General Information

Cummins is pleased to announce the availability of a parts catalog compiled specifically for you. Unlike the generic versions of parts catalogs that support general high volume parts content; Cummins Customized catalogs contain only the new factory parts that were used to build your engine.

The catalog cover, as well as the content, is customized with you in mind. You can use the catalog in your shop, at your worksite, or as a coffee table book in your RV or boat. The cover contains your name, company name, address, and telephone number.

This new catalog was designed to provide you with the exact information you need to order parts for your engine. This catalog will be valuable for customers that do **not** have easy access to Cummins QuickServe Online.

Additional Features of the Customized Catalog include:

- Engine Configuration Data
- Table of Contents
- Separate Option and Parts Indexes
- Service Kits (when applicable)
- ReCon Part Numbers (when applicable)

Unfortunately **not** all Cummins Engines can be supported by Customized Parts Catalogs. Engines older than 1984 or newer than 3 months might **not** have the necessary parts information to compile a catalog. We will contact you if this condition occurs and explain why we are unable to fill your order.

Customized Parts Catalogs are produced specifically for a single customer. Therefore, the catalogs are **not** returnable for a refund. If we make an error and your catalog is **not** useable, we will correct that error by sending you a new catalog.
