Exhaust System

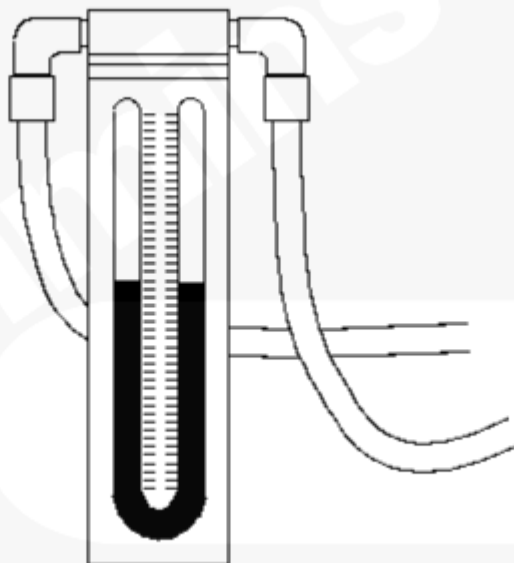

Tool Number

ST-1111-3

Manometer

Used to measure exhaust restriction.

©Cummins Inc

st-1111-3

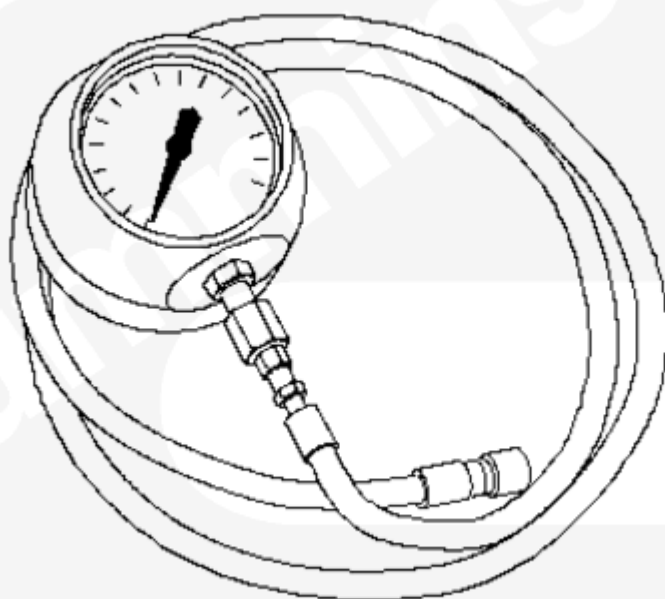

Tool Number

ST-1273

Pressure Gauge

Used to measure pressure in inches of mercury (in Hg).

©Cummins Inc

22200126

Tool Number

3164487

Infrared Thermometer

Used to measure the surface temperatures of exhaust system components.

©Cummins Inc

22200127

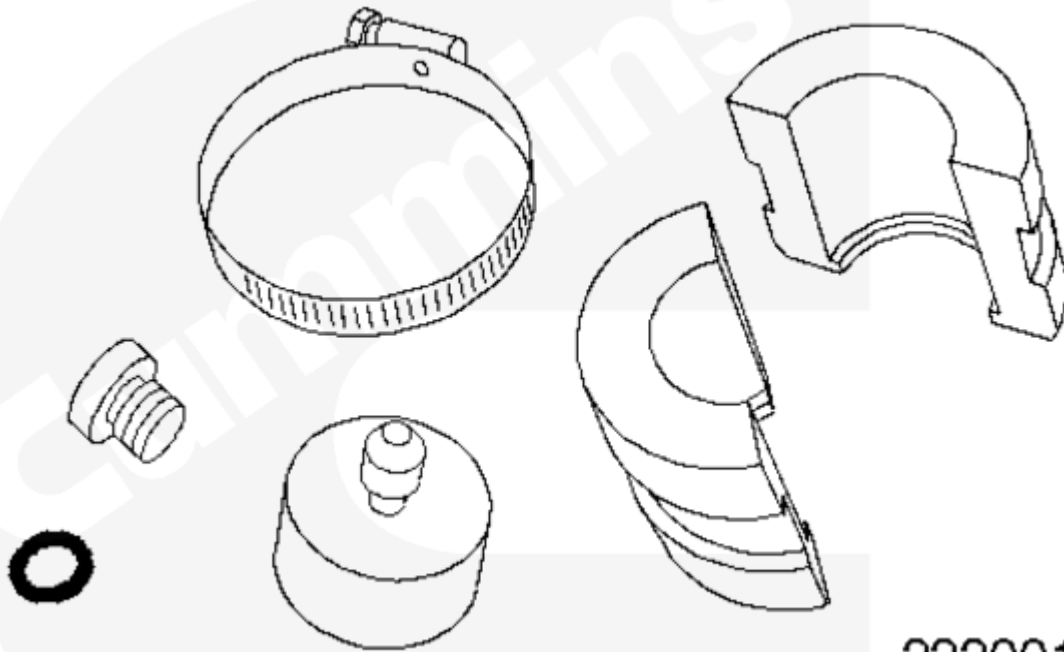

Tool Number

3164843

EGR Cooler Leak Test Kit

Used to diagnose EGR cooler leaks on ISM CM870 with CM570 and ISM CM875 engines.

©Cummins Inc

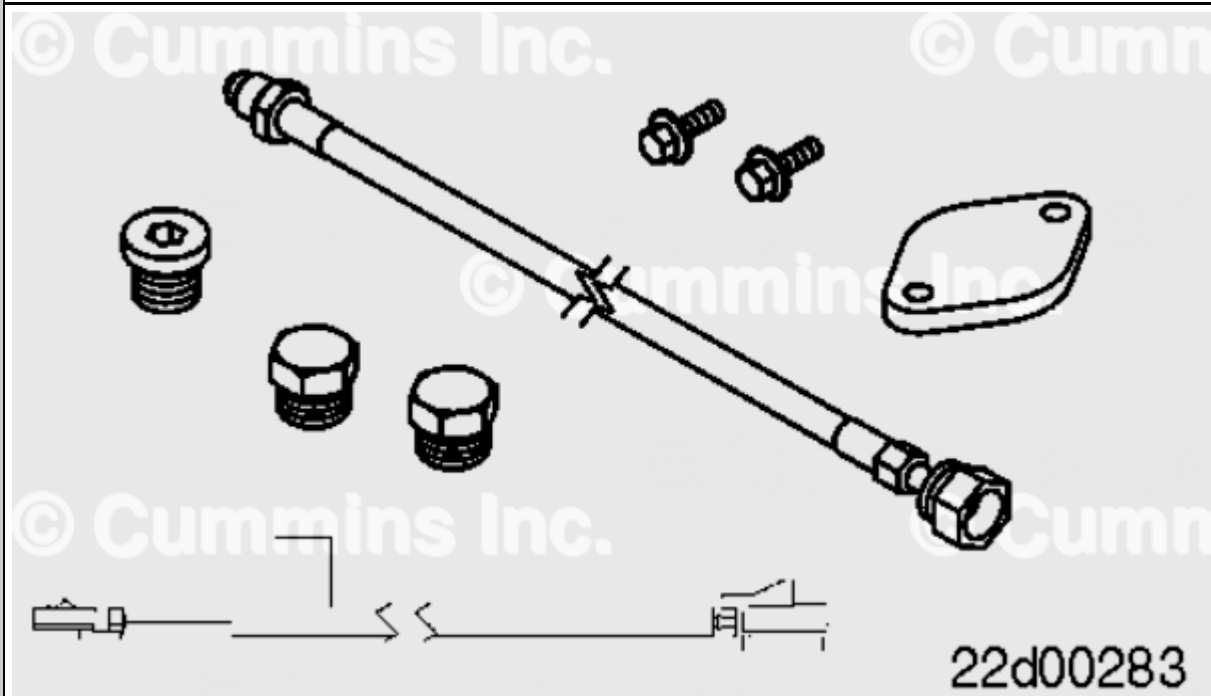

22200125

Tool Number

4918517

Aftertreatment Fuel Injector Test Kit

Used for testing the aftertreatment fuel injector for proper operation.

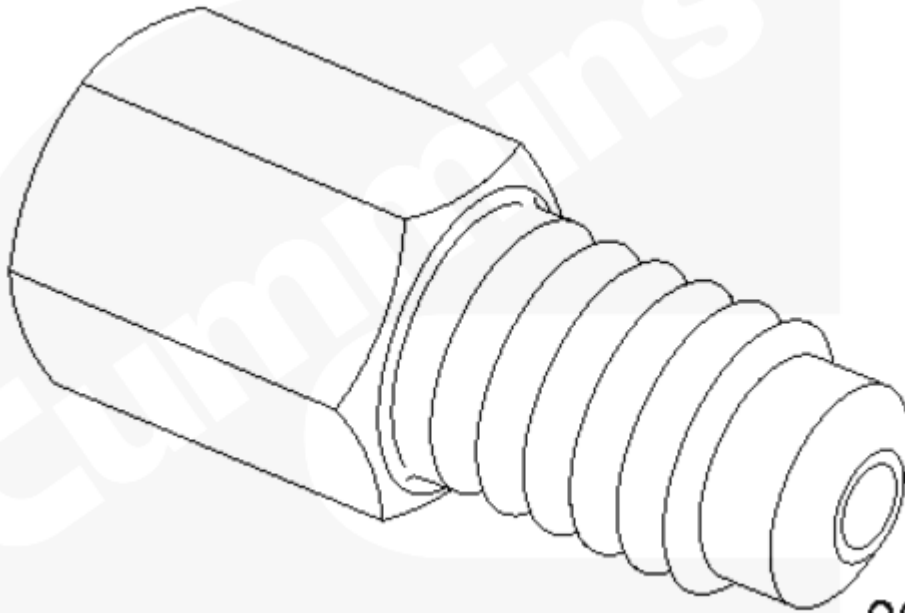

Tool Number

4918576

Pressure Adapter Fitting

Used to measure the pressure and pressure differences at various points in the aftertreatment system. The fitting is inserted into the thermistor ports of the aftertreatment system.

©Cummins Inc

22c00431

Tool Number

4918709

Exhaust Seal Installer

Used to install the exhaust manifold seal on ISM with CM876 engines.

©Cummins Inc

22c00432

Tool Number

4919424

EGR Cooler Leak Test Kit

Used to pressure test and clean the EGR cooler on ISM CM876 engines.

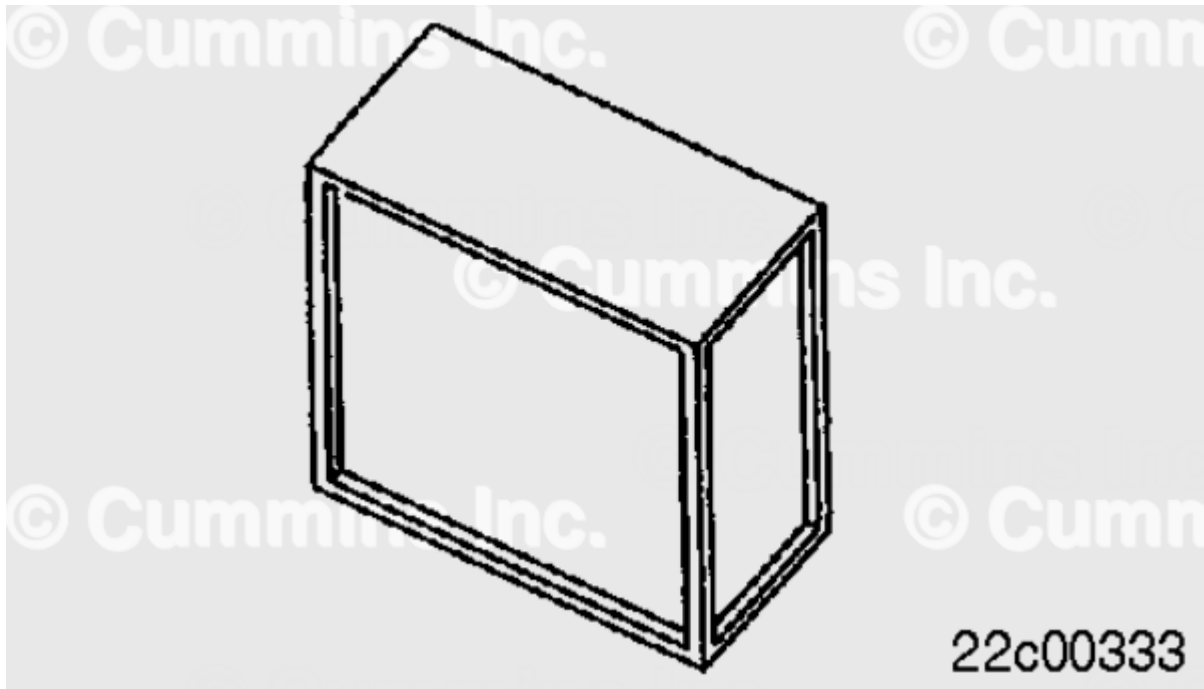

22c00355

Tool Number

4918839

Diesel Particulate Filter Cleaner HEPA Filter

Used to replace the HEPA filter on diesel particulate filter cleaner, Part Number 4918840.

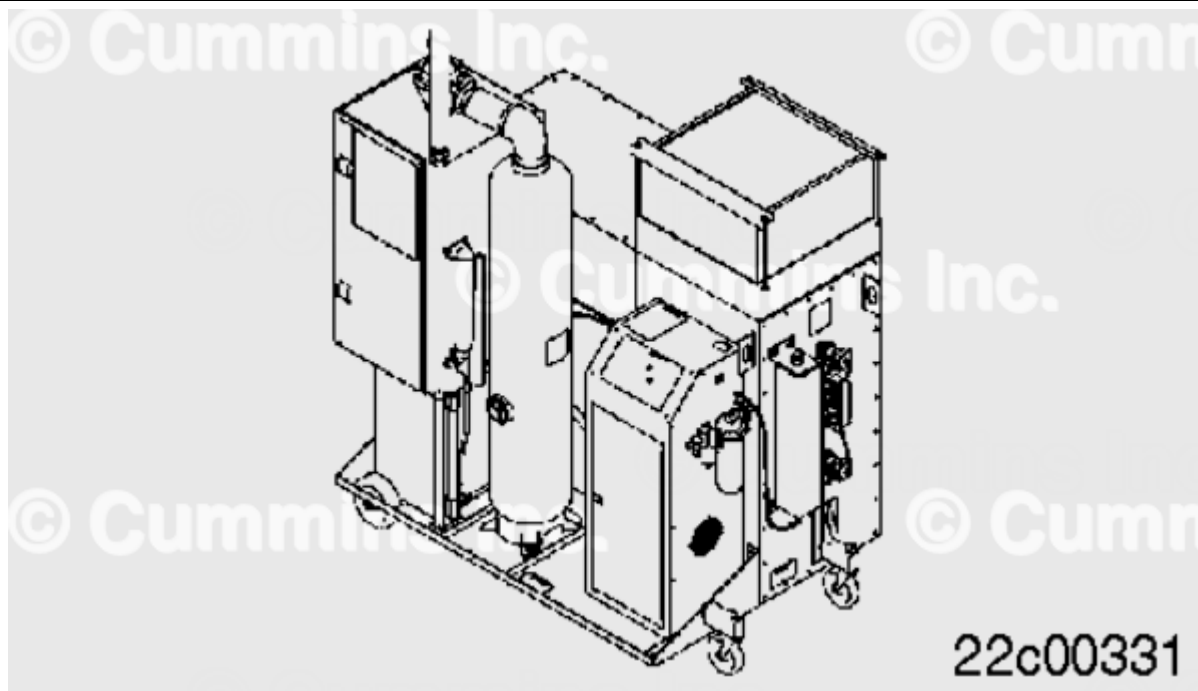

Tool Number

4918840

Diesel Particulate Filter Cleaner

This machine is used with diesel particulate filter cleaner adapter kit, Part Number 4918893 or 4919182, to clean the diesel particulate filter once it is removed from the vehicle. (U.S.A. only. Not intended for use in Canada.)

Tool Number

4918841

Diesel Particulate Filter Cleaner Vacuum Filter

Used to replace the vacuum filter on diesel particulate filter cleaner, Part Number 4918840.

Tool Number

4918842

Diesel Particulate Filter Cleaner Canister Filter

Used to replace the canister filters on diesel particulate filter cleaner, Part Number 4918840.
Two are required per machine.

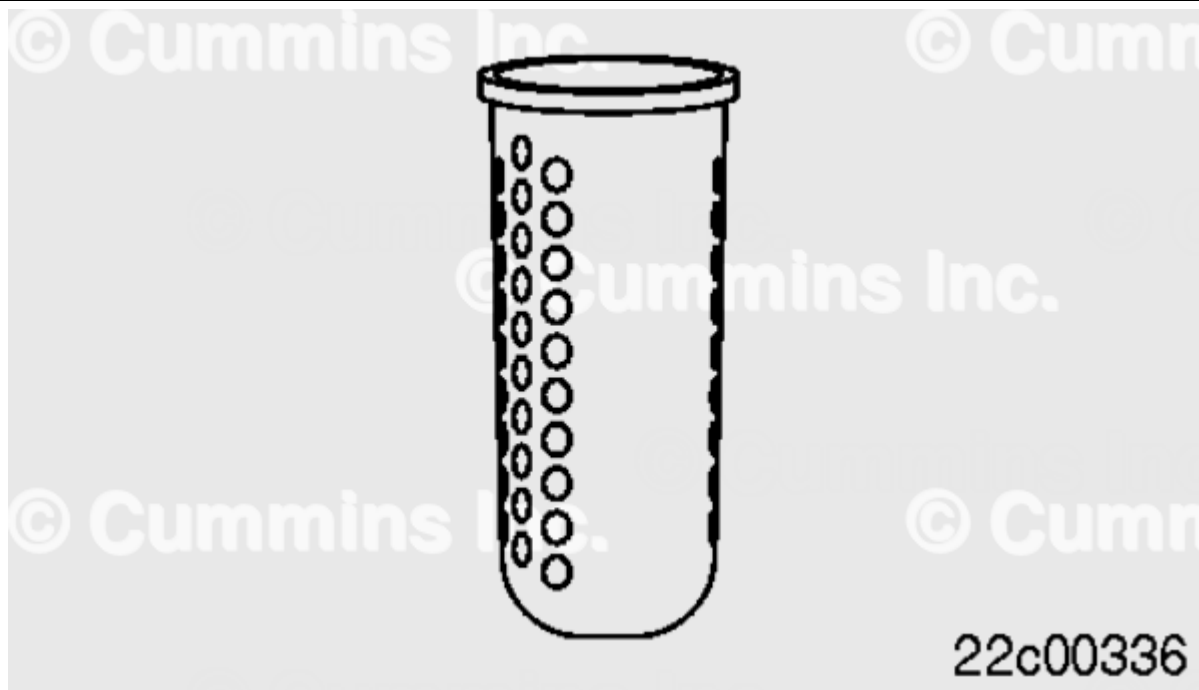

Tool Number

4918851

Diesel Particulate Filter Cleaner Water Separator

Used to replace the water separator on diesel particulate filter cleaner, Part Number 4918840.

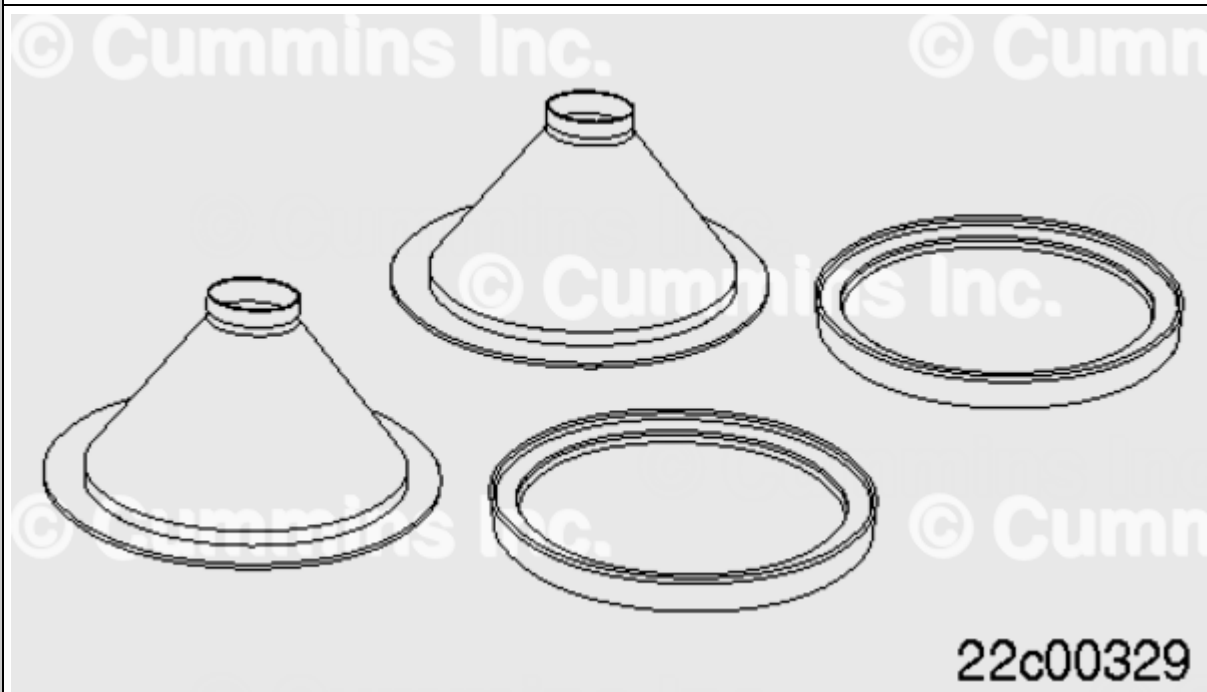

Tool Number

4918893

Diesel Particulate Filter Cleaner Adapter Kit

Used with Part Number 4918840 to adapt the diesel particulate filter to the cleaner.

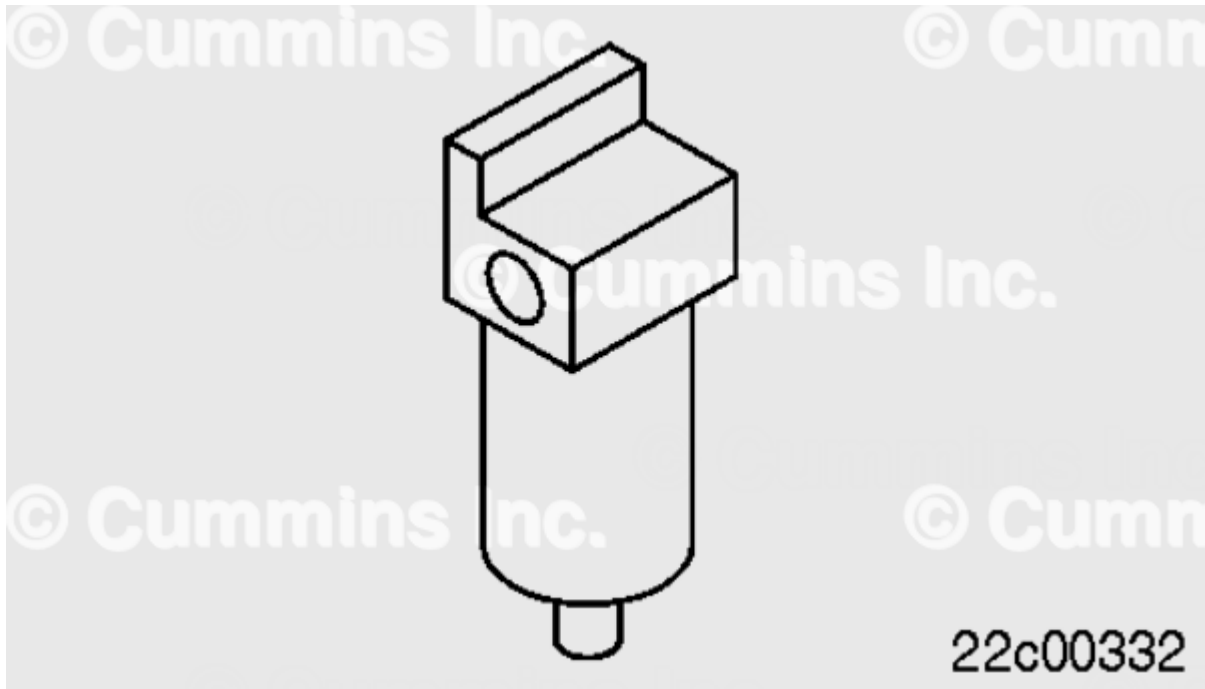

Tool Number

4918896

Diesel Particulate Filter Cleaner Oil Separator Filter

Used to replace the oil separator filter on diesel particulate filter cleaner, Part Number 4918840.

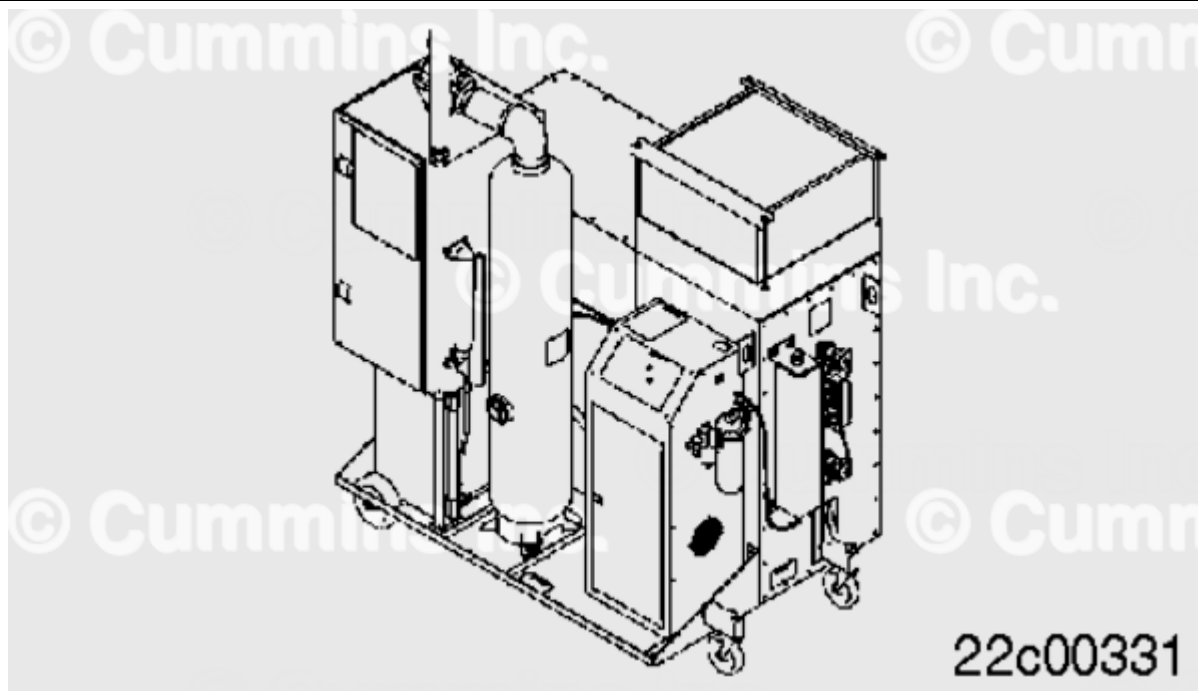

Tool Number

4919052

Diesel Particulate Filter Cleaner

This machine is used with diesel particulate filter cleaner adapter kit, Part Number 4919172 or 4919182, to clean the diesel particulate filter once it is removed from the vehicle. (For use in the U.S.A and Canada.)

Tool Number

4919053

Diesel Particulate Filter Cleaner Canister Filter

Used to replace the canister filters on diesel particulate filter cleaner, Part Number 4919052.
Two are required per machine.

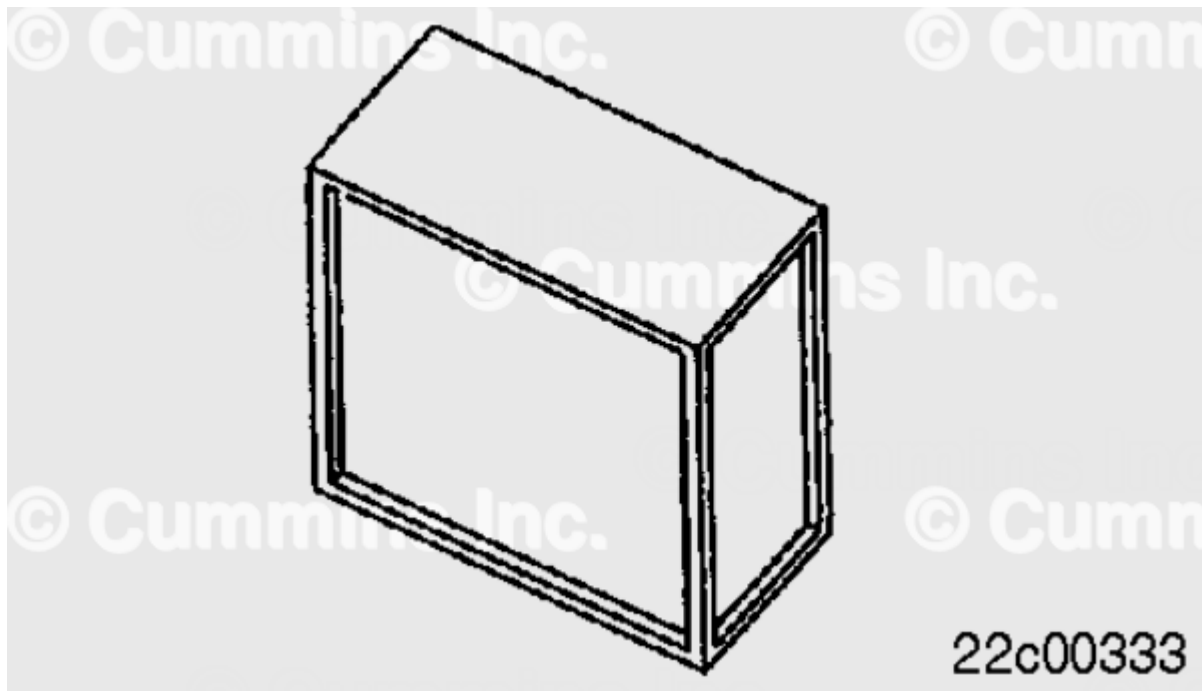

Tool Number

4919054

Diesel Particulate Filter Cleaner HEPA Filter

Used to replace the HEPA filter on diesel particulate filter cleaner, Part Number 4919052.

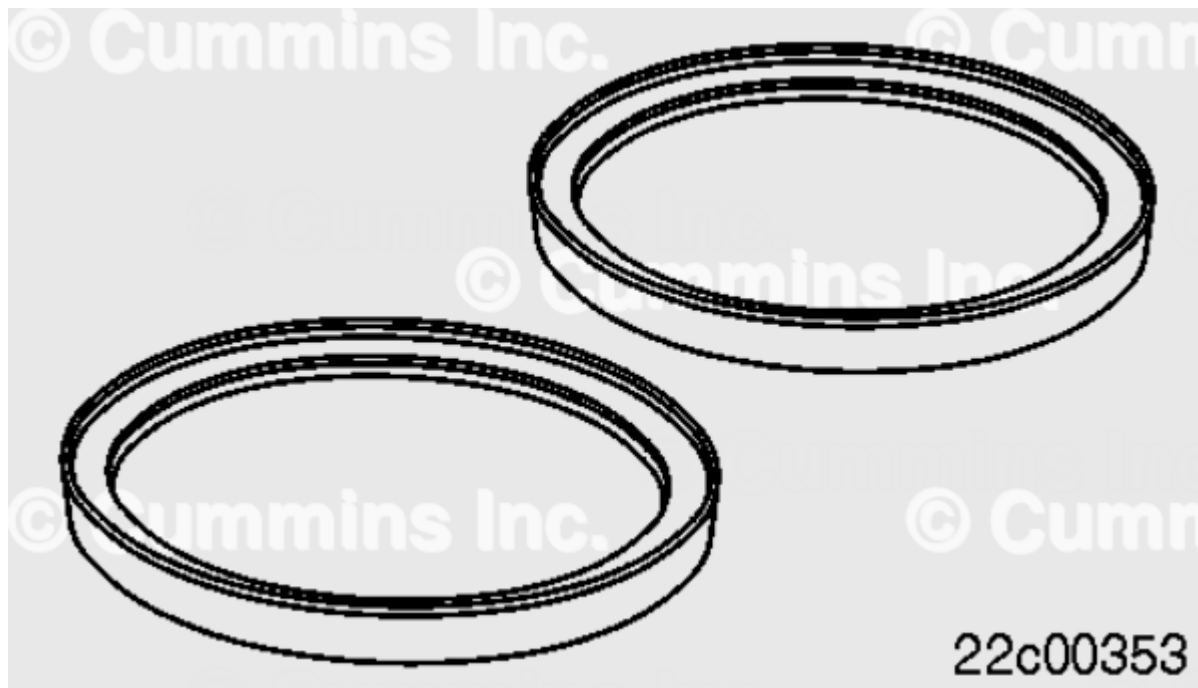

Tool Number

4919182

Diesel Particulate Filter Cleaner Adapter Kit

Used with Part Number 4919052 or 4918840 to adapt an aftermarket or retro-fit diesel particulate filter to the cleaner.

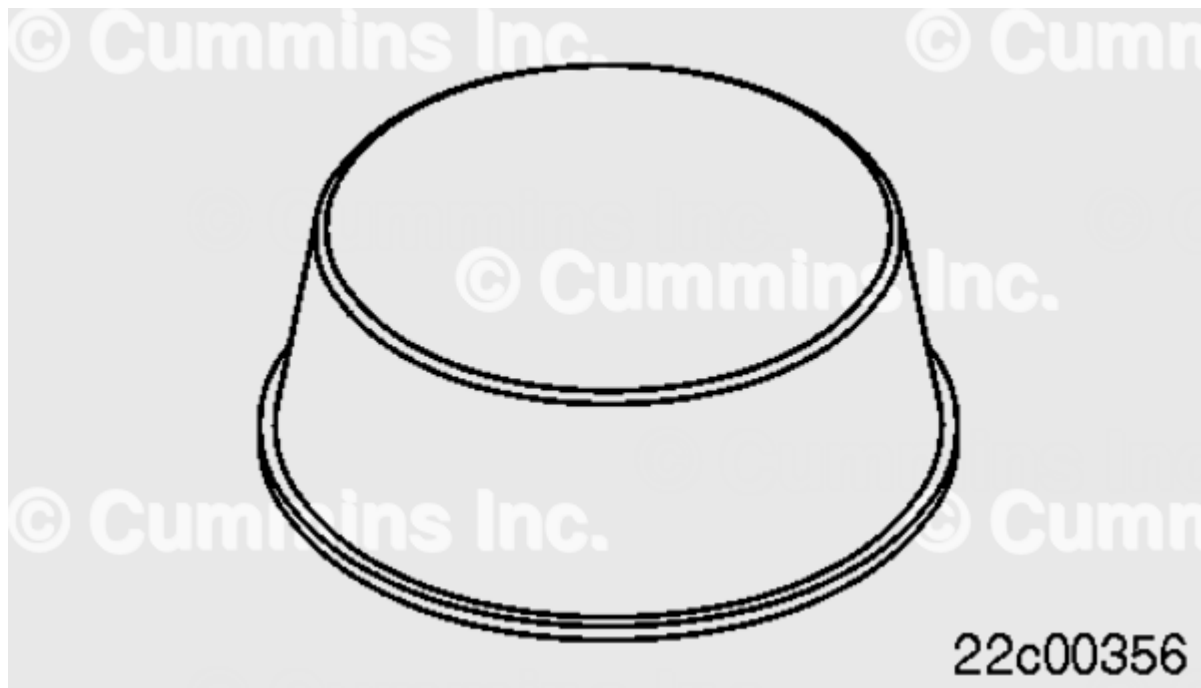

Tool Number

4919404

Air Handling Clean Care Kit for ISM Engine Components

Contains a variety of caps to prevent contamination of engine air handling plumbing during service procedures.

Tool Number

4919425

Air Handling Clean Care Kit for Vehicle Plumbing

Contains a variety of caps to prevent contamination of vehicle air handling plumbing during service procedures.
