New Coolant Thermostats

## New Coolant Thermostats

### Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

### Contents

The purpose of the Service/Parts Topic is to introduce new coolant thermostats for the ISX, Signature, QSX15, ISM, ISMe, and QSM11 engines. The new coolant thermostats released will eliminate the degradation of the rubber sealing material, which allowed coolant to flow by the thermostat, resulting in cold cab conditions and low coolant temperatures. See table below.

The engine serial number (ESN) first for ISX, Signature, and QSX15 engine is 79258441. The ESN first for the ISM, ISMe, and QSM11 engines is 35203275.

| New Part Number | Part Name          | Old Part Number | Description                                                   |
|-----------------|--------------------|-----------------|---------------------------------------------------------------|
| 4973372         | Coolant Thermostat | 4952210         | 71°C [160°F] used on marine engine for production and service |
| 4973373         | Coolant Thermostat | 4952204         | 82°C [180°F] standard for production and service              |
| 4973373         | Coolant Thermostat | 3335550         | 82°C [180°F] standard for production and service.             |
| 4973374         | Coolant Thermostat | 3870861         | 88°C [190°F] service only                                     |
