Injectors and Fuel Lines

Tool Number
3042618
Compuchek™ Fitting
Used to connect a fuel pressure gauge to the fuel drain manifold.
©Cummins Inc 22x00005

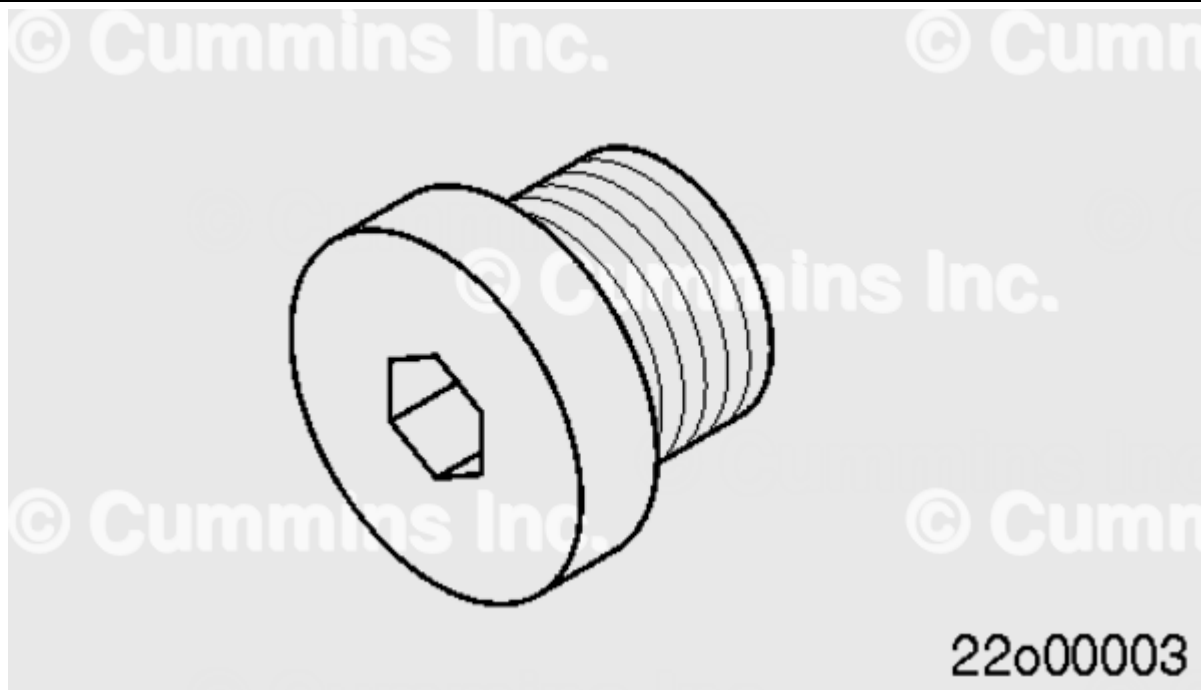

Tool Number

3089238

M22 Straight Thread O-Ring Plug (STOR) Fitting

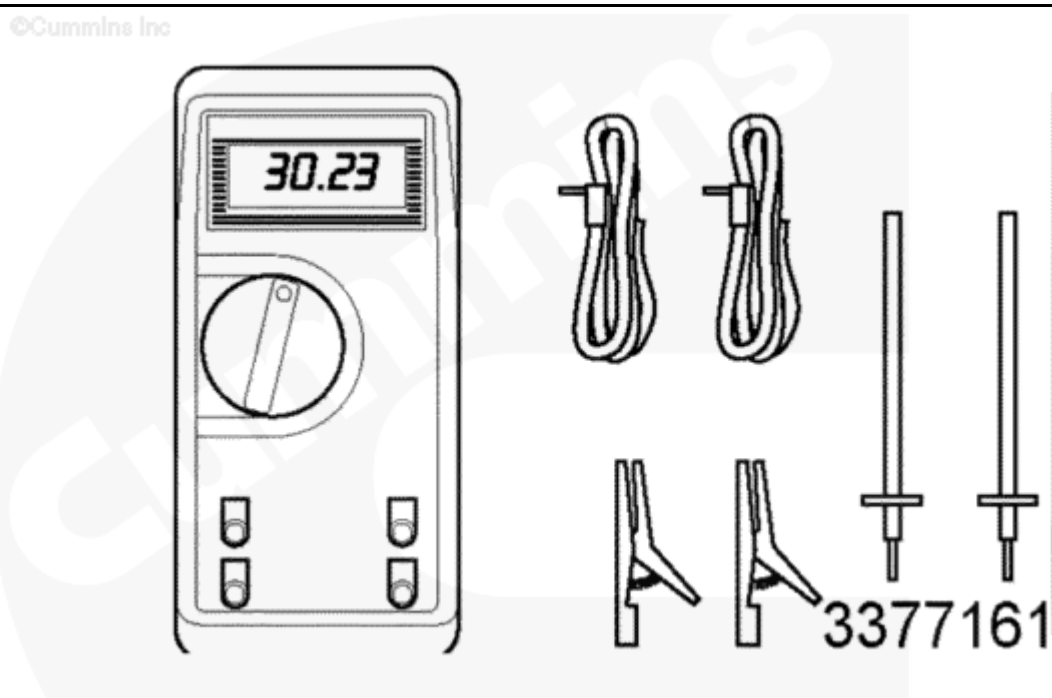

Used to plug the port on the fuel drain manifold if a fuel thermal recirculation valve is equipped.

**Tool Number**

3164488

Multimeter

Used to measure voltage, resistance, and current in electrical circuits.

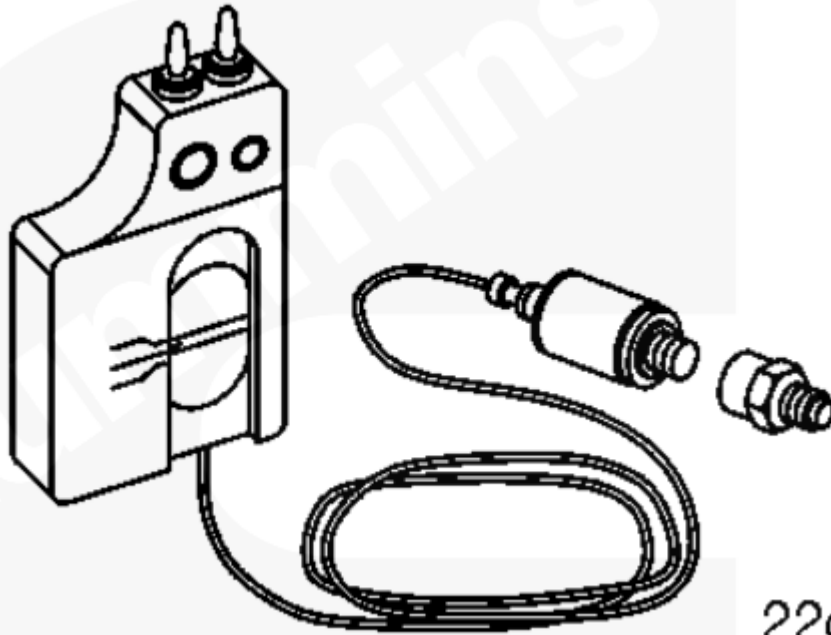

Tool Number

3164491

Pressure and Vacuum Module

Used with multimeter, Part Number 3164488, to measure pressures and restriction in the fuel system.

22c00252

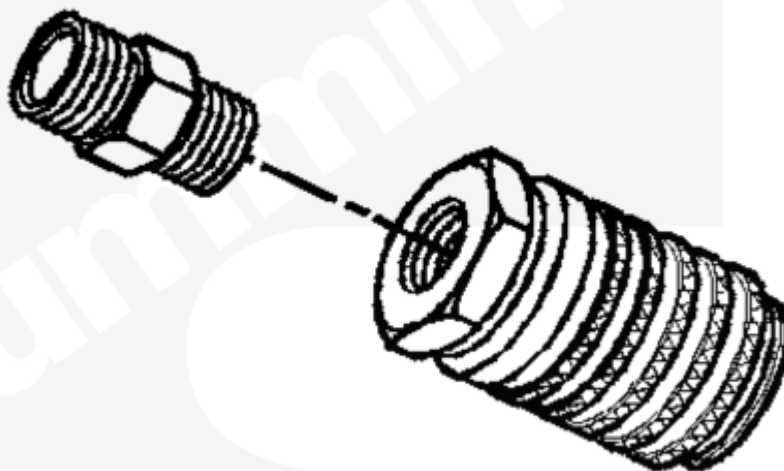

Tool Number

3164621

Fuel Line with 1.09 mm [0.043 in] Orifice

Used to create rated fuel flows through the low-pressure fuel system without loading the engine.

3164621

Tool Number

3824510

QD™ Contat Cleaner

A non-petroleum cleaner used to clean electrical connections and fuel pump internal parts.

©Cummins Inc

oi8togt

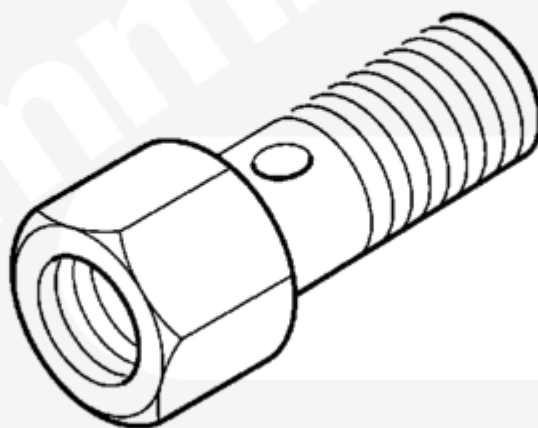

Tool Number

4918413

12 mm Banjo Connector Fitting

A banjo-style pressure gauge adapter can be used to measure pressure or vacuum at any point in the low-pressure fuel system where a 12 mm banjo bolt exists at a fuel line.

22d00230

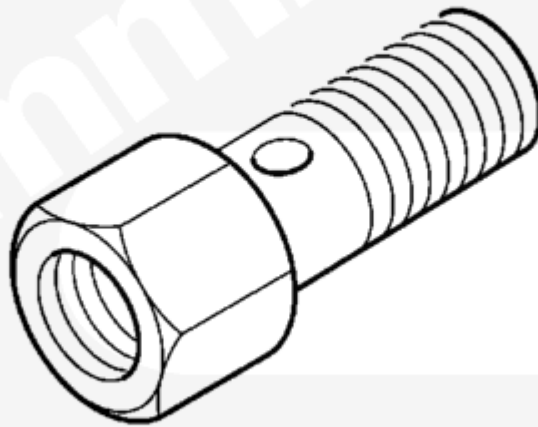

Tool Number

4919057

16 mm Banjo Connector Fitting

A banjo-style pressure gauge adapter can be used to measure pressure or vacuum at any point in the low-pressure fuel system where a 14 mm banjo bolt exists at a fuel line.

Tool Number

4919073

Fuel System Clean Care Kit

Used to cap or plug the fuel system fittings during service to prevent debris from entering the fuel system.

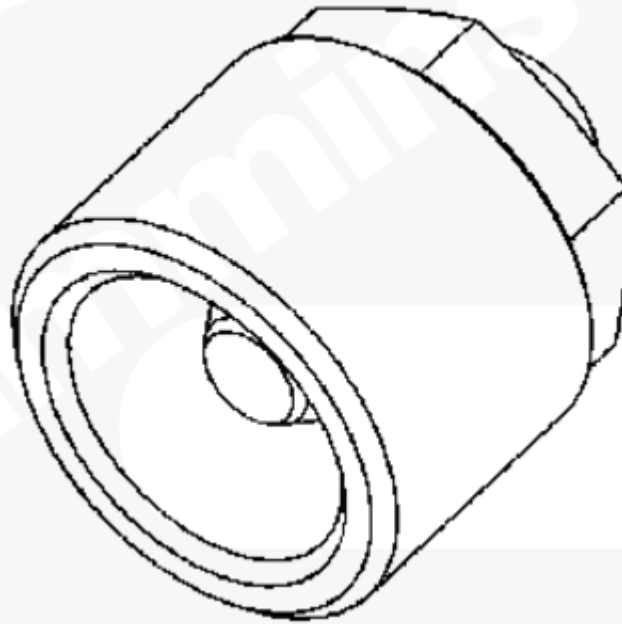

Tool Number

4919546

Fuel System Leak Tester

Used to block a single injector and high-pressure fuel connector from pressurized fuel. This tool helps identify a malfunctioning injector when the injector return flow is excessive.
