Valve Guide Seals, Cylinder Head

Valve Guide Seals, Cylinder Head

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This Service/Parts Topic indicates a change in Procedure 002-016, Valve Guide Seal, Cylinder Head. The changes made in the procedure and as indicated below clarify the usage of the valve guide seals.

The present production engines use valve guide seal, Part Number 4026791, for both intake and exhaust valve guides, Part Number 4026657; these were introduced in March 2002. The present production valve guide seal, Part Number 4026791, can be used in place of intake valve guide seal, Part Number 4026660, and exhaust valve guide seal, Part Number 4026791, that were used in engine built from 15 May 2000 to the end of February 2002.

Engines built prior to Engine Serial Number (ESN) 14010274 should use intake valve guide seal, Part Number 4003966, and exhaust valve guide seal, Part Number 3606766 and can **not** use the present production valve guide seal, Part Number 4026791.

Compatibility Table

	Engines Built Before ESN 14010274	Engines Built from 15 May 2000 to end of February 2002	Production Engines (After March 2002)
Valve Guide	3680867	4026657	4026657
Valve Guide Seals	4003966, Intake	4026660, Intake	4026791, Intake and Exhaust
	3606766, Exhaust	4026791, Exhaust	
Compatibility	Parts not compatible with engines built after ESN 14010274	Production valve guide seals are backwards compatible to ESN 14010274	

Note : This is a product improvement not subject to campaign.
