General Information

The service model name for this product is **QSB6.7 CM2150 B109**.

This engine is being released to meet the following emission regulations:

European Union

- Stage III (Euro)

Brazil

- CONAMA MAR-1

China

- China Tier 2.

This engine uses the following product technology:

Engine

- Number of Cylinders - 6
- Engine Configuration - Inline
- Cylinder Block Material - Cast Iron
- Cylinder Head Material - Cast Iron
- Camshaft Location - Cylinder Block
- Crankshaft Location - Cylinder Block
- Engine Brake Option.

Electronic Control System

- Engine Control Module: CM2150
- Electrical System Voltage: 24-VDC
- Engine Coolant Level Sensor
- Engine Coolant Temperature Sensor
- Engine Oil Pressure Sensor
- Engine Oil Pressure Switch
- Fuel Rail Pressure Sensor
- Fuel Pump Actuator
- Water-in-Fuel Sensor
- Camshaft Position Sensor
- Crankshaft Position Sensor
- Ambient Air Pressure Sensor

Air Handling

- Turbocharger (Single)
 - Wastegate
- Charge-Air Cooler
- Intake Air Heater.

Fuel System

- Diesel
- Common Rail Fuel System
 - Bosch™ Common Rail Fuel System.

Market application that will use this engine include, but **not** limited to:

Industry

- Construction.
