Description

Valve Spring Compressor Kit

Purpose

This document provides instructions for the valve spring compressor kit, Part Number 3163606, on the NH, NT, N14, and V28 Series engine. Optional valve spring compressor plates are available for K19, K38, K50, QSK19, QSK45, QSK60, QSK23, QSK78, and V903 engines.

This kit is used to remove and install the valve springs, valves, and associated hardware. The mounting adapter (1), Part Number 3163176, can be used for **all** engine applications listed in this instruction. One side of the mounting adapter is smaller than the other side. The small side is used for the NH, NT, N14, V28, and V903 engines. The large side is used for the K19, K38, K50, QSK19, QSK45, QSK60, QSK23 and QSK78 engines.
