Exhaust System

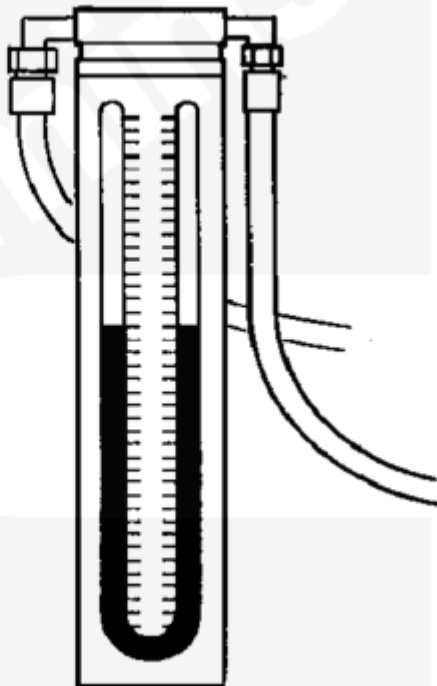

Tool Number

ST-1111-3

Manometer

Used to measure exhaust restriction.

©Cummins Inc

eg100ja

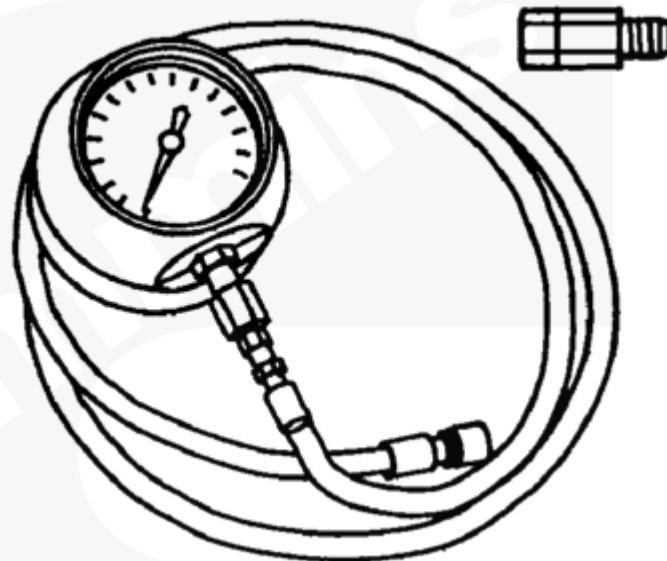

Tool Number

ST-1273

Pressure Gauge

Used to measure inches of mercury (in Hg) pressure.

©Cummins Inc

eg8togi

Tool Number

2892437

EGR Cooler Leak Check Kit

Used to pressure test and clean the EGR cooler on ISX with CM871 engines.

22o00001

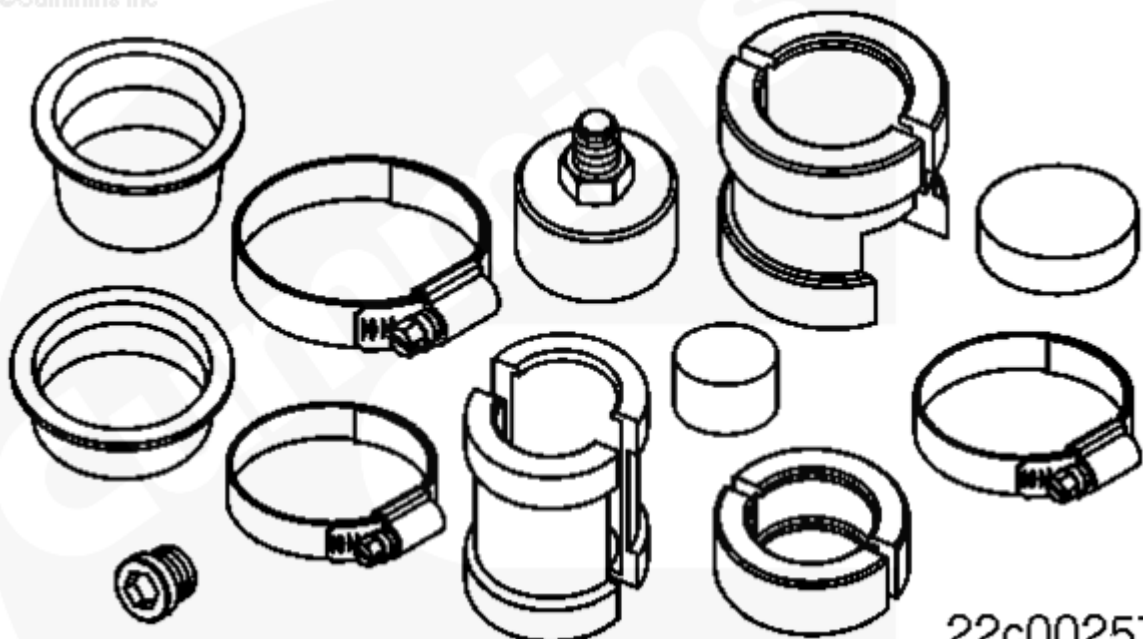

Tool Number

3164225

EGR Cooler Leak Check Kit

Used to identify leaks and clean the EGR cooler on ISX with CM870 engines.

©Cummins Inc

22c00257

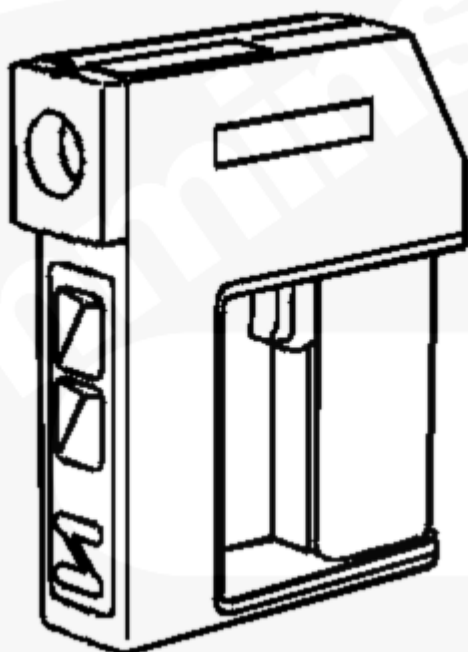

Tool Number

3824941

Infrared Thermometer

Used to measure the surface temperature of the exhaust components.

©Cummins Inc

3824941

Tool Number

4918709

Exhaust Seal Installer

Use to install the exhaust manifold seal on the ISX with CM871 engines.

©Cummins Inc

22c00432

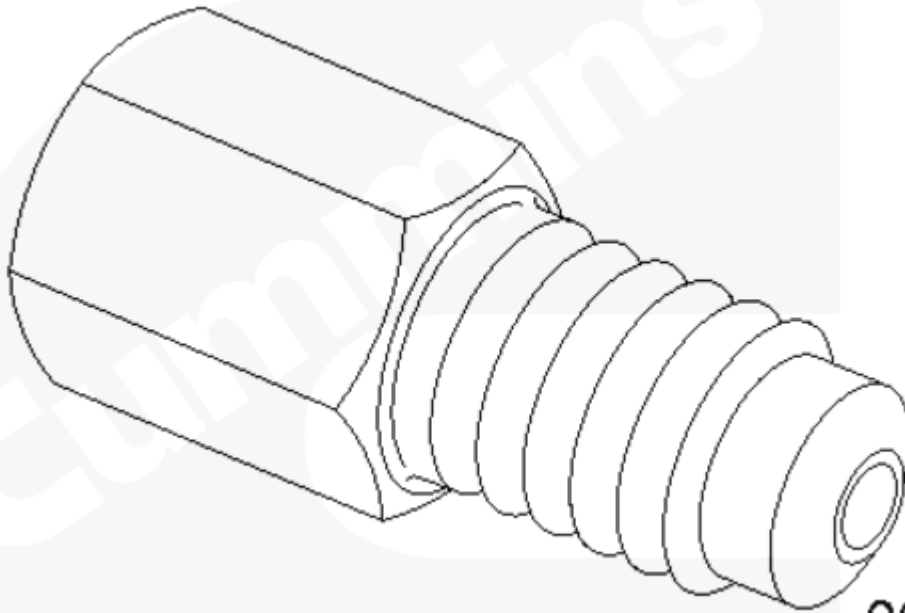

Tool Number

4918576

Pressure Adapter Fitting

This fitting is inserted into the thermistor ports of the aftertreatment system in order to measure the pressure and pressure differences at various points in the aftertreatment system.

Tool Number

4918839

Diesel Particulate Filter Cleaner HEPA Filter

Used to replace the HEPA filter on diesel particulate filter cleaner, Part Number 4918840.

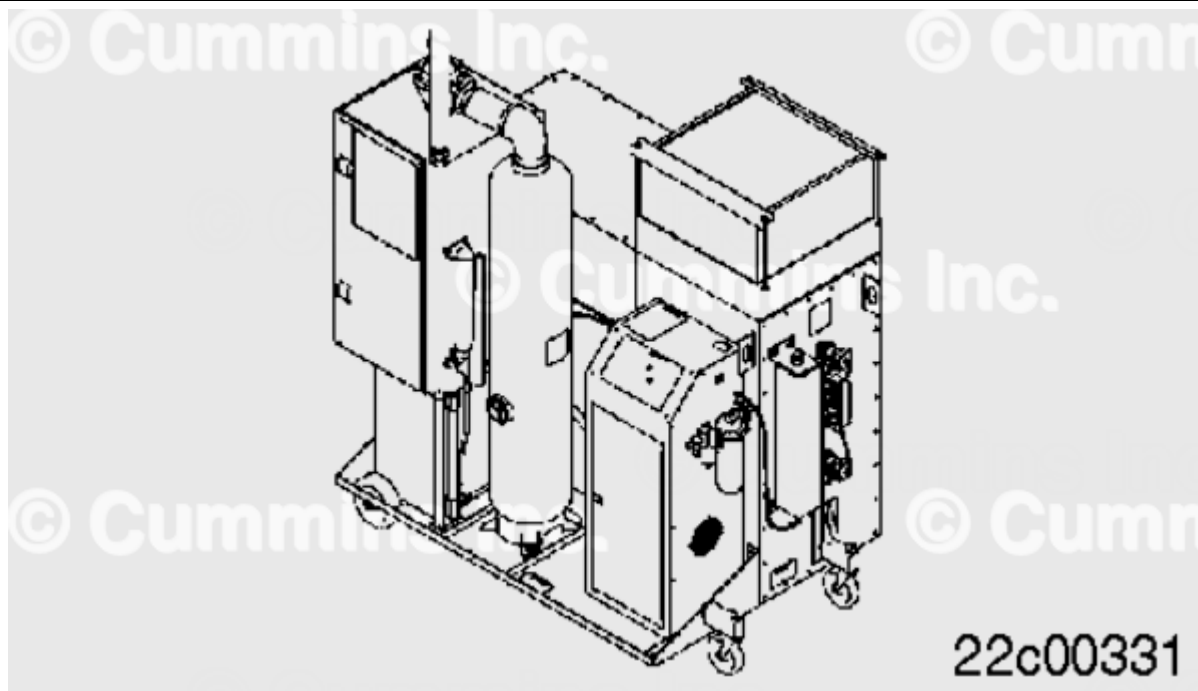

22c00333

Tool Number

4918840

Diesel Particulate Filter Cleaner

This machine is used with diesel particulate filter cleaner adapter kit, Part Number 4918893 or 4919182, to clean the diesel particulate filter once it is removed from the vehicle. (U.S.A. only. Not intended for use in Canada.)

Tool Number

4918841

Diesel Particulate Filter Cleaner Vacuum Filter

Used to replace the vacuum filter on diesel particulate filter cleaner, Part Number 4918840.

Tool Number

4918842

Diesel Particulate Filter Cleaner Canister Filter

Used to replace the canister filters on diesel particulate filter cleaner, Part Number 4918840.
Two are required per machine.

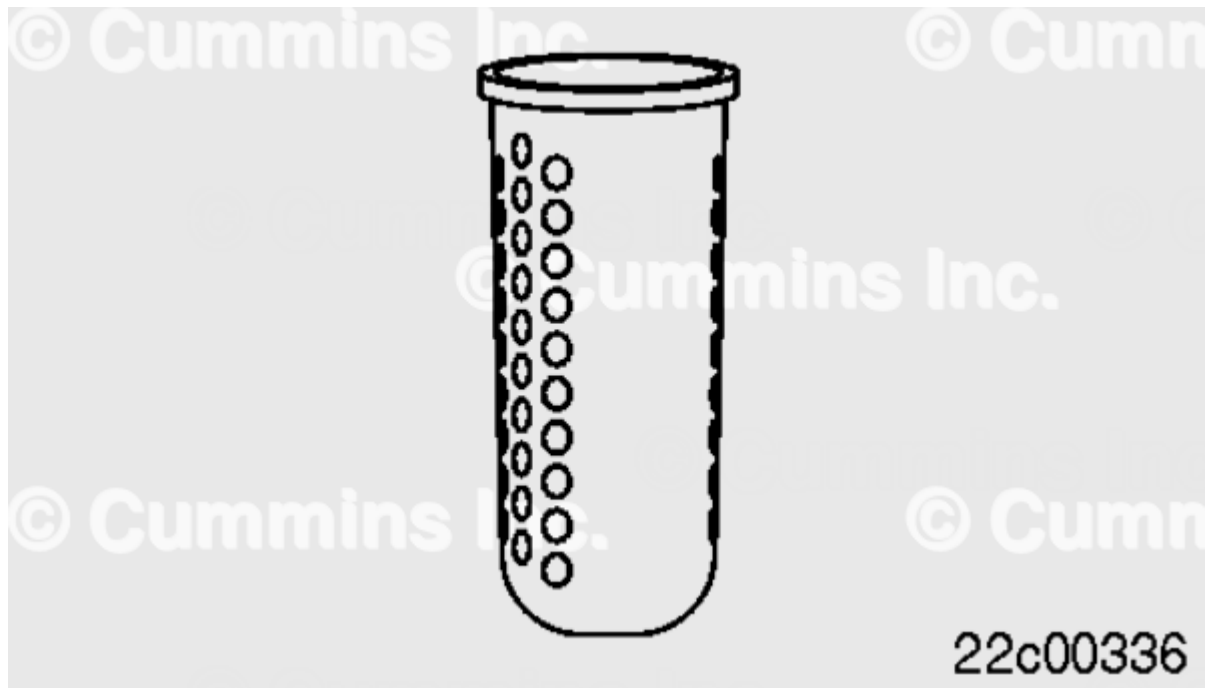

Tool Number

4918851

Diesel Particulate Filter Cleaner Water Separator

Used to replace the water separator on diesel particulate filter cleaner, Part Number 4918840.

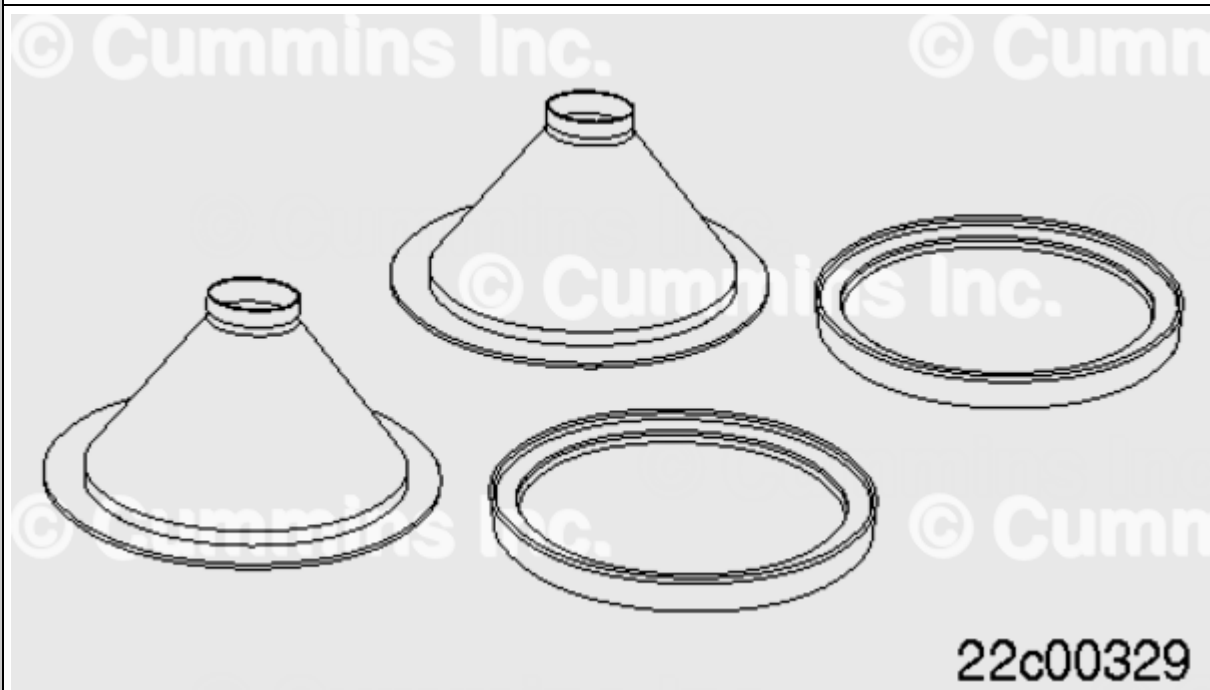

Tool Number

4918893

Diesel Particulate Filter Cleaner Adapter Kit

Used with Part Number 4918840 to adapt the diesel particulate filter to the cleaner.

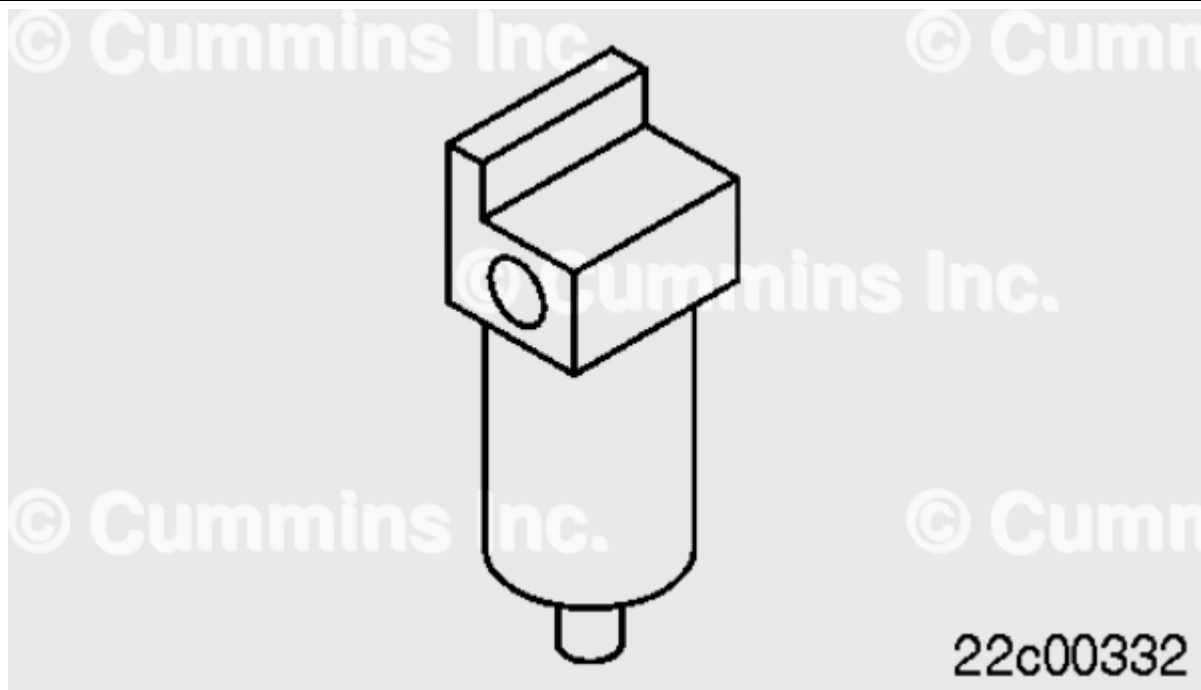

Tool Number

4918896

Diesel Particulate Filter Cleaner Oil Separator Filter

Used to replace the oil separator filter on diesel particulate filter cleaner, Part Number 4918840.

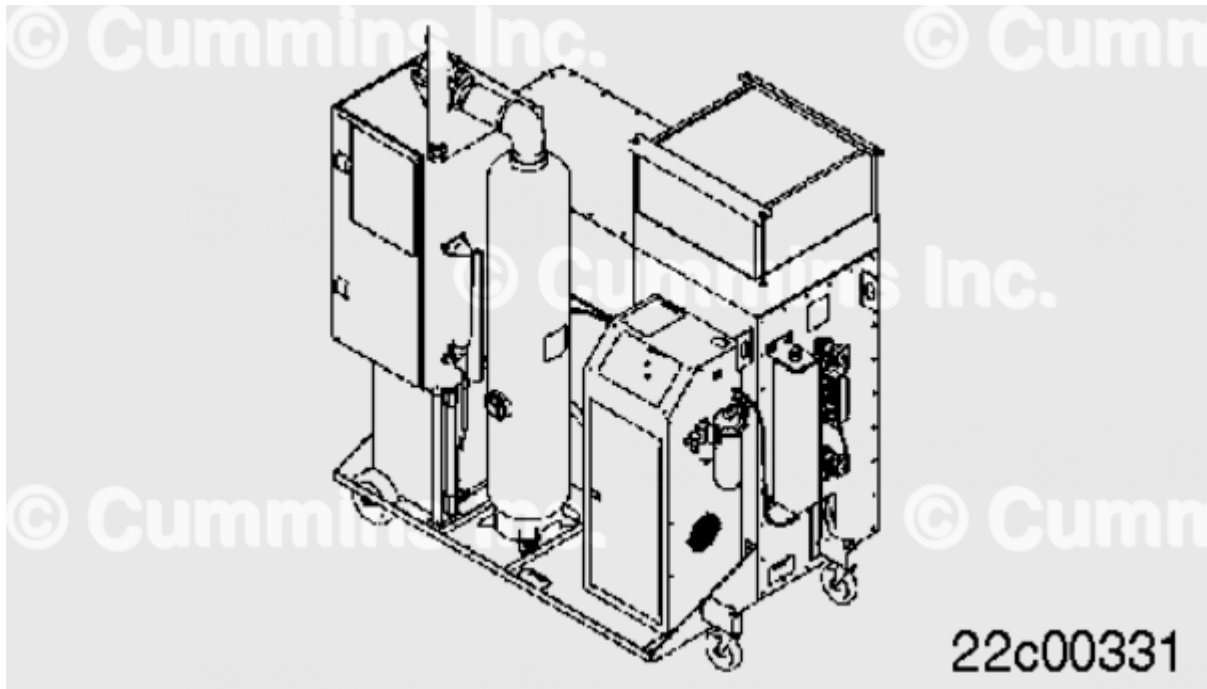

Tool Number

4919052

Diesel Particulate Filter Cleaner

This machine is used with diesel particulate filter cleaner adapter kit, Part Number 4919172 or 4919182, to clean the diesel particulate filter once it is removed from the vehicle. (For use in the U.S.A. and Canada.)

Tool Number

4919053

Diesel Particulate Filter Cleaner Canister Filter

Used to replace the canister filters on diesel particulate filter cleaner, Part Number 4919052.
Two are required per machine.

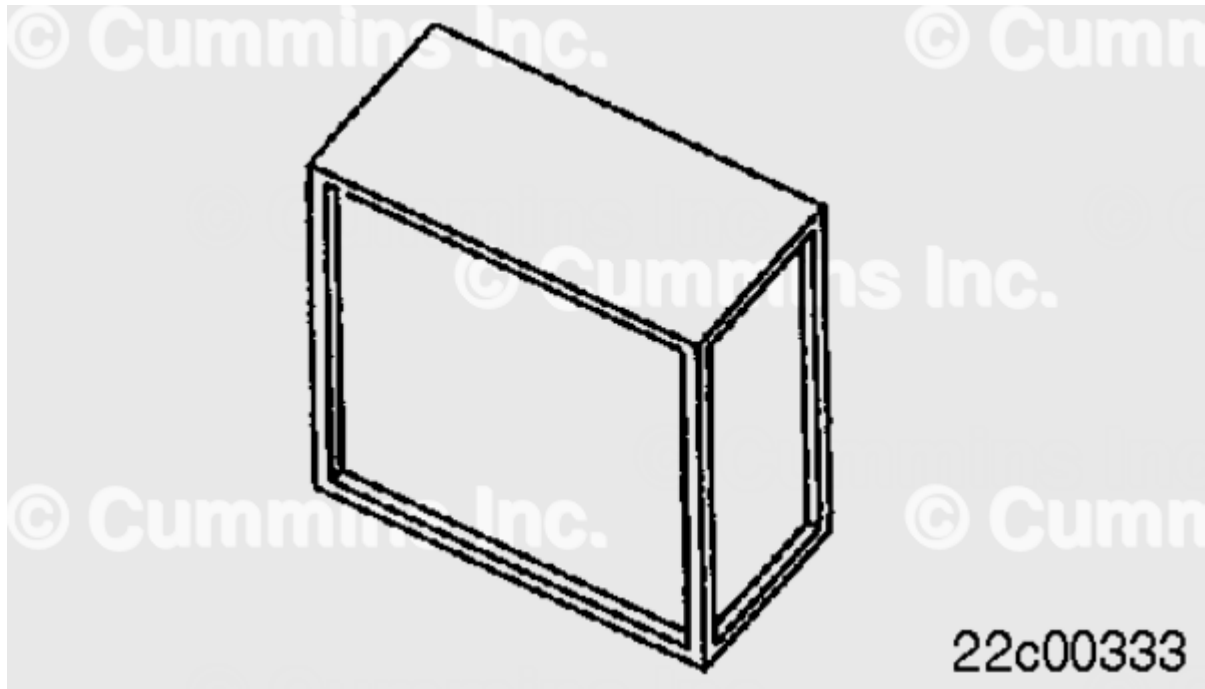

Tool Number

4919054

Diesel Particulate Filter Cleaner HEPA Filter

Used to replace the HEPA filter on diesel particulate filter cleaner, Part Number 4919052.

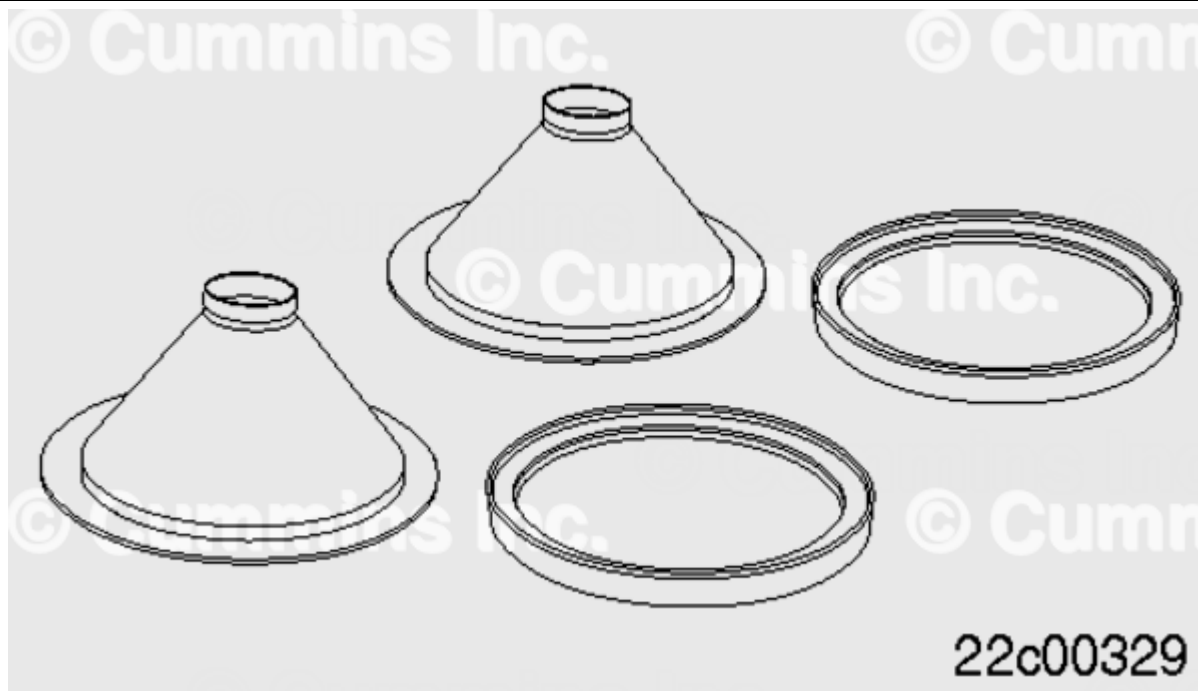

Tool Number

4919172

Diesel Particulate Filter Cleaner Mounting Adapter Kit

Used with Diesel Particulate Filter Cleaner, Part Number 4919052, to adapt the diesel particulate filter to the cleaner. Software unlock card, Part Number 4919055, is included in this adapter kit to upload the required cleaning parameters.

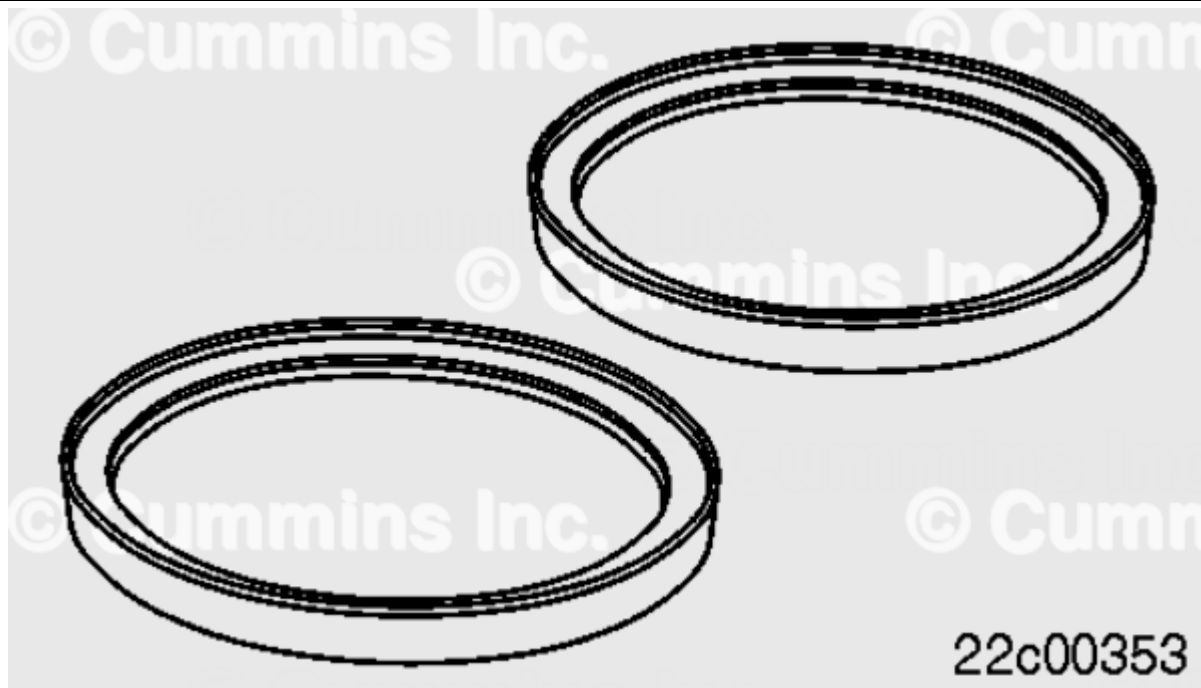

Tool Number

4919182

Diesel Particulate Filter Cleaner Mounting Adapter Kit

Used with Diesel Particulate Filter Cleaner, Part Number 4919052 or 4918840, to adapt the diesel particulate filter to the cleaner.

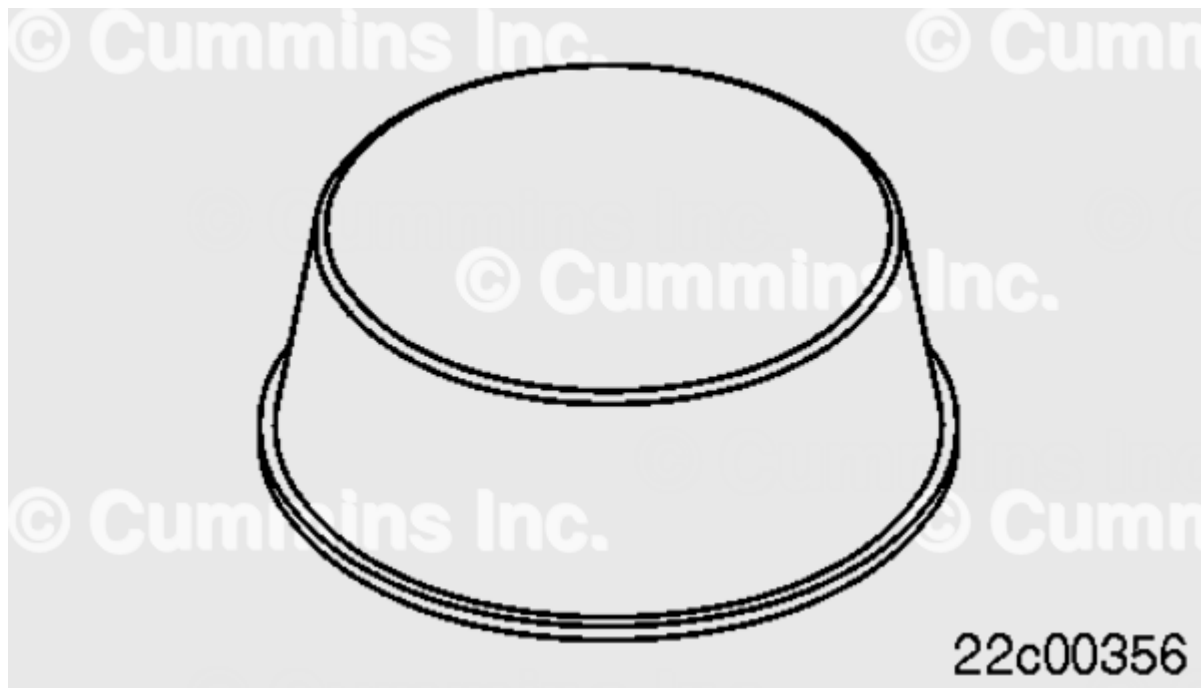

Tool Number

4919403

Air Handling Clean Care Kit for ISX Engine Components

Contains a variety of caps to prevent contamination of vehicle air handling plumbing during service procedures.

Tool Number

4919425

Air Handling Clean Care Kit for Vehicle Plumbing

Contains a variety of caps to prevent contamination of vehicle air handling plumbing during service procedures.
