QSK23 Oversize Bearing Release

QSK23 Oversize Bearing Release

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document introduces new oversize bearings for QSK23 engines. This includes main, connecting rod, and thrust bearings.

Oversize bearings are available to allow the crankshaft to be ground undersize, if the outside diameter of the main and/or connecting rod bearing journals or the thrust distance is **not** within specifications. The specifications can be found in the QSK23 Troubleshooting and Repair Manual, Bulletin 4021375. Refer to Procedure 001-016 in Section 1.

(/qs3/pubsys2/xml/en/procedures/89/89-001-016-tr.html) If one of the main bearing journals is **not** within specifications and ground undersize, **always** grind all of the main bearing journals undersize. If one of the connecting rod journals is **not** within specifications and ground undersize, **always** grind all of the connecting rod journals undersize.

If one of the crankshaft main or connecting rod journals is undersize, all main or connecting rod journals **must** be undersize the same amount. For this reason, oversize bearings are available **only** in complete kits. It is **not** necessary to use oversize thrust bearings when using oversize main bearings. It is also **not** necessary to use the same size oversize thrust bearings on both thrust faces of the crankshaft. However, the upper and lower thrust bearings used on either the front or rear of main bearing location number six **must** be of the same size.

Oversize Main Bearings

Part Number	Size	Quantity
4096907	0.25 mm [0.010 in]	7
4096906	0.50 mm [0.020 in]	7
4096905	0.75 mm [0.030 in]	7
4096904	1.00 mm [0.040 in]	7

Oversize Connecting Rod Bearings		
Part Number	Size	Quantity
4096915	0.25 mm [0.010 in]	6
4096914	0.50 mm [0.020 in]	6
4096913	0.75 mm [0.030 in]	6
4096912	1.00 mm [0.040 in]	6
Oversize Thrust Bearings		
Set Part Number	Size	Set Contents
4096911	0.25 mm [0.010 in]	Two (2) standard and two (2) 0.25 mm [0.010 in] oversize bearings
4096910	0.50 mm [0.020 in]	Four (4) 0.25 mm [0.010 in] oversize bearings
4096909	0.75 mm [0.030 in]	Two (2) 0.25 mm [0.010 in] oversize and two (2) 0.50 mm [0.020 in] oversize bearings
4066908	1.00 mm [0.040 in]	Four (4) 0.50 mm [0.020 in] oversize bearings
