Issue Summary

Symptom:

- The J1939 Data Link Diagnostic Tool is **not** available.

Root Cause:

- INLINE™ 7 drivers are required to use the J1939 Data Link Diagnostic tool with the NEXIQ USB-Link™ II Data Link Adapter.

Verification

The J1939 Data Link Diagnostic Tool, (previously known as CAN Bus Diagnostics Tool) under the Tools tab in INSITE™ Electronic Service Tool is greyed out.

Resolution

- Download and install the INLINE™ 7 drivers version 2.8.0.7 or newer. Reference the link below:

Note : <https://www.cummins.com/support/digital-products-and-services-support/inline-support> (<https://www.cummins.com/support/digital-products-and-services-support/inline-support>)
- If the J1939 Data Link Diagnostics Tool is still greyed out, manually install the application by using the following directory.
- C:\Program Files (x86)\Cummins\INLINE 7\ Setup_Cummins_CAN_Bus_Diagnostics.exe

Document History

Date	Details
2023-10-19	Module Created
2024-4-22	Added X15 CM2450 X142B and X15 CM2450 X146B.
2024-5-6	Removed X15 CM2450 X146B.
2024-12-10	Minor correction made to verification section to indicate that the J1939 Data link diagnostic tool was formerly known as the CAN Bus Diagnostics tool.
