Engine Views

The illustrations show the locations of electronic components unique to the QST30 Power Generation Interface Engine.

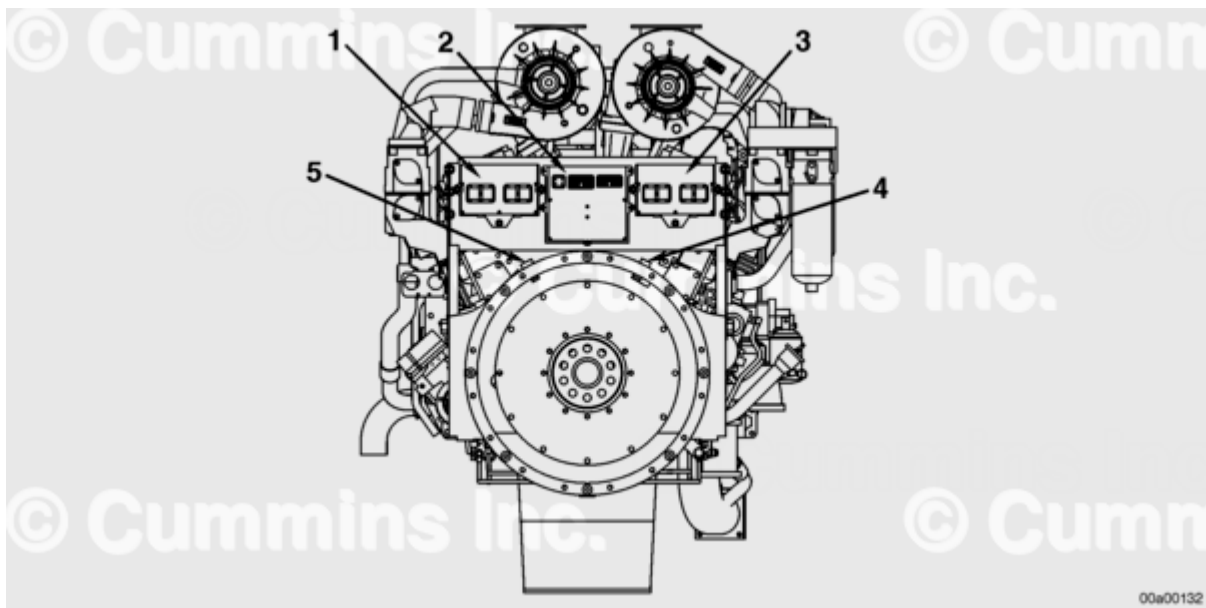

Front View - QST30

1. Alternator
2. Intake manifold 1 pressure sensor
3. Intake manifold 2 pressure sensor

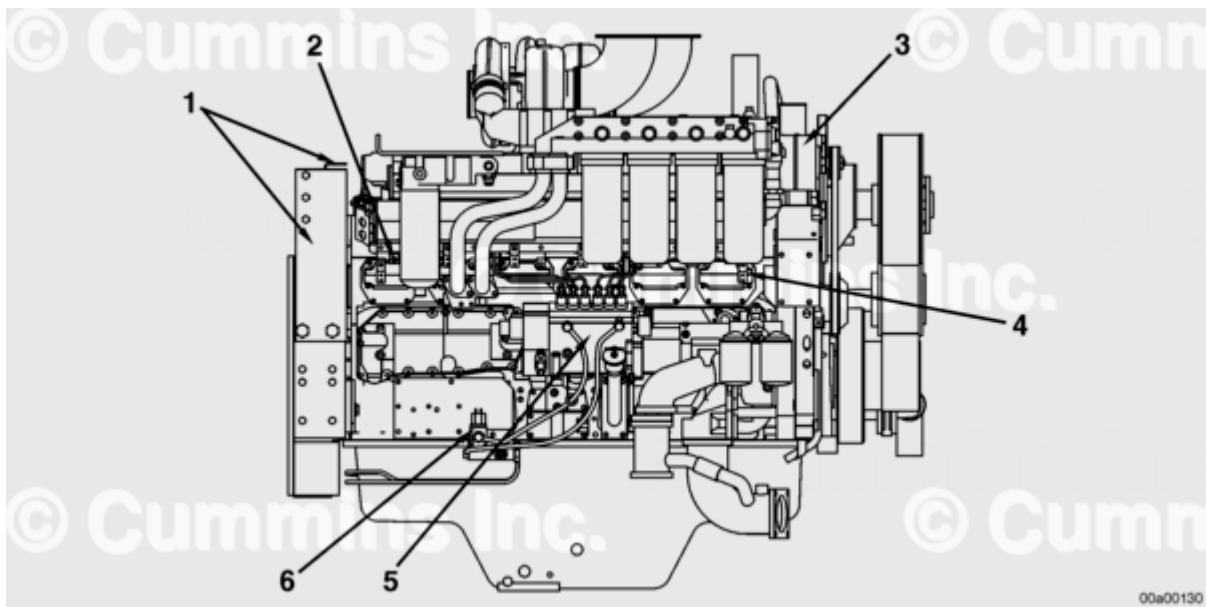

Left Side - QST30

1. Coolant pressure sensor
2. Coolant temperature sensor
3. Barometric pressure sensor
4. Intake manifold 1 temperature sensor
5. ECM mounting bracket
6. Engine speed/position circuit
7. Engine oil temperature sensor 1
8. Oil rifle pressure 1 sensor
9. Starter
10. Engine fuel shutoff valve (left bank)
11. Fuel pump (left bank)
12. SAE J1939 data link service tool connector (CM850)
13. SAE J1939 data link service tool connector (CM552)
14. Intake manifold 1 pressure sensor

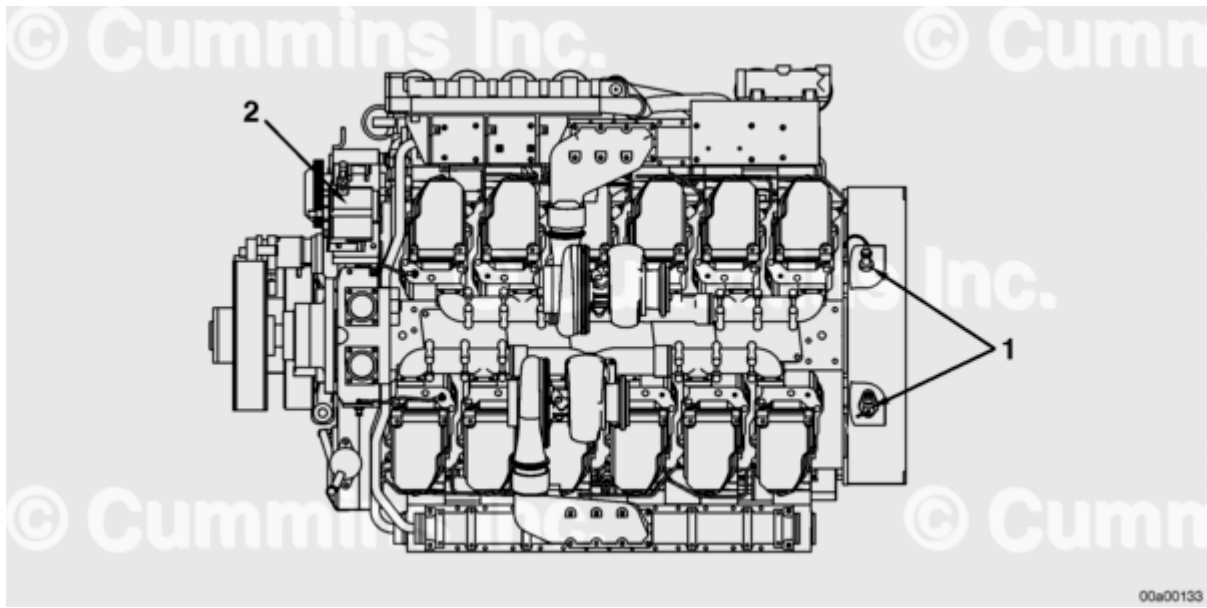

Rear View - QST30

1. ECM 1 (CM552)
2. ECM 2 (CM850)
3. ECM 3 (CM552)
4. Engine speed/position sensor
5. Engine speed/position sensor

Right Side - QST30

1. ECM mounting bracket
2. Intake manifold 2 pressure sensor
3. Alternator
4. Intake manifold 2 temperature sensor
5. Fuel pump (right bank)
6. Engine fuel shutoff valve (right bank)

Top View - QST30

1. Engine speed/position sensors
2. Alternator
