General Information

The service model name for this product is **15N CM2380 M104B**.

This engine is being released to meet the following emission regulations:

European Union

- Euro VI (Dyno Certification)

China

- National Standard VI

This engine is being released to meet the following diagnostic requirements:

- On-Board Diagnostics (OBD-E)
- NS6 Phase B

The Control Parts List(s) (CPL) associated with this product are:

- 5480
- 5977
- 6292
- 6550

This engine uses the following product technology:

Engine

- Number of Cylinders: 6
- Engine Configuration
 - Inline
- Engine Orientation
 - Vertical
- Cylinder Block Material
 - Cast Iron
- Cylinder Head Material
 - Cast Iron
- Valves Per Cylinder: 4
 - Exhaust Quantity: 2
 - Intake Quantity: 2
- Camshaft Location
 - Cylinder Head

- Camshaft Followers/Tappets
 - Sliding Followers/Tappets
- Primary Gear Train Location
 - Rear of the Engine
- Engine Braking
 - Compression Brake Option
- Accessory Drive Option
- Crankcase Ventilation System
 - Closed

Fuel System

- Natural Gas (NG)
- Air/Fuel Mixer
- Fuel Regulator
- Fuel Metering Valve
- Fuel Metering Valve Injector

Air Handling

- Turbocharger (Single)
 - Wastegate
- Charge Air Cooler
- Engine Intake Throttle Actuator

Exhaust System

- Exhaust Gas Recirculation (EGR)

Electrical Equipment

- Starting System
 - Electric Starting Motor Option
 - 24 VDC
- Charging System (Voltage Options)
 - 24 VDC
- Ignition System
 - Ignition Coil
 - Spark Plugs

Electronic Control System

- Engine Control Module (Single)
 - Control Module: CM2380
- ECM Supply Voltage
 - 24 VDC
- Ignition Control Module
 - 24 VDC
- Engine Coolant Temperature Sensor
- Engine Oil Pressure Sensor
- Engine Oil Temperature Sensor
- Crankcase Pressure Sensor

- Closed Crankcase Ventilation System Pressure Sensor
- Camshaft Position Sensor
- Crankshaft Position Sensor
- Intake Manifold Pressure/Temperature Sensor
- Ambient Air Temperature Sensor
 - Aftertreatment Intake Oxygen Sensor
 - Aftertreatment Outlet Oxygen Sensor
- Aftertreatment Exhaust Gas Temperature Sensor
- EGR Differential Pressure Sensor
- EGR Temperature Sensor
- Exhaust Gas Pressure Sensor
- Engine Throttle Intake Pressure Sensor
- Turbocharger Compressor Intake Humidity/Pressure/Temperature Sensor
- Knock Sensor

Market applications that will use this engine include, but are **not** limited to:

Truck

- Conventional Truck
