New Integrated Cylinder Head Valve Guide Seal and Valve Spring Guide

New Integrated Cylinder Head Valve Guide Seal and Valve Spring Guide

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document introduces a new style integrated cylinder head valve guide seal and valve spring guide.

Product Affected

- ISX15 (All Versions)
- QSX15 (All Versions)

Description of Change

The design change integrates the cylinder head valve guide seal, Part Number 4312008, and valve spring guide, Part Number 3680318, into a single component which will be called the cylinder head valve stem seal, Part Number 4356366. See Figure 1.

The change applies to both the intake valve and exhaust valve assemblies.

Figure 1, New Integrated Valve Stem Seal Design (Left) Obsolete Valve Guide Seal (Right)

Reason for Change

As a single component, the integrated design is retained securely by the valve spring to eliminate valve guide seal lifting. The valve stem seal design also lowers the oil metering rate which results in less oil passing through the valve guide seal.

Service Parts Availability

Service parts are available. See Table 1 for part numbers.

Table 1, Part Information

Part Description	Obsolete Part Number	Part Description	New Part Number
Cylinder Head Valve Guide Seal	4312008	Valve Stem Seal	4356366
Valve Spring Guide	3680318	Valve Stem Seal	4356366

Part Compatibility

The new cylinder head valve stem seal, Part Number 4356366, can be mixed within the same engine with any cylinder head valve guide seal and valve spring guide design.

Part Structure

The existing cylinder head valve guide seal and valve spring guide part numbers are obsoleted and superseded by the valve stem seal part number.

Part Inventory Action

Use existing part number inventory before using the new part number.

Production Status

Implemented for production. See Table 2.

Table 2, Production Status

New Part Number	ESN First	Build Date ¹	Plant
4356366	79812545	11 February 2015	Jamestown Engine Plant

¹Engine build date can be found on the engine dataplate.

Publications Affected

To be announced.
