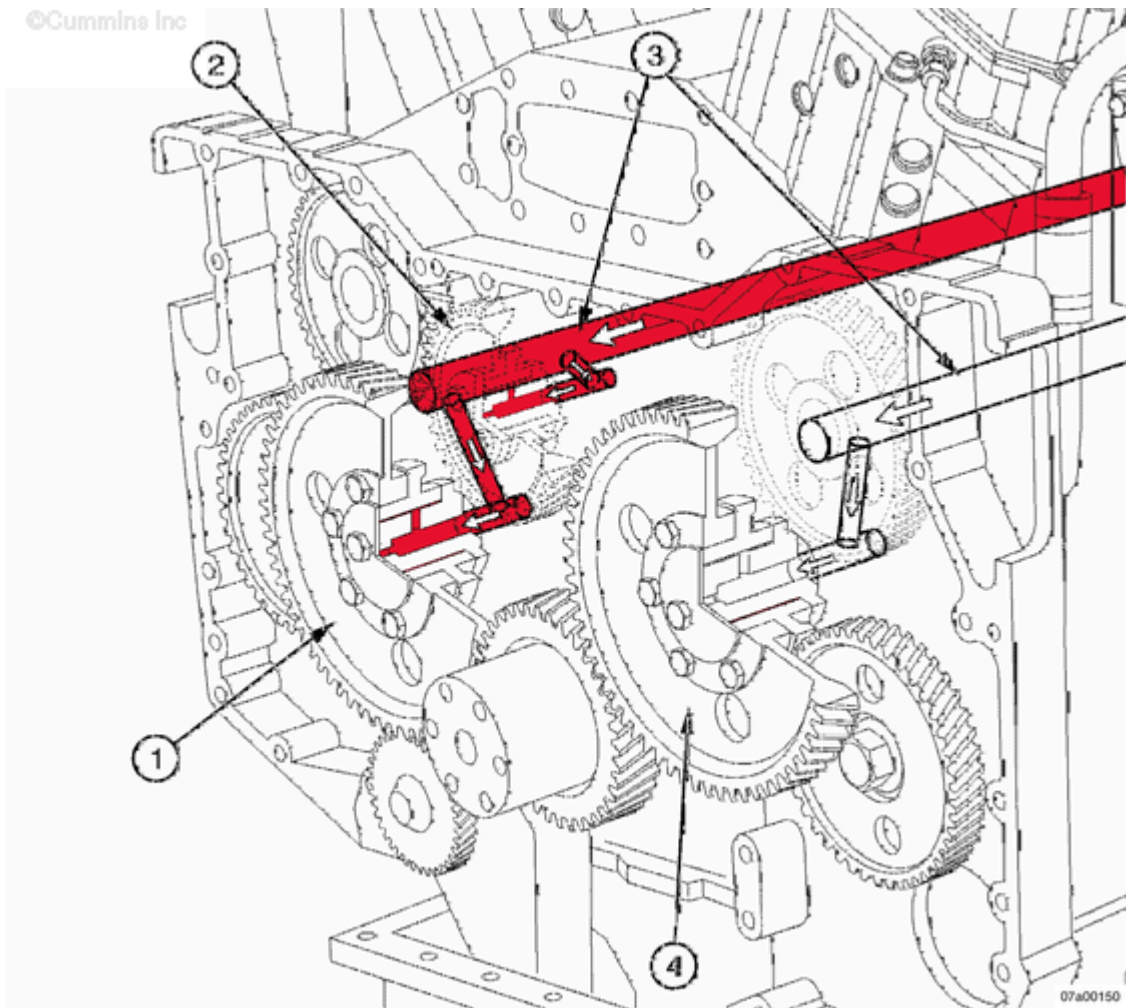

1. Full-flow filter head
2. Full-flow filter(s)
3. Lubricating oil pump
4. High-pressure regulator
5. Suction tube
6. Lubricating oil cooler
7. Low-pressure and lubricating oil cooler bypass regulator
8. Signal line
9. Cold oil flow
10. Hot oil flow
11. Bypass filters
12. Oil cooler bypass valve

- 13. Bypass valve spring
- 14. Regulator valve
- 15. Regulator valve spring
- 16. Valve body
- 17. From main gallery (signal line)
- 18. From oil cooler
- 19. To oil pan
- 20. To oil filter.

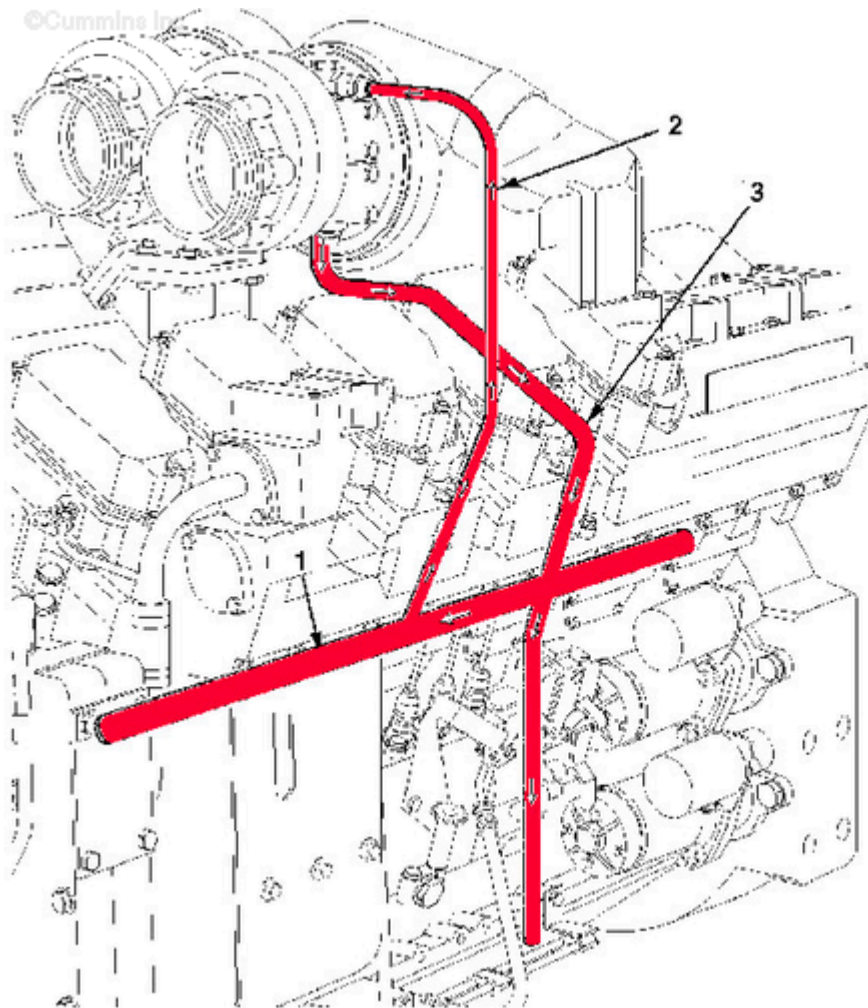

Piston Cooling, Connecting Rod, Overhead

- 1. Crankshaft oil drillings
- 2. Main oil drillings
- 3. Connecting rod wrist pin oil supply
- 4. Upper rocker lever oil supply
- 5. Piston cooling oil drilling
- 6. Cam follower oil drilling
- 7. Piston cooling nozzle.

Front Gear Train

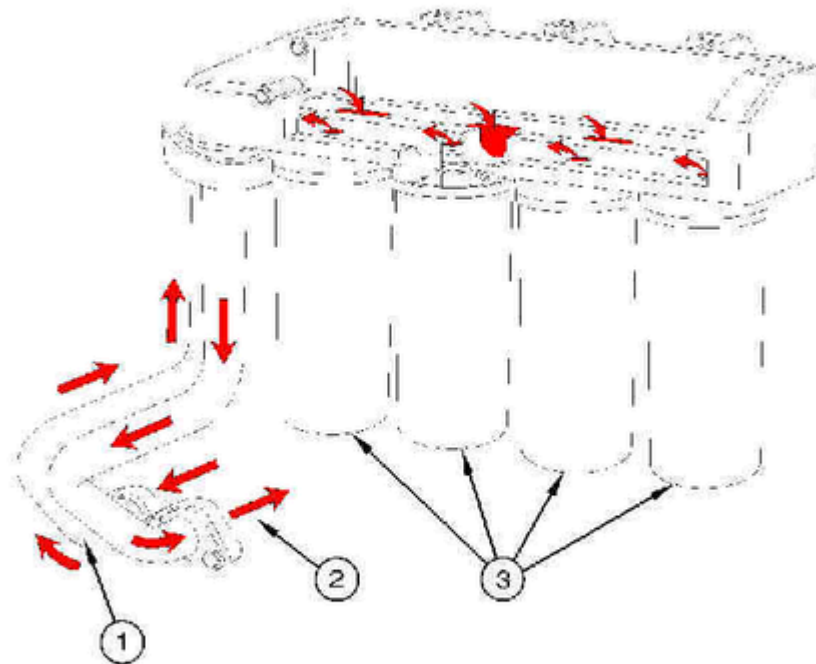

1. Right-bank (large) idler gear
2. Right-bank (small) idler gear
3. Piston cooling oil supply drillings
4. Left-bank (large) idler gear.

07a00161

Turbocharger

1. Piston cooling oil supply drilling
2. Turbocharger oil supply
3. Turbocharger oil drain.

97499015

Lubricating Oil Filter Head

1. Oil supply
2. Oil drain
3. Oil filters.
