Installation Instruction Number: 4907689

Released Date: 19-jun-2006

Fuel Lift Pump Kit, Remote Mount

Fuel Lift Pump Kit, Remote Mount

Purpose

The purpose of this installation instruction is to explain the features and procedures on the remote mount 12 VDC Fuel Lift Pump Kit, Part Number 4025099 and 24 VDC Fuel Lift Pump Kit, Part Number 4025100. Both 12 VDC and 24 VDC fuel lift pump kits (with timing module) are used on the Signature and ISX engines.

The Fuel Lift Pump Features:

- Automatic operation: The fuel lift pump's power comes from the starter solenoid (unswitched battery post) and the signal for operation comes from the engine fuel shut-off valve. Therefore, it automatically starts priming the engine when the keyswitch is moved into the ON position. The fuel lift pump will run for two minutes and then shut-off automatically.
- Fuel Filtration: A 250 micron screen for the fuel filtration is on the inlet side. This screen has a 254 sq mm [10 sq in] of filtering area and can **not** become plugged easily. However, if this occurs because of unusual fuel conditions, the screen can be removed and cleaned through the access plug.
- Inlet screen and check valve: Allows for removal of the existing integrated fuel system module inlet screen and check valve.

Table 1, 12 VDC Fuel Lift Pump Kit, Part Number 4025099

Part Number	Description	Quantity
4062664	Fuel lift pump module	1
4062666	Threaded studs (mounting for fuel lift pump module)	1
4062615	Thrust bearing plate (mounting for fuel lift pump module)	2
3925437	Capscrew (for Centinel option only)	2
3009330	Washer (for Centinel option only)	1

Table 1, 12 VDC Fuel Lift Pump Kit, Part Number 4025099		
4058948	Hose flexible (fuel lift pump to integrated fuel system module)	1
3062329	Wire tie	1
4062608	Male union (replaces integrated fuel system module inlet fitting)	1
4062629	Nut (regular hexagon)	2
4062607	Fuel plumbing bracket	1
4062614	Male union (mates to OEM inlet fuel line)	1
4062472	Check valve fitting (air bleed hose)	1
4062413	Air bleed hose	1
3332319	Male elbow (air bleed elbow on drain)	1
