General Information

⚠ WARNING ⚠

Some state and federal agencies have determined that used engine oil can be carcinogenic and cause reproductive toxicity. Avoid inhalation of vapors, ingestion, and prolonged contact with used engine oil.

⚠ WARNING ⚠

To reduce the possibility of personal injury, avoid direct contact of hot oil with your skin.

Cummins Inc, recommends the use of a high-quality SAE-40 heavy-duty engine oil, such as Cummins Premium Blue®, which meets the American Petroleum Institute (API) performance classification CF/SG.

⚠ CAUTION ⚠

Limited use of low-viscosity lubricating oils, such as 10W-30, can aid in starting the engine and providing sufficient lubricating oil flow at ambient temperatures below -5°C [23°F]. However, the continuous use of low-viscosity lubricating oils can decrease engine life. Refer to the accompanying chart.
