Century™ Phase II Release

Century™ Phase II Release

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document was originally released between 1994 and 2001. It has been added to QSOL for informational purposes

The purpose of this document is to announce the release of CENTRY™ Phase II. CENTRY™ Phase II includes new ECMs, new engine harnesses, new calibrations, and new features.

The following publications have been revised and are available:

- Operation and Maintenance Manual CENTRY™ System (PT), Bulletin No. 3666069
- Troubleshooting and Repair Manual CENTRY™ System, Bulletin No. 3666070
- CENTRY™ Wiring Diagram, Bulletin No. 3666078.

CENTURY™ Phase II

New Hardware

The CENTRY™ Phase II ECM and engine harness are designed to provide reduced probability of ECM connector pin wear. The Phase II ECMs and engine harnesses supersede and obsolete the Phase I ECMs and engine harnesses. Refer to Table 1 and Fig. 1 for the CENTRY™ System component part numbers. Phase I and Phase II hardware can be intermixed on an engine.

⚠ CAUTION ⚠

Over-torque of the ECM connector capscrew can cause severe damage to the ECM and engine harness.

Connector Capscrew Torque 0.7N•m [6 in-lb]

New Calibrations

The first new feature is the capability of using CENTRY™ with GE's new electric drive system, STATEX III+. The STATEX III+ system provides a variable frequency throttle signal for engine speed control. CENTRY™ Phase II is compatible with this frequency throttle signal. A new engine harness is required with a variable frequency throttle control. Refer to Table 1 for part number information.

This is a product improvement and is **not** subject to campaign.

Table 1: CENTRY™ System Components and Part Numbers

Item No.	Description	Phase I Component Part No.	Phase II Component Part No.
1	12 Volt ECM	3619026	3654717
1	24 Volt ECM	3619027	3654718
2	Rail Pressure Sensor	3080416	3080416
3	Engine Speed Sensor (Thick Locknut)	3079604	3079604
3	Engine Speed Sensor (Thin Locknut)	3085229	3085229
4	12 Volt EFC Valve	3063507	3063507
4	24 Volt Low Flow EFC Valve	3063504	3063504
4	24 Volt High Flow EFC Valve	3063505	3063505
5	L10 Engine Harness	3620570	3896870
5	NT Engine Harness	3076173	3082610
5	K19 Engine Harness (without electronic STC)	3084168	3088289
5	K19 Engine Harness (with electronic STC)	3084111	3088290
5	Standard Throttle K38 Engine Harness	3620573	3629161
5	Standard Throttle K50 Engine Harness	3620574	3629161
5	Frequency Throttle K50 Engine Harness	-	3629148
