K19 and QSK19 Piston Ring Set Usage

K19 and QSK19 Piston Ring Set Usage

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document introduces new piston ring sets for use on the K19 and QSK19 series engines.

The purpose of this document is to provide clarification on using the correct ring set for a given engine.

Factory new engines may be built with a different ring than listed, but all replacements in service should follow the instructions below.

During a rebuild or service event, ring sets can be mixed in the engine, but old and new part number rings **must not** be mixed in a given cylinder.

The installation procedure remains unchanged.

QSK19	
Description	Part Number
Piston Ring Set	4090028
Ring, oil piston	3090450
Ring, compression piston	4910253
Ring, compression piston (top)	4924584
K19 Marine	
Description	Part Number
Piston Ring Set	4955975
Ring, oil piston	3090450
Ring, compression piston	3090460
Ring, compression piston (top)	4924584
K19 Except Marine	
Description	Part Number
Piston Ring Set	4352282

K19 Except Marine	
Description	Part Number
Ring, oil piston	3090450
Ring, compression piston	3090460
Ring, compression piston (top)	4081176
Natural Gas Engines	
Description	Part Number
Piston Ring Set	2881745
Ring, oil piston	3090450
Ring, compression piston	3068813
Ring, compression piston (top)	4081176
