New Piston Top Compression Ring for ISX CM570, ISX CM870, ISX CM871, and QSX15 CM570

New Piston Top Compression Ring for ISX CM570, ISX CM870, ISX CM871, and QSX15 CM570

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document introduces the new ISX15 / QSX15 top compression ring with thicker chrome plating. This change applies to all ISX15 and QSX15 engines that previously used piston top compression ring, Part Number 3684010. The new ring is backward compatible with the previous piston top compression ring, Part Number 3684010. The new ring has the same geometric dimensions, but integrates thicker chrome plating on the bottom face and liner mating face. This increased chrome plating will decrease ring wear and improve ring life. The piston ring kit part number has changed and is referenced in Table 1 and Table 2 below.

The thicker chrome ring started in production for these engines on January 17th, 2013 with engine serial number (ESN) first 79635888.

Note : ISX15 CM2250, QSX15 CM2250, and ISX15 CM2350 X101 engines were originally introduced with the thicker chrome piston top compression ring. There will be no change to ring kits for these engine families.

Table 1: Piston Ring Kit Part Numbers for Single Piece Steel Piston (ISX CM570, ISX CM870, ISX CM871, and QSX15 CM570)

	New Piston Ring Kit, Part Number 4309441	Old Piston Ring Kit, Part Number 2881682
Top Compression Ring	3685095	3684010
Intermediate Compression Ring	2869635	2869635
Oil Control Ring	3682398	3682398

Table 2: Piston Ring Kit Part Numbers for Two Piece Articulated Piston (ISX CM570 and QSX15 CM570)		
	New Piston Ring Kit, Part Number 4309442	Old Piston Ring Kit, Part Number 4089154
Top Compression Ring	3685095	3684010
Intermediate Compression Ring	4059309	4059309
Oil Control Ring	3682398	3682398
