Using Starting Aids

Marine Applications

⚠ WARNING ⚠

Do not use starting fluids with this engine. This engine is equipped with an intake air heater; use of starting fluid can cause an explosion, fire, personal injury, severe damage to the engine and property damage.

The **only** recommended cold weather starting aids for marine applications are engine coolant preheaters and oil pan immersion heaters. Contact a Cummins® Authorized Repair Location for more information

Cold weather starting aids are available for your engine. Contact a Cummins® Authorized Repair Location for more information.
