Specifications

Cummins Filtration™, which produces Fleetguard® products, is a division of Cummins Inc. Fleetguard® filters are developed through joint testing at Cummins Inc. and Cummins Filtration™. Fleetguard® filters are standard on new Cummins® engines. Cummins Inc. recommends their use.

Fleetguard® products meet all Cummins® Source Approval Test standards to provide the quality filtration necessary to achieve the engine design life. If other brands are substituted, the purchaser **must** insist on products that the supplier has tested to meet Cummins® high-quality standards.

An approved lubricating oil filter **must** be used. Engine durability will be reduced by the use of the wrong lubricating oil filter.

Cummins Inc. is **not** responsible for problems caused by filters that do **not** meet Cummins® performance or durability requirements.

Description	Cummins® Part Number	Supplier Part Number
Oil filter with Dongfeng and Cummins® logo (maximum change interval 100,000 km)	5465813	LF14003NN
Oil filter with Dongfeng and Cummins® logo (maximum change interval 60,000 km)	5716630	L120314301
Oil filter with Cummins® logo	5718681	LF14003NN
Closed Crankcase Ventilation (CCV) filter	4389517	CV5300900JX
Fuel filter (spin-on type), if equipped	5371001	NG0591000MX
Fuel filter (canister type), if equipped	6385788	NH05920
