QSX15 CM570 - New Wastegate Actuator Hose Kit for Cummins® Marked Turbochargers

QSX15 CM570 - New Wastegate Actuator Hose Kit for Cummins® Marked Turbochargers

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document announces the release of a new wastegate actuator hose kit, Part Number 4326241, for QSX15 CM570 engines equipped with a Cummins® marked turbocharger. This kit was previously unavailable and is intended to be utilized as a lower cost repair alternative to replacing the entire wastegate actuator assembly or turbocharger assembly as a whole for a damaged wastegate actuator hose. The kit contains a bulk section of hose, two hose clamps, one hose clip, a self-tapping screw and an instruction sheet. These components are **only** available as a kit. Some applications of these kits may require shortening of the hose for best fit.
