Flow Diagram

Automotive Applications

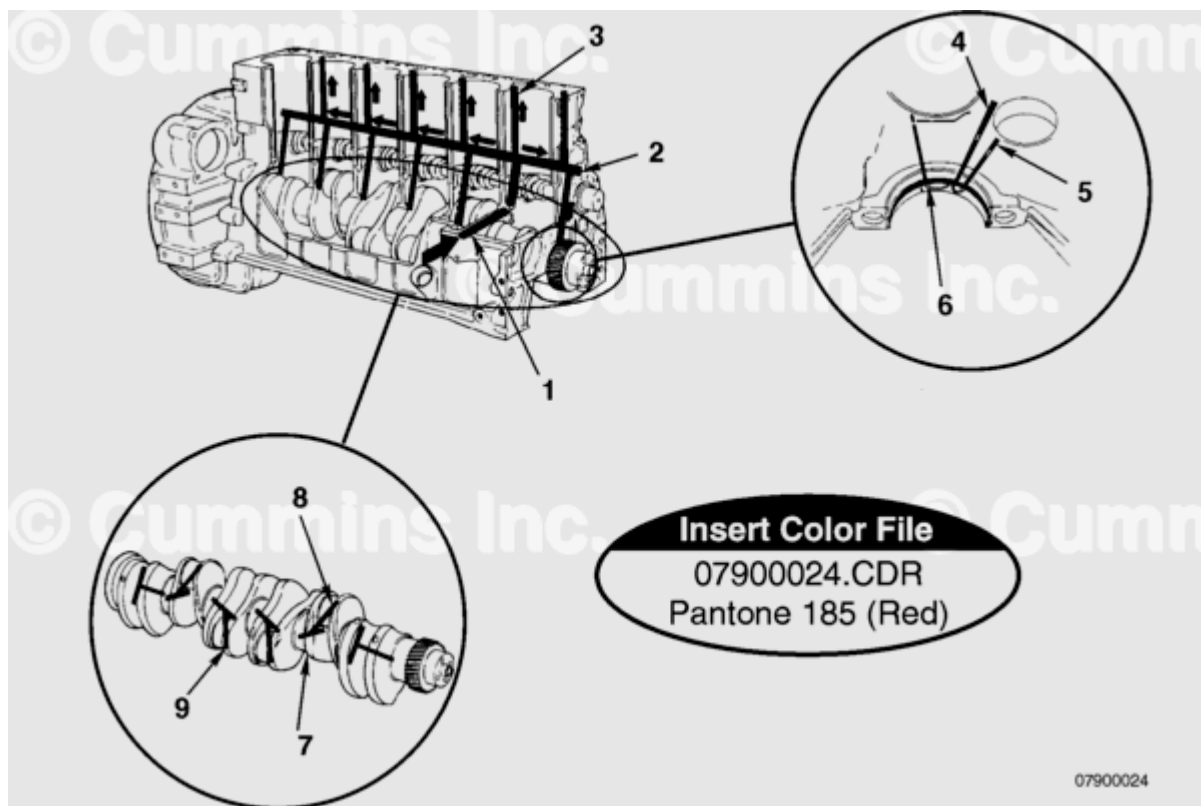

Lubricating Oil Filter and Bypass

1. Gerotor Lubricating Oil Pump
2. Pressure Regulating Valve Closed
3. Pressure Regulating Valve Open
4. From Lubricating Oil Pump
5. To Lubricating Oil Cooler
6. To Lubricating Oil Pan
7. Lubricating Oil Cooler
8. Filter Bypass Valve
9. Filter Bypass Valve Closed
10. Filter Bypass Valve Open
11. To Lubricating Oil Filter
12. Full-Flow Lubricating Oil Filter
13. From Lubricating Oil Filter
14. Main Lubricating Oil Rifle.

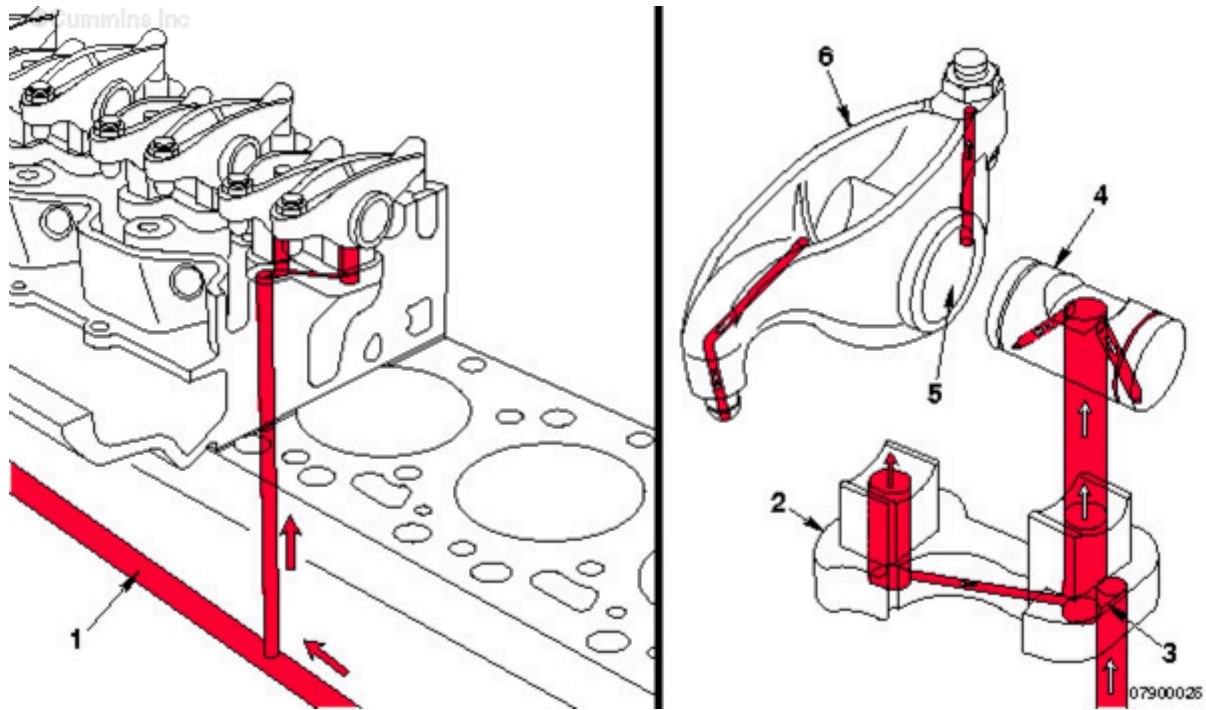

Lubrication for the Oil Turbocharger

1. Lubricating Oil Supply
2. Lubricating Oil Drain.

Lubrication for the Power Components

1. From Lubricating Oil Cooler
2. Main Lubricating Oil Rifle
3. To Valve Train
4. From Main Lubricating Oil Rifle
5. To Camshaft
6. To Piston Cooling Nozzle
7. Crankshaft Main Journal
8. To Connecting Rod Bearing
9. Connecting Rod Journal.

Lubrication for the Overhead

1. Main Lubricating Oil Rifle
2. Rocker Lever Support
3. Transfer Slot
4. Rocker Lever Shaft
5. Rocker Lever Bore
6. Rocker Lever.
