Engine Dataplate

B3.9, B5.9, and B4.5 Engines

The engine dataplate shows specific facts about your engine. The engine serial number and Control Parts List provide information for ordering parts and for service. The engine dataplate **must not** be changed unless approved by Cummins Inc.

B4.5 RGT Engines

The engine dataplate shows specific facts about your engine. The engine serial number and Control Parts List provide information for ordering parts and for service. The engine dataplate **must not** be changed unless approved by Cummins Inc.

Have the following engine data available when communicating with a Cummins Authorized Repair Location. The information on the dataplate is **mandatory** when sourcing service parts.

1. Control parts list (CPL)
2. Model
3. Engine serial number
4. Horsepower and rpm rating.

Note : If the engine dataplate (1) is not readable, the engine serial number (2) can be identified on the engine block above the oil cooler.

Cummins® Engine Nomenclature

The model name provides the following engine data:

- B = Engine series
- 5.9 = Displacement in liters.

B3.9

The model name provides the following engine data:

- B = Engine series
- 3.9 = Displacement in liters.

The Cummins engine nomenclature provides the data as illustrated in the graphic.

The model name for engines in automotive applications provides the data shown below For example:

B3.9-105

- B = Engine series
- 3.9 = Displacement in liters
- 105 = Advertised horsepower.

The model name for engines in industrial applications provides the data shown below For example:

4BTAA-3.9

- 4 = Number of cylinders
- B = Engine series
- T = Turbocharged
- AA = Charge air cooled
- 3.9 = Displacement in liters.

Note : The suffix RGT refers to “Rear Gear Train” engines.

Fuel Injection Pump Dataplate

Bosch™ Rotary

The injection pump dataplate for the Bosch® VE pump is located on the side of the injection pump. The dataplate provides information for fuel pump calibration.

Bosch™ In-line

The injection pump dataplate for the Bosch® in-line pump is located on the side of the injection pump. The data plate provides information for fuel pump calibration.

CAV Rotary

The injection pump dataplate for the Lucas DPA pump is located on the side of the injection pump. The dataplate provides information for fuel pump calibration.

Stanadyne Rotary

The injection pump dataplate for the Stanadyne DB4 is located on the side of the injection pump. The dataplate provides information for the fuel pump calibration.

Denso In-line

The Denso fuel injection pump dataplate contains the following information:

- (A) Fuel injection pump part number
- (B) Denso serial number
- (C) Cummins part number
- (D) Fuel injection pump bar code.

The Cummins part number for the fuel pump-governor combination is located on the governor dataplate.

Delphi Rotary

The injection pump dataplate for the Delphi DP pump is located on the side of the injection pump. The dataplate provides information for fuel pump calibration.
