

Display Does Not Dim or Illuminate

Symptoms

- Display does **not** dim or brighten when pressing the button on the ED-4 display.

How To Use This Tree

This symptom tree can be used to troubleshoot display dimming issues, if equipped. Start by performing Step 1 troubleshooting. Step 2 will ask a series of questions and will provide a list of troubleshooting steps to perform, depending on the symptom.

Shoptalk

The dimming feature may **not** be available on all vessels.

Troubleshooting Summary

STEPS		SPECIFICATIONS
STEP 1.	Check the display.	
	STEP 1A. Check the dimmer switch (helm).	Greater than 100k ohms resistance when switch is in OFF position?
	STEP 1B. Check the display dimmer.	Does the ED-4 display brighten or dim when buttons are pressed?
	STEP 1C. Check display software.	Is there a later software revision for the ED-4 display?
