New Lubricating Oil Filter Head and Oil Cooler Elements

New Lubricating Oil Filter Head and Oil Cooler Elements

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This Technical Service Bulletin announces a new style of lubricating oil filter head and oil cooler element. This new part style will be used on all production engines built after the engine serial number (ESN) firsts listed.

No parts are superseded with this change. All previous lubricating oil filter head and oil cooler elements remain available for service **only**.

83 mm Oil Cooler Element Information:

New oil cooler elements have been released. These oil cooler elements have a height of 83 mm. Previous elements were 63 mm in height. The mounting capscrews have changed and a spacer is now used. A stainless steel oil cooler element will be offered for some engine ratings.

None of the 83 mm oil cooler elements are backwards-compatible with previous lubricating oil filter head housings. They **must** be used with the newly released single cooler cavity lubricating oil filter head.

Single Cavity Lubricating Oil Filter Head Information:

A new lubricating oil filter head has been released with several design changes including:

- a single deeper cooler cavity
- a permanent baffle
- an added OEM coolant port.

This lubricating oil filter head is required when the 83 mm oil cooler elements are used.

Production ESN First	Lubricating Oil Filter Head Assembly Part Number Used	Serviced As	Cooler Element Material, 83 mm	For Performance Ratings In
	4965901	Lubricating Oil Filter Head, Part Number 4965896	stainless	Family 1
79278917	4965902		stainless	Family 1
79277908	4965903		stainless	Family 1
79277952	4965904		anodized aluminum	Family 2-3
79278044	4965905		anodized aluminum	Family 2-3
79278264	4965906		anodized aluminum	Family 2-3

The following service kits have been created for servicing 83 mm oil cooler elements:

Service Kit Part Number	Component	Part Number	Quantity
4955829: gasket, o-ring, capscrew, or spacer replacement	Capscrew, steel M8 x 100 mm (nylon coating)	4965483	4
	Cooler HNBR (hydrogenerated nitrile butadiene rubber) o-ring	4966084	2
	E-coated spacer	4965484	4
	Cooler gasket	4973532	2
4955830: stainless steel oil cooler replacement	83 mm stainless element	4965482	1
	Cooler HNBR (hydrogenerated nitrile butadiene rubber) o-ring	4966084	2
	Capscrew, steel M8 x 100 mm (nylon coating)	4965483	4
4955831: anodized aluminum oil cooler replacement	83 mm anodized aluminum element	4965487	1
	E-coated spacer	4965484	4
	Cooler gasket	4973532	2
	Capscrew, steel M8 x 100 mm (nylon coating)	4965483	4
