Description of Change

A new coolant thermostat housing seal has been implemented for heavy duty platforms. The material of the coolant thermostat seal was changed from brass to stainless steel.

Reason for Change

A more robust stainless steel design prevents premature malfunction that may be experienced when utilizing the existing brass seal.

Customer Communication

For malfunctions related to the coolant thermostat, coolant thermostat seal or any other malfunctions where the coolant thermostat seal must be replaced, the stainless-steel seal, Part Number 3084879, is recommended for replacement.

Service Parts Availability

Service parts are available. See Table 1 for part numbers.

Table 1, Service Parts

Part Description	Existing Part Number	Obsolete	Superseded	New Part Number
Seal, Thermostat Housing	186780	No	Yes	3084879

Part Identification

See Figure 1 below for part differentiation.

Figure 1, Existing Brass Seal (Left), New Stainless-Steel Seal (Right).

Part Inventory Action

Memphis Distribution Center has been notified of this part change and has cancelled orders for existing brass seals and updated orders to new stainless steel for Heavy Duty. Planned implementation date at Memphis Distribution Center is 17 June, 2019, after remaining brass seal inventory has been depleted.
