Engine Dataplate

The engine dataplate shows specific facts about your engine. The engine serial number and Control Parts List provide information for ordering parts and for service. The engine dataplate **must not** be changed unless approved by Cummins Inc.

Have the following engine data available when communicating with a Cummins® Authorized Repair Location. The information on the dataplate is **mandatory** when sourcing service parts.

1. Engine serial number (ESN)
2. Control parts list (CPL).

Cummins® Engine Nomenclature

B5.9

The model name provides the following engine data:

- B = Engine series
- 5.9 = Displacement in liters.

17900077

B3.9

The model name provides the following engine data:

- B = Engine series
- 3.9 = Displacement in liters.

Fuel Injection Pump Dataplate

Bosch™ Rotary

The injection pump dataplate for the Bosch® VE pump is located on the side of the injection pump. The dataplate provides information for fuel pump calibration.

Bosch™ In-line

The injection pump dataplate for the Bosch® in-line pump is located on the side of the injection pump. The data plate provides information for fuel pump calibration.

CAV Rotary

The injection pump dataplate for the Lucas DPA pump is located on the side of the injection pump. The dataplate provides information for fuel pump calibration.

Stanadyne Rotary

The injection pump dataplate for the Stanadyne DB4 is located on the side of the injection pump. The dataplate provides information for the fuel pump calibration.

Denso In-line

The Denso fuel injection pump dataplate contains the following information:

- (A) Fuel injection pump part number
- (B) Denso serial number
- (C) Cummins part number
- (D) Fuel injection pump bar code.

The Cummins part number for the fuel pump-governor combination is located on the governor dataplate.
