Contents

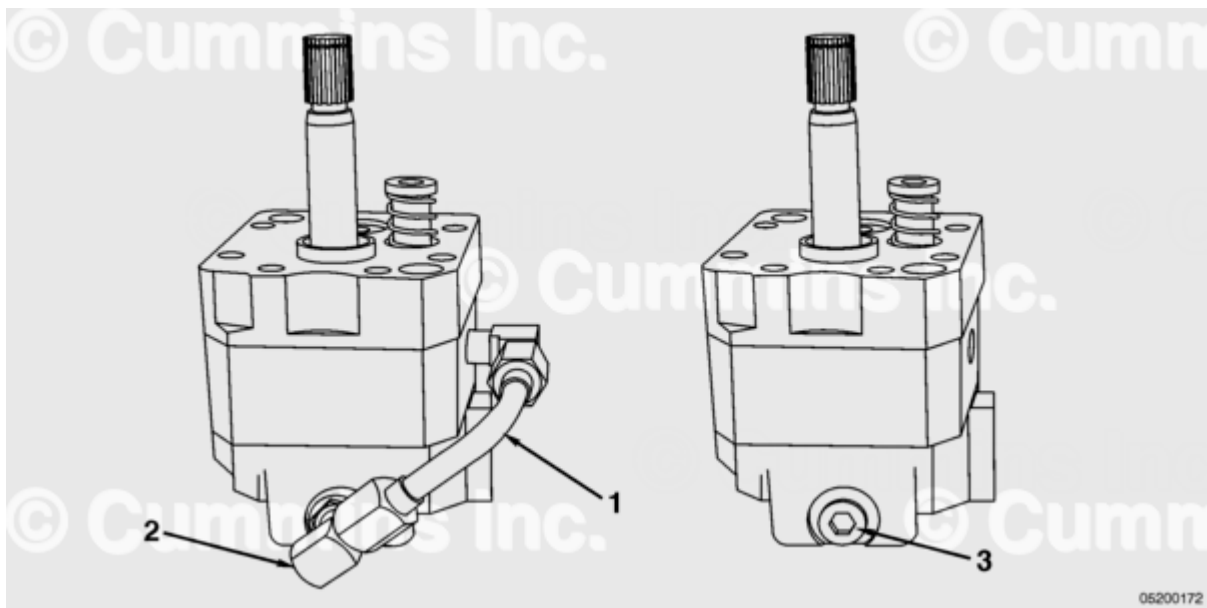

This Technical Service Bulletin introduces a change to the CELECT™ fuel pump design.

Previous CELECT™ fuel pumps have included an external fuel cooling tube. The redesigned pump will no longer contain this external fuel cooling tube. This new fuel pump is being released for all N14, L10, M11, ISM, ISMe, and QSM engines as a new part and replaces all previous parts. The old design fuel pump with the external cooling tube will still be available as a remanufactured item. The new CELECT™ 2.0 fuel pump, Part Number 4954880, supersedes Part Number 4010324 and Part Number 4010253. Refer to the figures below for the differences between the new CELECT™ 2.0 fuel pump and the old CELECT™ fuel pump.

The release date for the new CELECT™ 2.0 fuel pump for production is November 7, 2007.

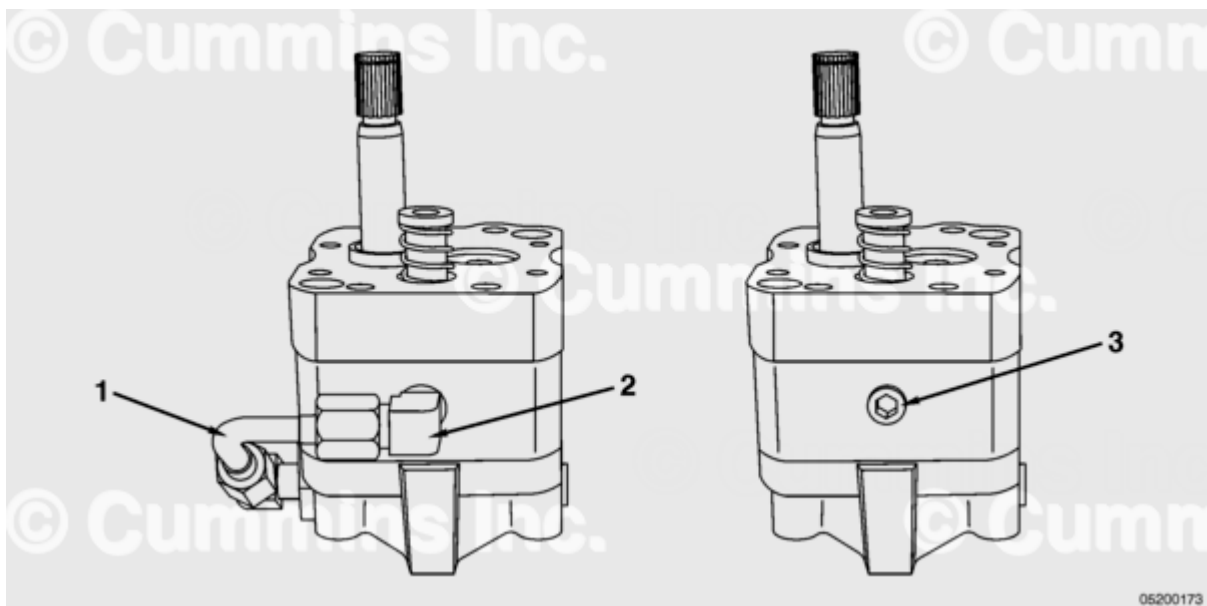

The release date for the new CELECT™ 2.0 fuel pump for Service is December 5, 2007.

The engine serial number (ESN) first is 35213107.
