Cylinder Block

Tool Number

2892436

Cylinder Block Counterbore Cutting Kit

Used in counterbore cutting operations.

22000007

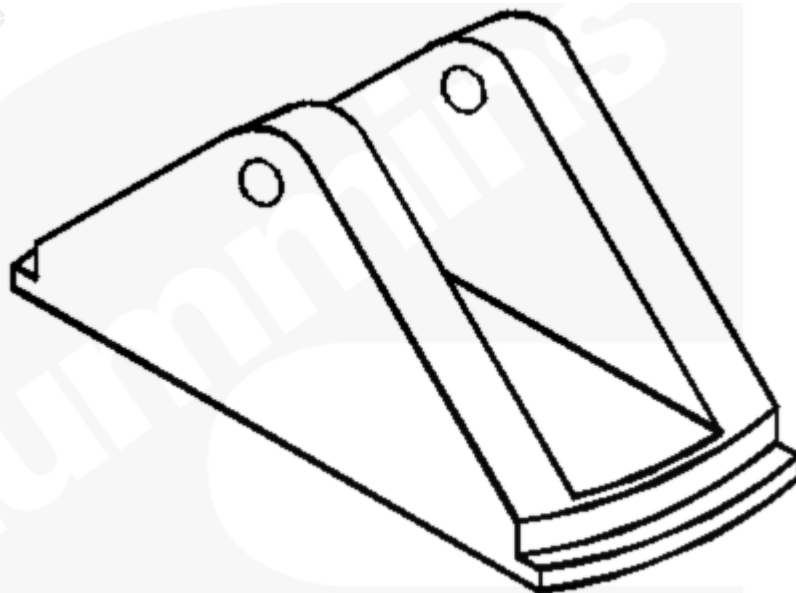

Tool Number

3162462

Cylinder Liner Puller Plate

Used with the universal cylinder liner puller, Part Number 3163745, to remove the cylinder liners.

©Cummins Inc

3162462

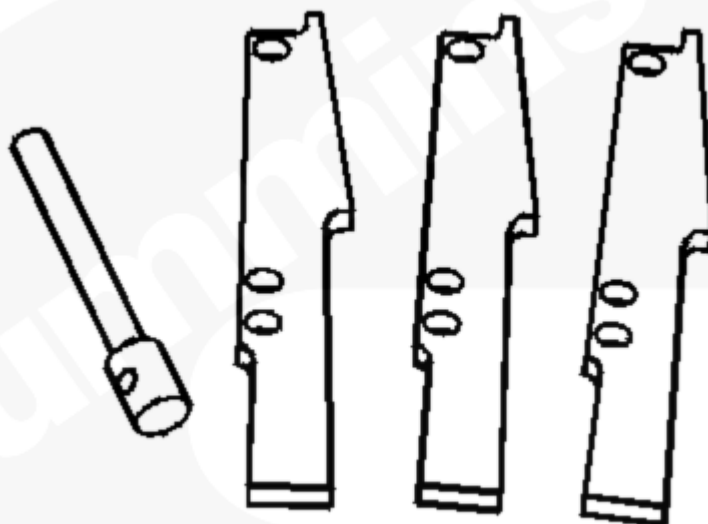

Tool Number

3163021

Timing Pin and Wedges Kit

Kit contains a pin and three wedges. Used to set engine base timing.

©Cummins Inc

3163021

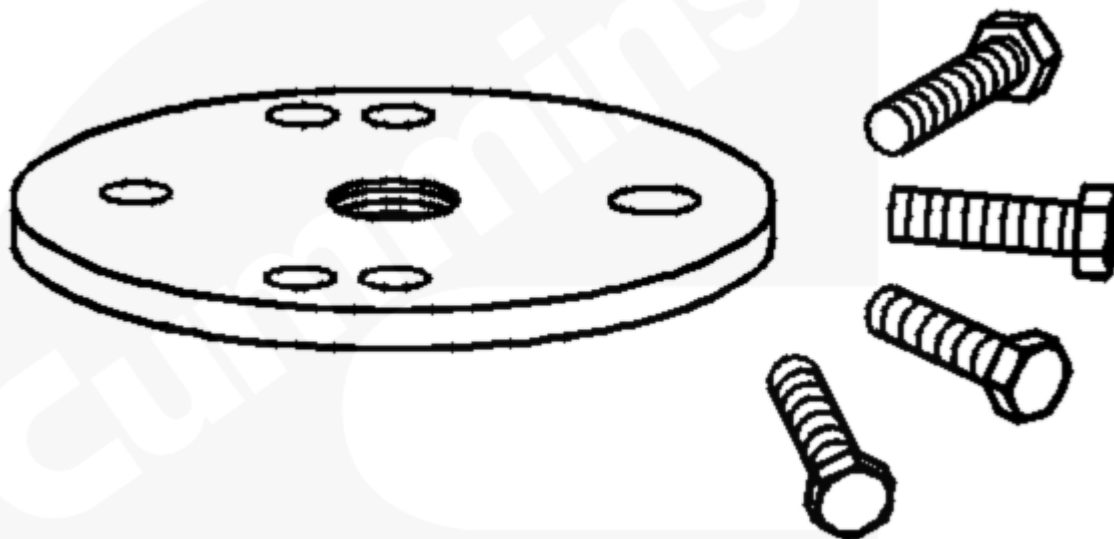

Tool Number

3163069

Valve Gear Puller

Used to pull the cam gear. The puller will only work on camshaft gears with puller holes.

©Cummins Inc

3163069

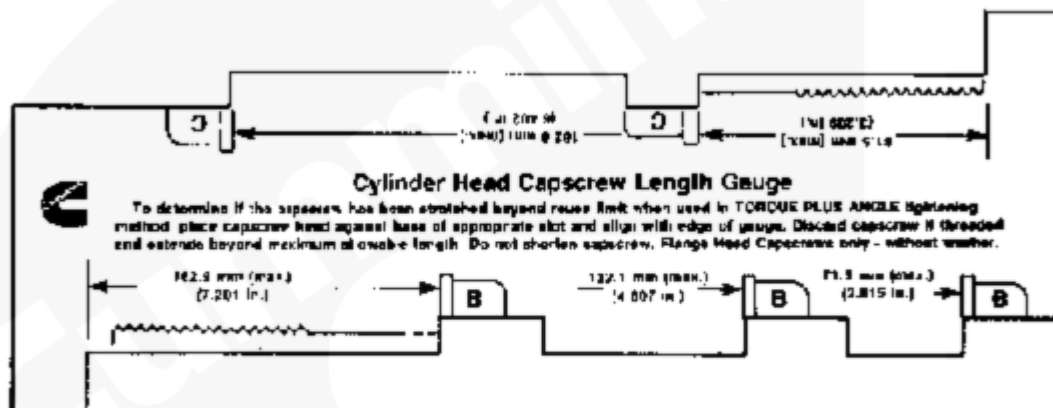

Tool Number

3163162

Capscrew Length Gauge

Used to check if head bolts & main bearing cap bolts have been stretched beyond the reuse limit.

©Cummins Inc

3163162

Tool Number

3163717

Threaded Insert (76 mm)

Used to salvage/repair damaged cylinder head capscrew threads in the cylinder block. Used with thread salvage kit, Part Number 3164021.

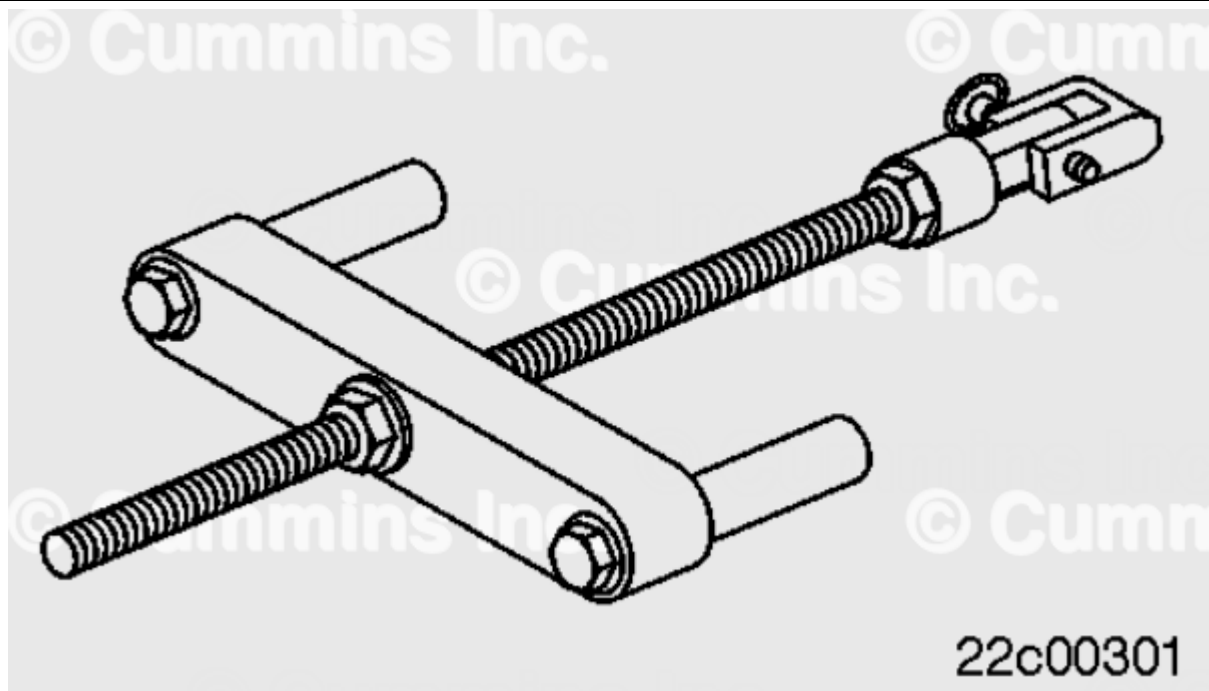

Tool Number

3163745

Universal Cylinder Liner Puller

Used to remove the cylinder liners from all present engine series. Use with cylinder liner puller plate, Part Number 3162462. Cylinder liner remover, Part Number 3162873, can also be used for this application.

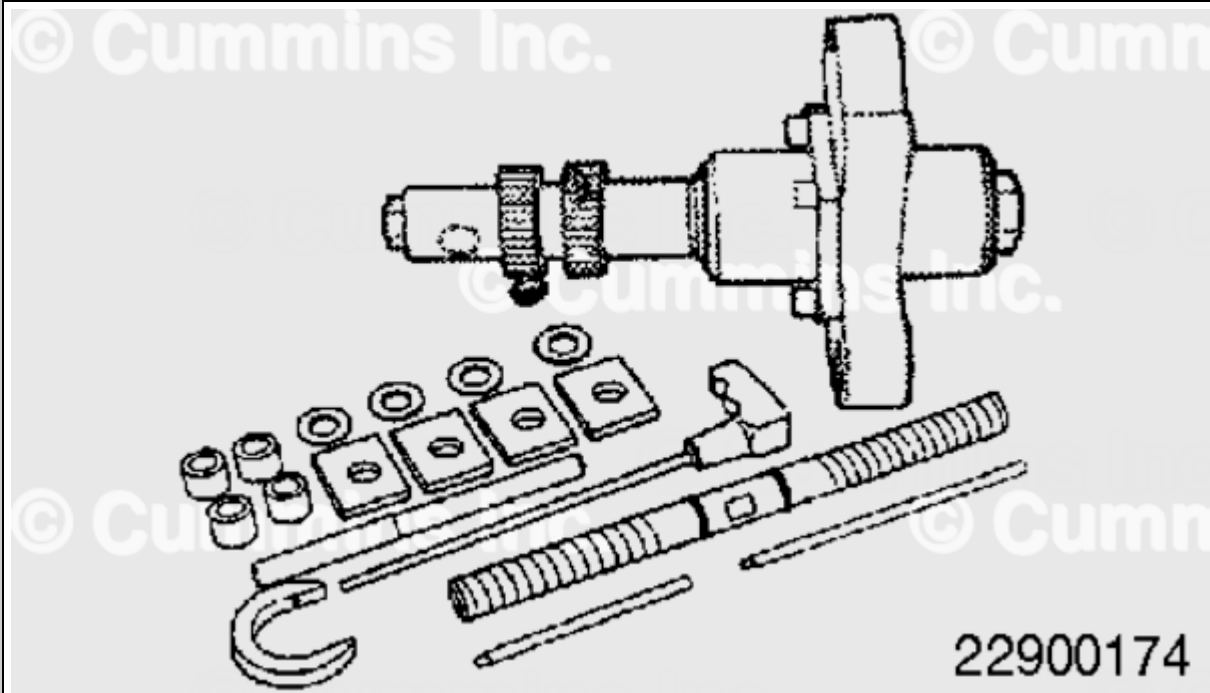

Tool Number

3163785

Cylinder Block Counterbore Cutting Drive Mechanism

Used in counterbore cutting operations.

Tool Number

3163842

Regular Hexagon Jam Nut

Used to salvage/repair damaged cylinder head capscrew threads in the cylinder block. Used with thread salvage kit, Part Number 3164021.

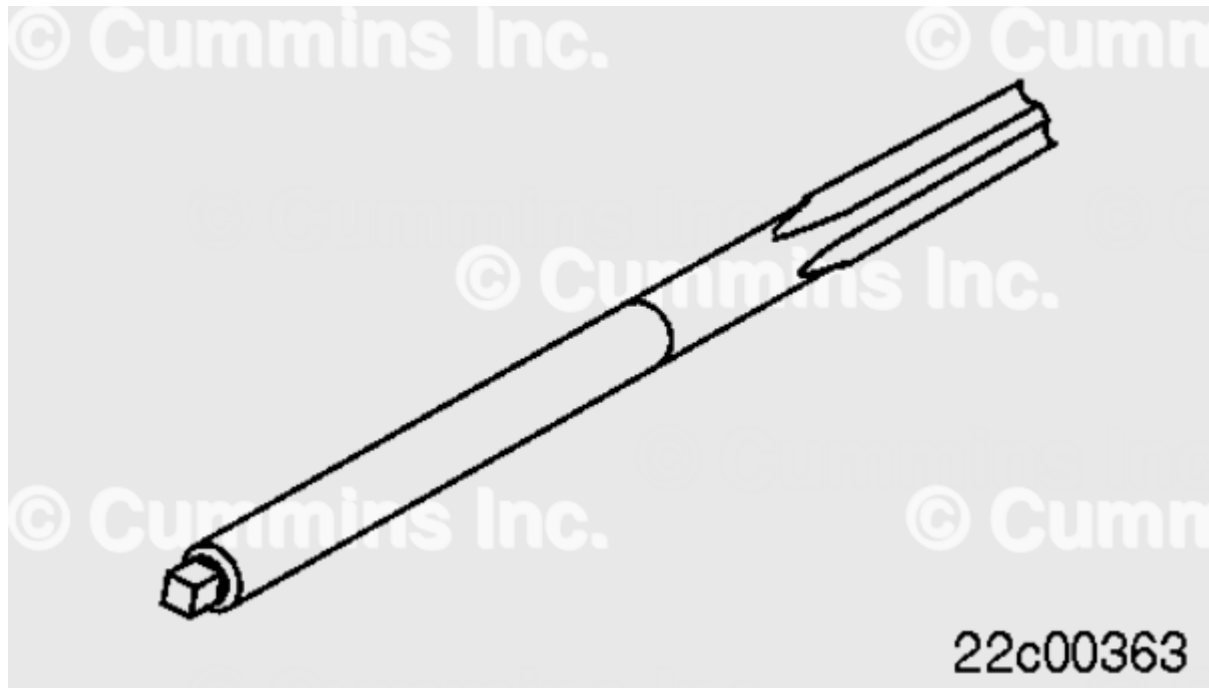

Tool Number

3163899

Reamer

Used to salvage/repair damaged cylinder head capscrew threads in the cylinder block. Used with thread salvage kit, Part Number 3164021.

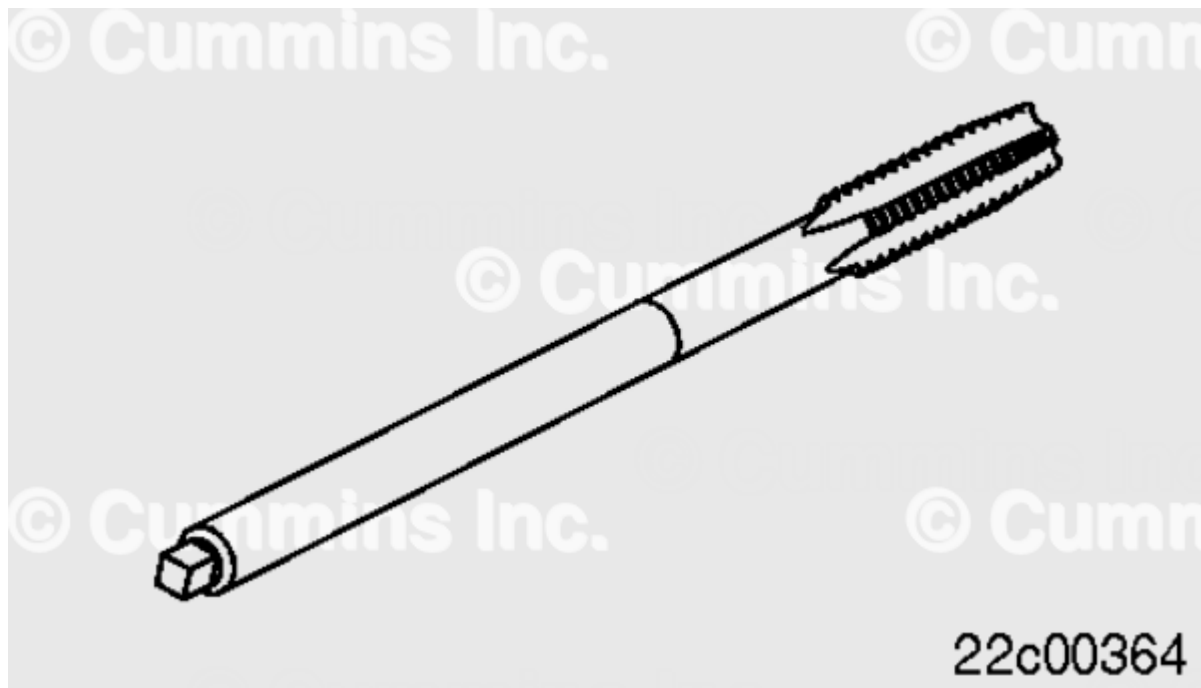

Tool Number

3163901

Tap

Used to salvage/repair damaged cylinder head capscrew threads in the cylinder block. Used with thread salvage kit, Part Number 3164021.

Tool Number

3164021

Thread Salvage Kit

Used to salvage/repair damaged cylinder head capscrew threads in the cylinder block.

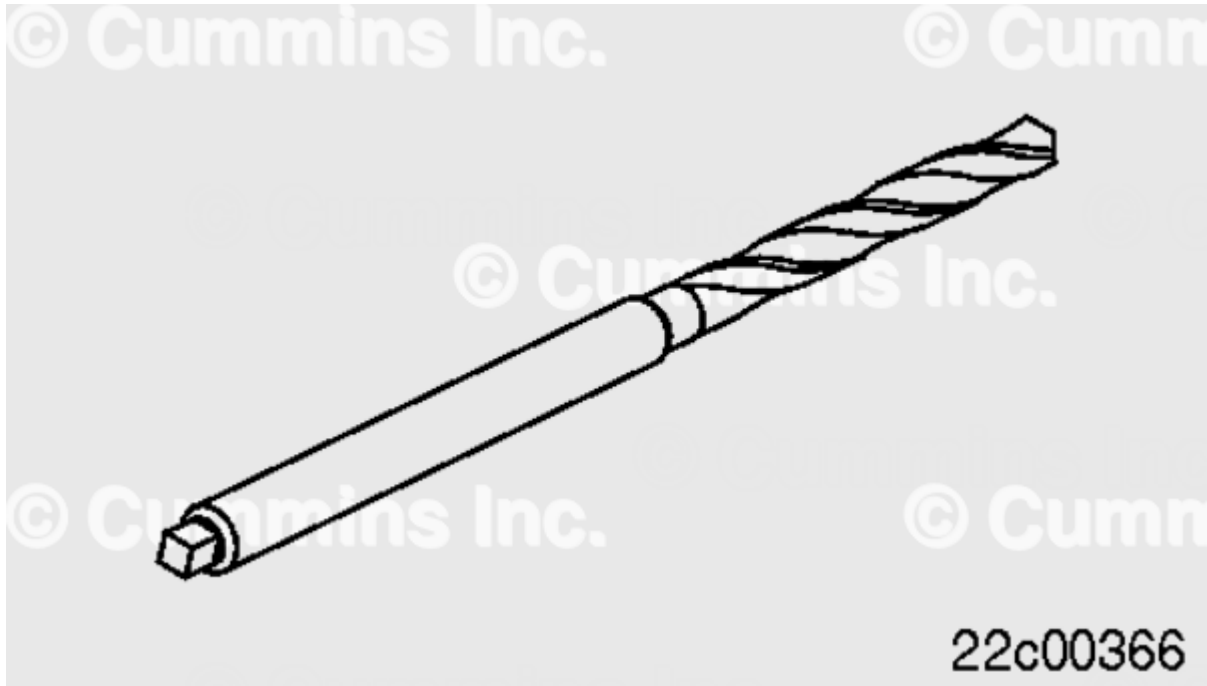

22c00361

Tool Number

3164335

Drill

Used to salvage/repair damaged cylinder head capscrew threads in the cylinder block. Used with thread salvage kit, Part Number 3164021.

Tool Number

3164445

Threaded Insert (50 mm)

Used to salvage/repair damaged cylinder head capscrew threads in the cylinder block. Used with thread salvage kit, Part Number 3164021.

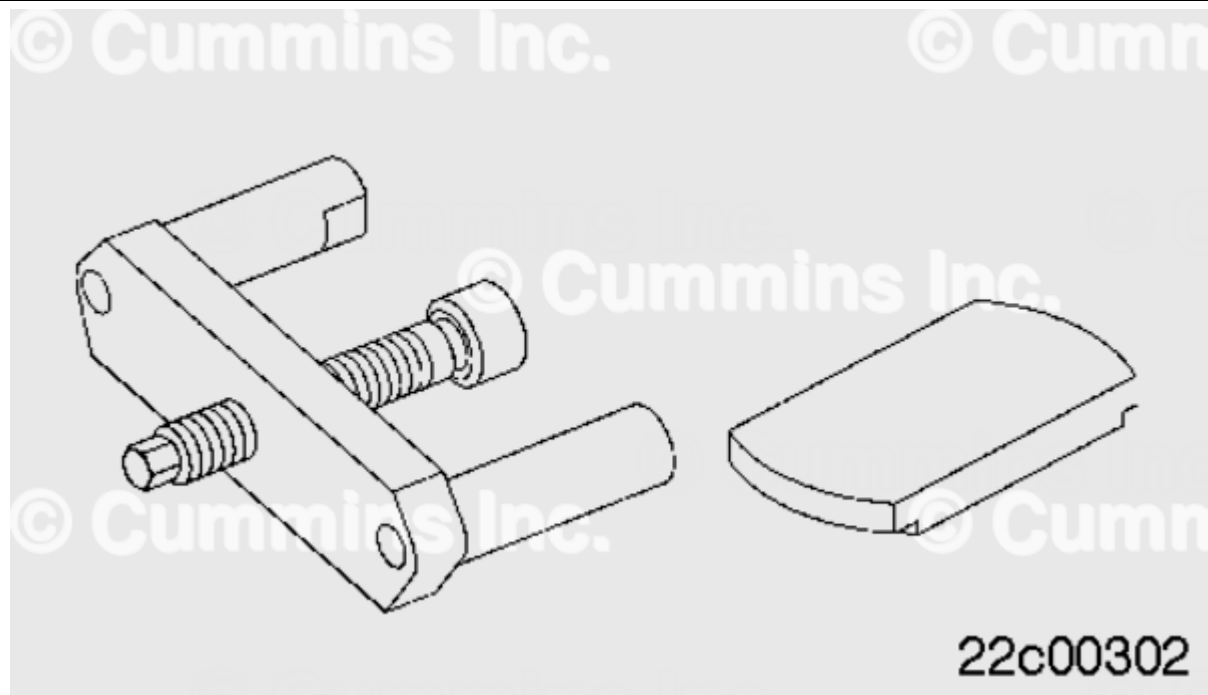

Tool Number

3164606

Cylinder Liner Installation Tool

Used to install cylinder liners and clamp for protrusion readings into the cylinder block.

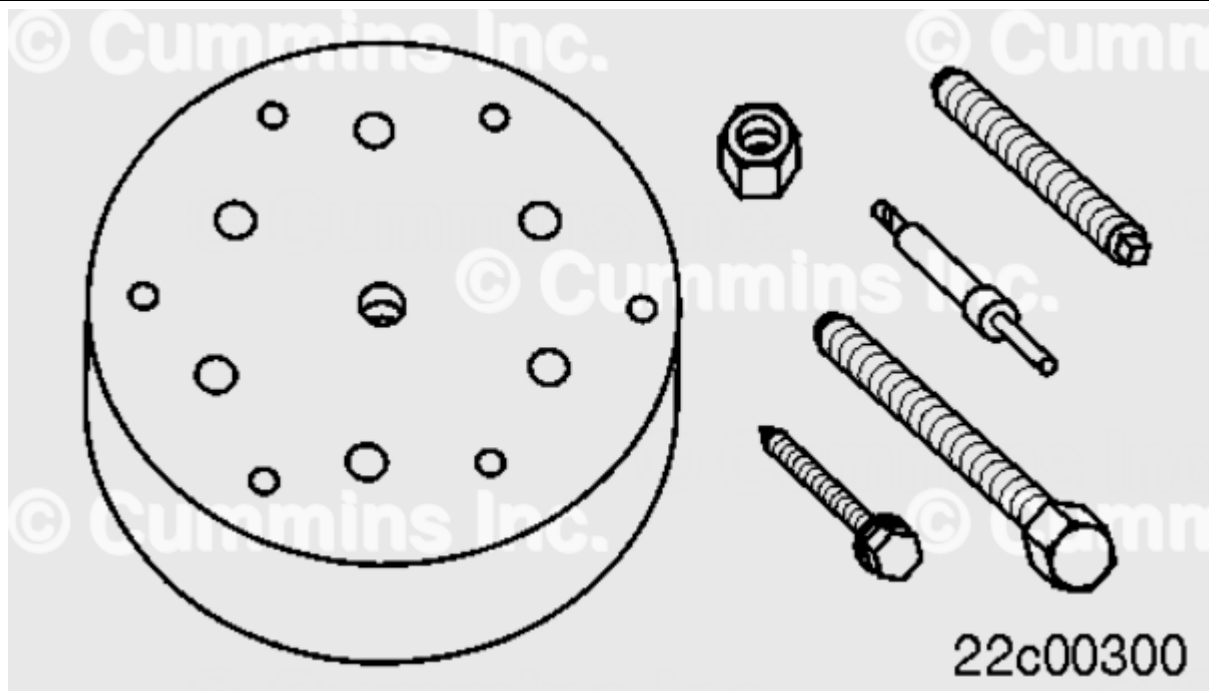

Tool Number

3164780

Oil Seal Puller/Installer

Used to pull or install the rear crankshaft seal on both the REPTO and Non REPTO applications. The previous kits 3162994 and 3164153 can be updated to work on REPTO applications by adding the replacer plate, Part Number 3164763.

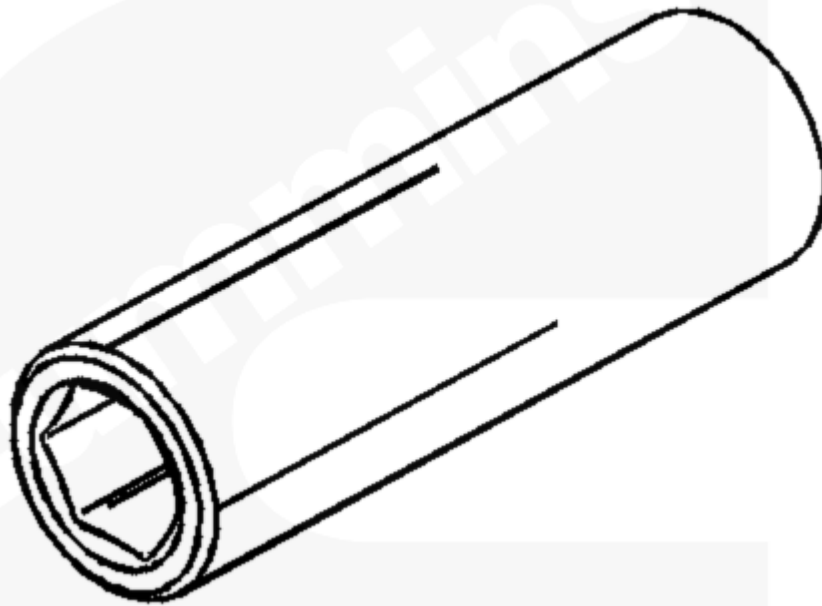

Tool Number

5573072

Marked Socket

Used to tighten the rod capscrews and cylinder head bolts. Part Number 3163059 is a 3/4 inch impact wrench with ample range to tighten bolts.

©Gummine Inc

3163484

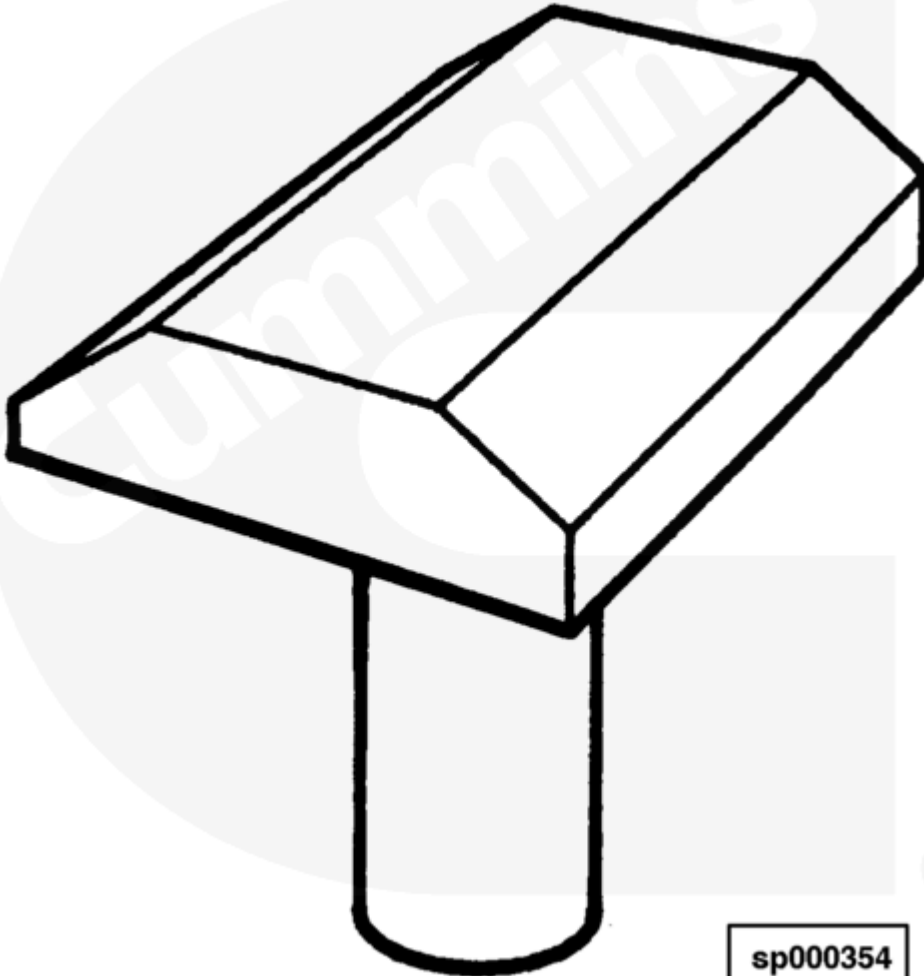

Tool Number

3823818

Crankshaft Bearing Roll Out Tool

Used to remove and install upper main bearing shells (in chassis).

©Cummins Inc

sp000354

Tool Number

3824510

Safety Solvent

Used to clean machine surfaces prior to the installation of thread repair inserts, coolant passage surfaces, and upper deck repair sleeves.

©Cummins Inc

oi8isea

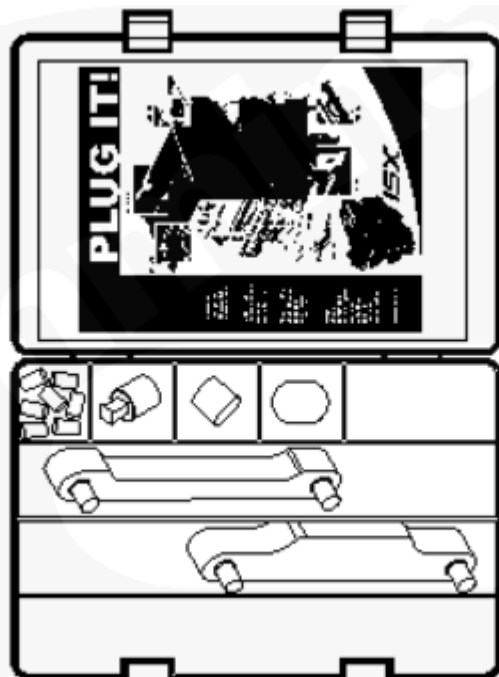

Tool Number

4918319

Protective Plug Kit

Used to plug oil passages and drillings during a repair process.

©Cummins Inc.

22c00256

Tool Number

4918530

Crankshaft Adapter and Gear Removal Kit

Used to remove and install the crankshaft adapter and crankshaft gear.

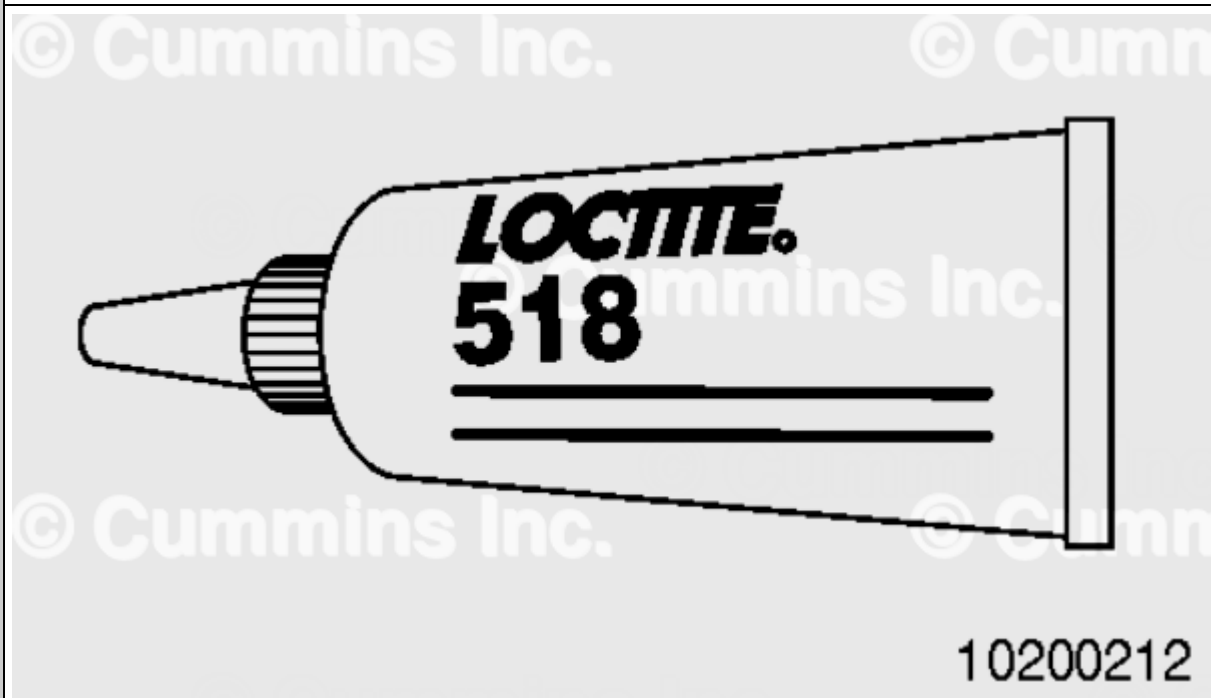

22c00305

Tool Number

4918675

Loctite™ 518 Flexible Anerobic Gasket Sealant (Color Red)

Used to seal the main bearing cap to the mating surface of the cylinder block.

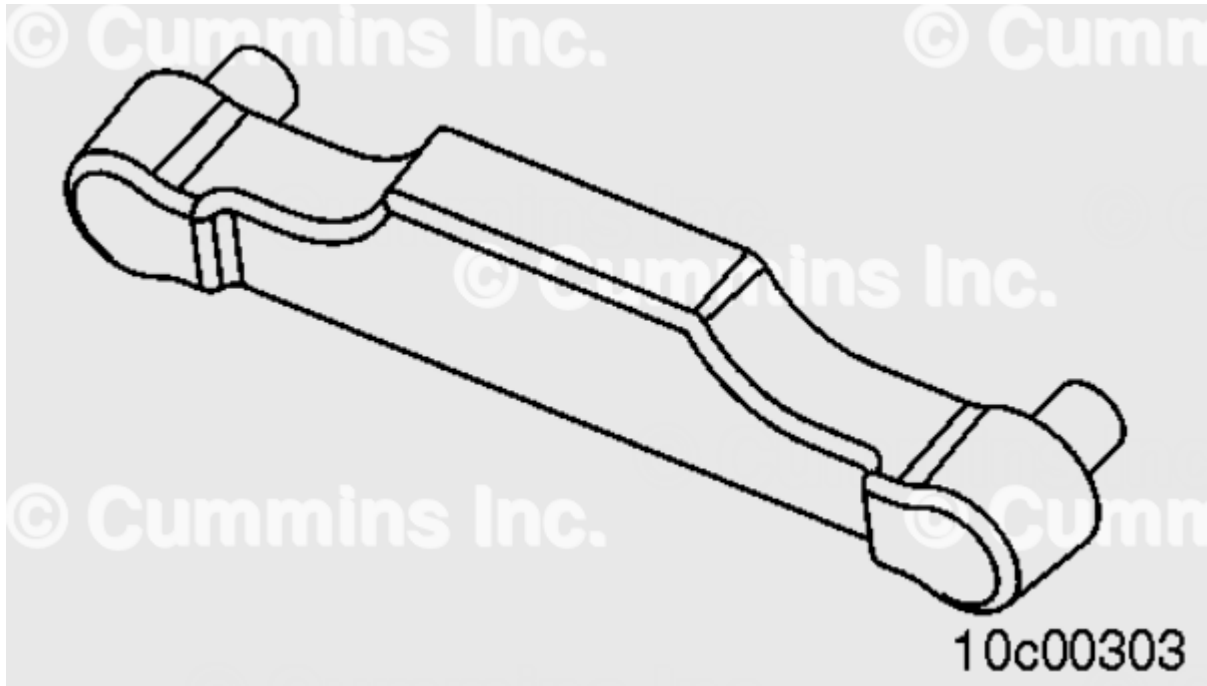

Tool Number

4918874

Protective Plug

Used to plug the front oil passage of the cylinder block during a repair process. For use on engines built after August 2006.

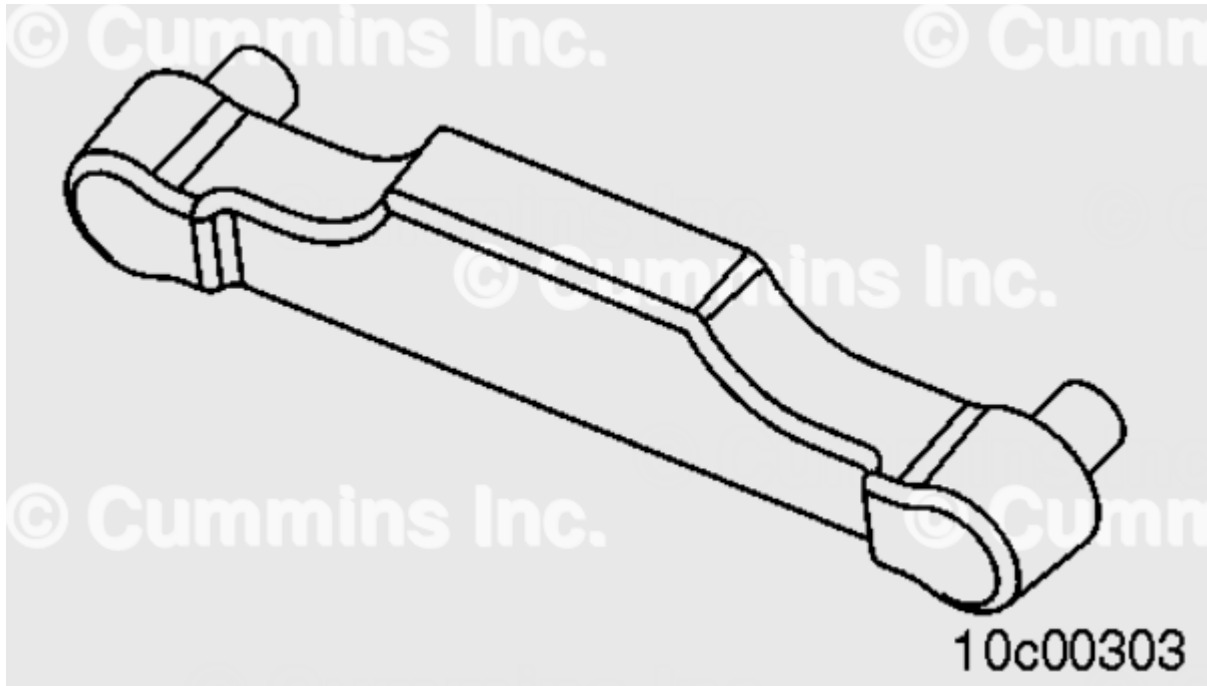

Tool Number

4918875

Protective Plug

Used to plug the rear oil passage of the cylinder block during a repair process. For use on engines built after August 2006.

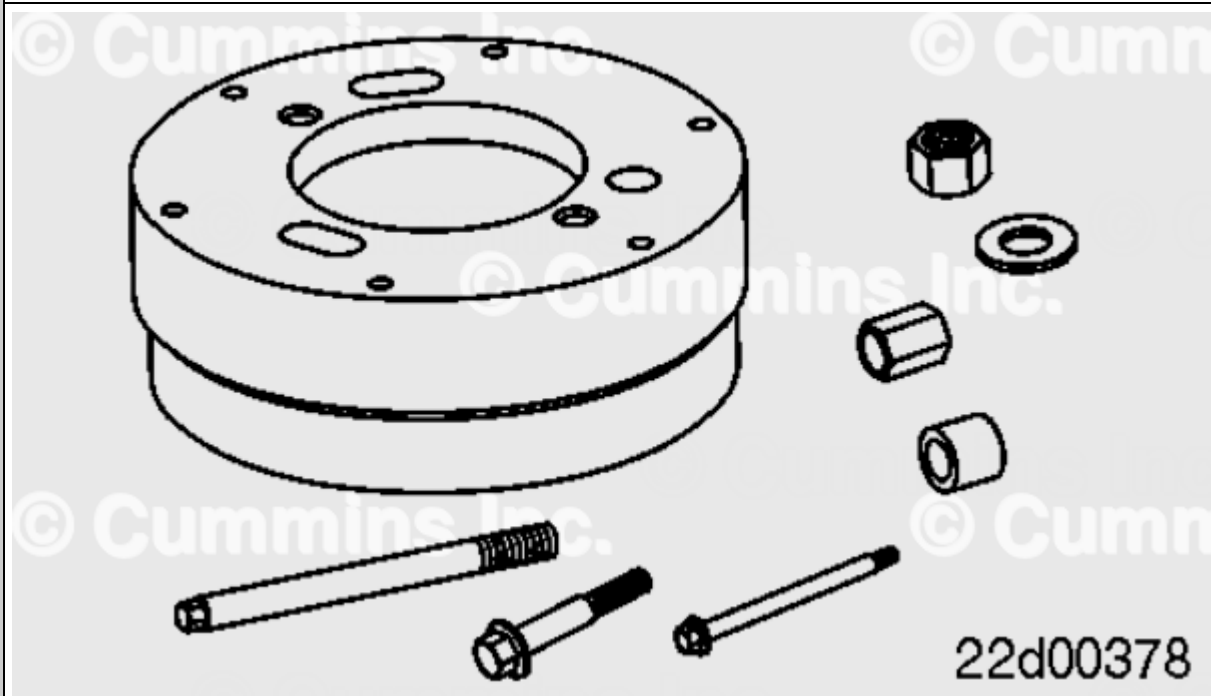

Tool Number

4918991

Crankshaft Seal Replacer Kit

Used to pull or install the front crankshaft seal.

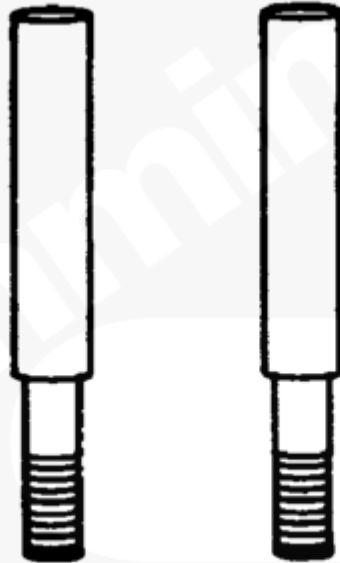

Tool Number

5298634

Connecting Rod Guide Pins (Two)

Used to protect the crankshaft journal by guiding the connecting rod during installation or removal.

©Cummins Inc

cx8togg

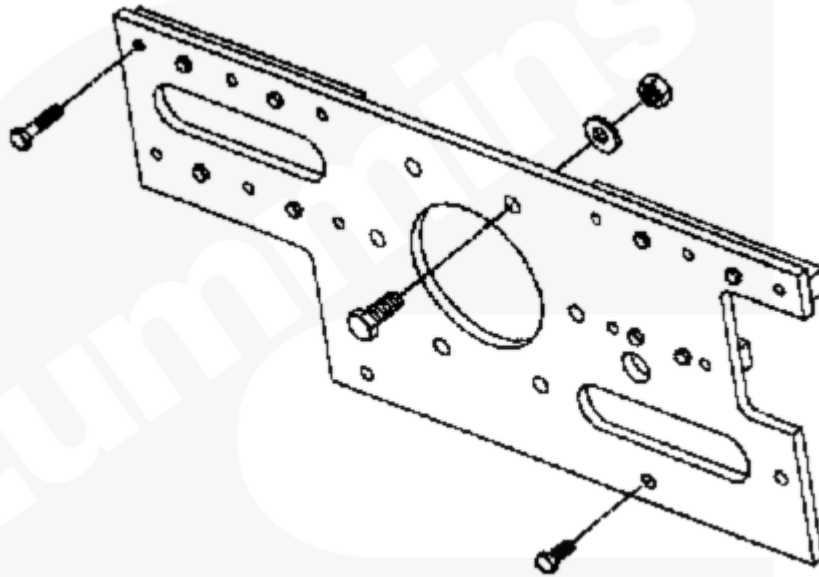

Tool Number

5298966

Mounting Plate

Used to mount 15L engines to Cummins engine rebuild stands 3375193 & 3375194, OTC rebuild stand and European rebuild stand. May use 3162464 if already equipped.

©Cummins Inc

3162464

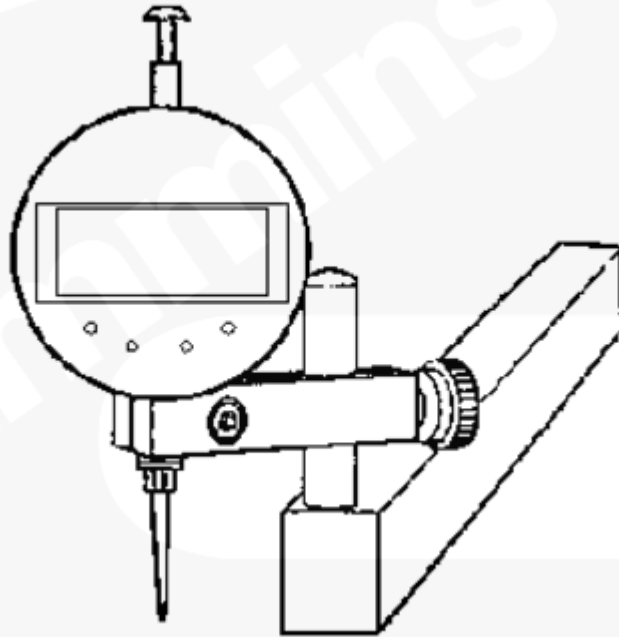

Tool Number

5299194

Depth and Protrusion Measuring Kit

Used to measure liner protrusion.

©Cummins Inc

3164438

Tool Number

5299448

Anti-Polishing Ring Removal/Installation Kit

Used to remove anti-polishing rings into cylinder liner. This tool is also used in conjunction with Piston Ring Compressor, Part Number 5394454, to install pistons into liners that utilize the anti-polishing ring.

©Cummins Inc

01v00051

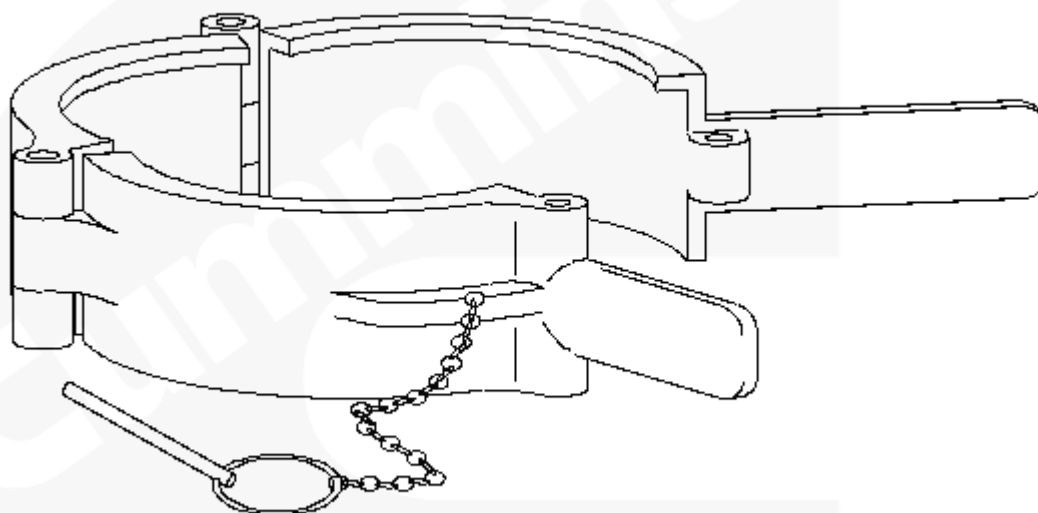

Tool Number

5394454

Piston Ring Compressor

Used to install piston into cylinder block.

©Cummins Inc

3163158

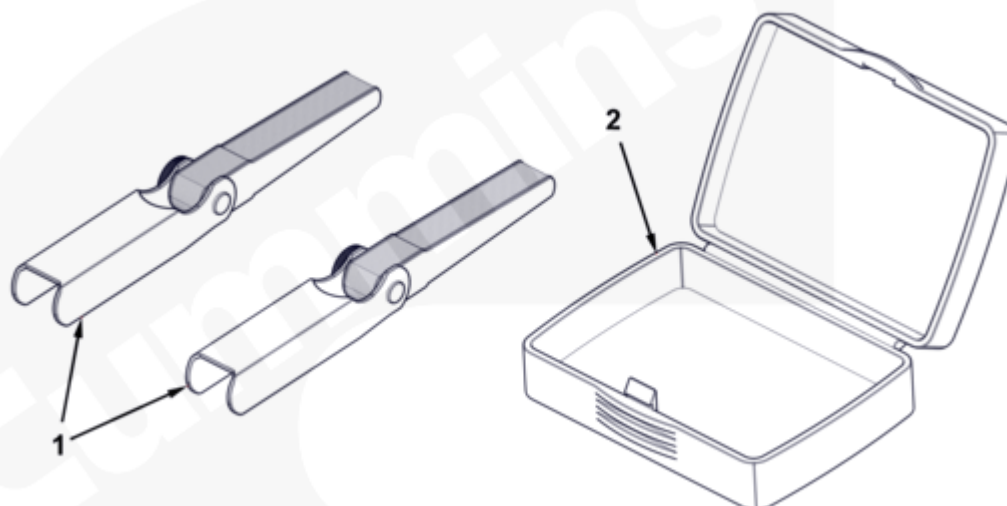

Tool Number

5394535

Feeler Gauge Set

Used in setting the fuel pump idler gear lash.

©Cummins Inc

22r00107

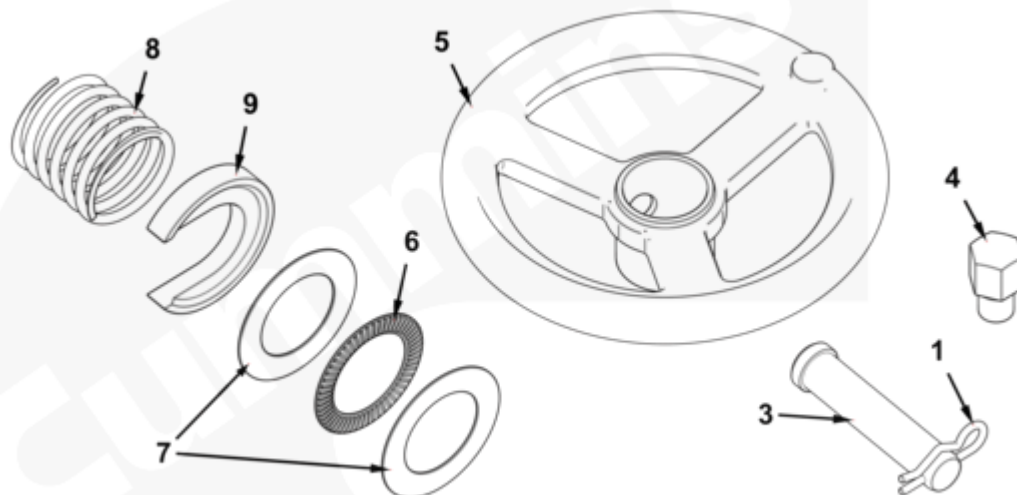

Tool Number

5395552

Counterbore Cutting Improvement Kit

The kit provides several options to make the cylinder block counterbore cutting operation easier when the engine is in the vehicle. The kit is used with the Counterbore cutter driver, Part Number 3163785 and any engine-specific counterbore cutter kit that uses Part Number 3163785.

©Cummins Inc

22r00273

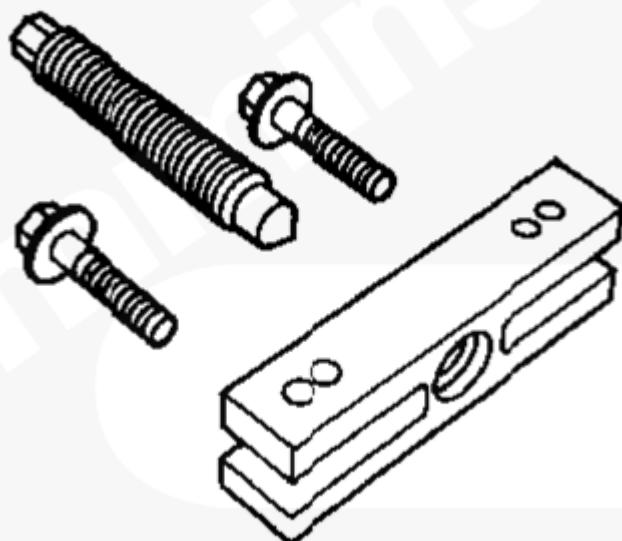

Tool Number

ST-647

Small Gear Puller

Used to pull gears with a light press fit and cran seal(s).

©Cummins Inc

ad8toga
