Contents

This Technical Service Bulletin is to announce a new turbocharger kit, Part Number 4090043, released for the ISX Family 3 CM570 engine. This change affects ISX Family 3 engines with any of the following control parts lists (CPL): 2442, 2630, 2633, 2801, 2802, 2834, 2835, 8246 and 8247.

Engines built prior to engine serial number (ESN) 79146928 (November 29, 2005) were built with turbine housings utilizing a 4-bolt mounting system for the wastegate actuator.

Engines with ESN 79146928 and higher (November 29, 2005) were built with a new turbine housing that has been modified by removing one of the wastegate mounting bosses.

When turbocharger kit, Part Number 4090043, replaces turbocharger kit, Part Number 4089760, on one of the affected CPLs, the engine dataplate **must** be stamped with Field Fix Number 371. This number is required by law to retain certification of the engine.

For correct turbocharger installation, refer to Procedure 010-033 (/qs3/pubsys2/xml/en/procedures/10/10-010-033-tr.html) in the Signature, ISX and QSX15 Service Manual, Bulletin 3666239.

Turbocharger kit, Part Number 4090043, is also used on some present production ISX Family 3 CM570 CPLs. The present productions CPLs do **not** require the Field Fix number to be stamped on the dataplate.

Below are the part numbers for the new and old turbocharger kits.

New Part Number	Description	Old Part Number	Quantity
PP10146-10	Turbocharger	PP10146-09	
4090043	Kit, Turbocharger	4089760	
4040849	Turbocharger	4038281	1
4026884	Gasket, Turbocharger	4026884	1
3680324	Gasket, Flange	3680324	1
3066211	Seal, O-Ring	3066211	1

New Part Number	Description	Old Part Number	Quantity
3679139	Seal, O-Ring	3679139	1
3922794	Seal, O-Ring	3922794	1
Note : This is a product improvement and is not subject to campaign.
